Sacred Space Stories From A Life In Medicine:

Sacred Space Clif Cleaveland, 1998 These stories of illnesses often painful in the retelling reveal much about the nature of the suffering experienced by patients and by the physicians who care for them **Physician of Souls** Jeanne Stevenson-Moessner, 2024-06-11 While our current culture places a divide between religion and medicine in some cultures the healer and the religious leader were the same The phrase physician of souls is a connective term that links those who primarily tend the physical bodies of the suffering to those who primarily tend the emotions or the psyche or the soul Through teamwork between various types of caregivers the interconnection of body mind soul becomes more apparent Jeanne Stevenson Moessner aims to retrieve expand and apply the term for religious leaders and theologians in their response to pain illness moral injury soul wounding and crisis Stevenson Moessner develops a credo based on John Chrysostom's approach to healing emphasizing the interconnection of body mind soul culture resistance to exploitation and degradation and the importance of community in the healing process The author advocates for a more prominent role for religious professionals such as chaplains in the healing process emphasizing their unique ability to represent the faith tradition of the patient and in the Christian tradition act as an emissary of Christ the Healer Finally the book discusses healing using every means of cure including both medical and religious rituals as well as alternative and holistic approaches The book seeks to revive the concept of physician of souls and apply it in modern times to promote healing and well being on an individual communal and societal level Physician of Souls also includes color pictures to demonstrate aspects of the case studies and concepts enhancing learning for students chaplains and pastoral theologians By emphasizing the importance of a holistic approach to healing Physician of Souls aims to bridge the gap between the medical and religious professions and promote a more integrated approach to healthcare **A Journey** John S. Campbell, MD, 2006-06-26 All of us repeatedly grieve heal and reinvent ourselves throughout our lives Being aware of and active in this inherent aspect of our existence I believe to be a less painful and more satisfying way of living than blindly struggling with or resisting these natural processes John S Campbell M D author of A Journey Creative Grieving and Healing We all die he seems to be telling us What is far more important is that we live a meaningful life before that time comes We all need to dig deep to find our own wisdom so we may understand what John is telling us Nikki DeFrain M S and John DeFrain Ph D from their Foreword *"Something Urgent I Have to Say to You"* Herbert Leibowitz, 2024-05-01 Herbert Leibowitz's *Something Urgent I Have to Say to You* provides a new perspective on the life and poetry of the doctor poet William Carlos Williams a key American writer who led one of the more eventful literary lives of the twentieth century Friends with most of the contemporary innovators of his era Ezra Pound James Joyce Ford Madox Ford and Louis Zukofsky among others Williams made a radical break with the modernist tradition by seeking to invent an entirely fresh and singularly American poetic whose subject matter derived from the everyday lives of the citizens and poor immigrant communities of northern New Jersey His poems mirrored both the conflicts of his own life

and the convulsions that afflicted American society two world wars a rampaging flu pandemic and the Great Depression Leibowitz's biography offers a compelling description of the work that inspired a seminal controversial movement in American verse as well as a rounded portrait of a complicated man pugnacious and kindly ambitious and insecure self-critical and imaginative Something Urgent I Have to Say to You is both a long overdue assessment of a major American writer and an entertaining examination of the twentieth-century avant-garde art and poetry scene with its memorable cast of eccentric pioneers including Marcel Duchamp Man Ray Marianne Moore and Gertrude Stein Forty Years of Sacred Space Dr. Patrick Donovan, 2013-11-01 After forty-three years in the sacred space of caring for patients Dr. Donovan shares his observations and thoughts about illness and healing He believes illness serves us by acting as life's transformative process As such the journey through our illness may be precisely the very experiential journey we need to realize our healing and ourselves more fully After all we don't get cancer Cancer like any illness is a process We are the cancer we manifest Our cancer arises out of our own tissues and cellular make-up To rid ourself of our cancer is to rid ourself of a part of ourself Instead of thinking about illness as something we get something separate from ourselves needing to be removed or defeated Dr. Donovan thinks we might well do better viewing our illness as a transformational journey that must be undertaken and completed for our healing to emerge We can't get rid of ourself but we can transform ourselves and our illness provides us with that opportunity It allows us our healing

From Clinic to Classroom Howard Radest, 2000-03-30 The current development of biomedical ethics is a source of radical critique not only in the clinic but also in the classroom This volume argues that today's moral education is too abstract to be effective and would benefit from the adoption of the practical approach which is typical of biomedical ethics thinking with cases In presenting this approach Radest explores various issues of moral epistemology and advocates the urgency of realism and decision in ethics The use of a rich and complex literature drawn from biomedical ethics pedagogy and philosophy serves to stimulate the reader to think through the moral complexity and ambivalence of modern experience

Manners, Morals, and Medical Care Barry Silverman, Saul Adler, 2020-11-24 This book is a unique reference for medical students residents and allied healthcare workers who are just entering the medical field It outlines in an anecdotal yet pedagogical manner what one should expect and what is expected of an individual when embarking on a career at a clinic or hospital Organized into two sections the book defines in clear terms student responsibilities expectations and appropriate collegial interactions through the implementation of historical moral and ethical narrative techniques Chapters discuss the justification of medical professionalism as defined in medical school core curriculum and how and why such ideological norms exist The book employs clinical scenarios based on incidents chosen to illustrate appropriate behavioral guidelines The book also addresses common but difficult interpersonal problems all practitioners deal with that require empathy including delivering bad news working with families sexual harassment the importance of diversity and burnout in the workplace Each chapter includes short biographies meant to give context of the

integral role of medicine in the development of our modern complex diverse society Comprehensive socially conscious and written in an engaging yet didactic narrative style Manners Morals and Medical Care serves as an authentic source and a practical guide on the responsibilities of a practitioner when caring for patients **Fortress U.S.S.R.** William R.
