Sacred Summits:

Sacred Summits Peter Boardman, 2013-10-01 Mountaintops have long been seen as sacred places home to gods and dreams. In one climbing year Peter Boardman visited three very different sacred mountains. He began on the South Face of the Carstensz Pyramid in New Guinea. This is the highest point between the Andes and the Himalaya and one of the most inaccessible, rising above thick jungle inhabited by warring Stone Age tribes. During the spring Boardman made a four-man oxygen-free attempt on the world's third highest peak, Kangchenjunga. Hurricane-force winds beat back their first two bids on the unclimbed North Ridge, but they eventually stood within feet of the summit, leaving the final few yards untrampled in deference to the inhabiting deity. In October he climbed the mountain most sacred to the Sherpas, the twin summits Gauri Sankar. Renowned for its technical difficulty and spectacular profile, it is aptly dubbed the Eiger of the Himalaya, and Boardman's first ascent took a gruelling twenty-three days. Three sacred mountains, three very different expeditions, all superbly captured by Boardman in *Sacred Summits*, his second book, first published shortly after his death in 1982. Combining the excitement of extreme climbing with acute observation of life in the mountains, this is an amusing, dramatic, poignant, and thought-provoking book. Peter Boardman and Joe Tasker died on Everest in 1982 whilst attempting a new and unclimbed line. Both men were superb mountaineers and talented writers. Their literary legacy lives on through the Boardman Tasker Prize for Mountain Literature, established by family and friends in 1983 and presented annually to the author or co-authors of an original work which has made an outstanding contribution to mountain literature. **Sacred Summits** Peter

Boardman, 1983 **Best Summit Hikes in Colorado** James Dziezynski, 2012-08-07 Colorado has 53 14ers, more than 600 13ers, and hundreds of other peaks that can be reached without special equipment or expertise. Numerous guides dryly catalog these trails, but *Best Summit Hikes in Colorado* stands out from them all. Author James Dziezynski has meticulously selected 80 of the state's absolute best peaks in more than 50 superlative hikes, and his opinionated narrative brings each route to life. Each summit is included because of a notable feature, whether it's the site of a ghost mine or airplane wreckage, has thundering waterfalls or colorful floral meadows, is the best summit for spotting wildlife or bringing out-of-town friends, or is very accessible. Some peaks offer unique opportunities, such as a trailhead accessible only via a steam-powered railroad. Several summits are described in no other publication. Covering all Colorado's major mountain ranges, including the well-known Sangre de Cristo, Gore, Sawatch, Indian Peaks, and Maroon Bell wilderness areas, to the lesser-known Grenadiers, Medicine Bow, and Outer San Juan peaks, this distinctive guide makes it easy to select exactly the right hike for the right day, the right mood, and the right companions. [Holy Mountains](#) Sanjay Desai, 2025-02-27 *Holy Mountains* explores the profound religious and historical significance of mountains across diverse cultures, examining why these geological formations are consistently revered as sacred sites. Mountains often serve as axis mundi, connecting the earthly and divine realms, influencing religious rituals and artistic expression. It's intriguing how mountains, due to their physical grandeur and

perceived proximity to the divine have become central to the spiritual lives of millions. The book adopts an interdisciplinary approach drawing from religious studies, anthropology, and geography to understand mountain veneration. It progresses from establishing a theoretical framework to examining specific examples like Mount Sinai and Mount Kailash and finally analyzing the broader implications for environmental ethics and interfaith dialogue. This study uniquely synthesizes scholarship to offer a comprehensive understanding of sacred landscapes and their cultural heritage.

Environmental and Ecological Sustainability Through Indigenous Traditions Binay Kumar Pattnaik, 2024-07-26. This book explores the environmental and ecological wisdom inherent in some of the indigenous traditions of traditional communities from developing societies like Argentina, Brazil, India, Mexico, Sri Lanka, and Thailand. It throws light on how these discrete and unrecognized traditions have enabled communities to live in harmony with nature for ages. Despite the best efforts of the modern states through policy making, intensive R D for eco friendly technologies and products, social and environmental impact assessment studies, SEIAS, and cost benefit analysis, CBA of projects, environmental and ecological degradation continues mostly in developing societies which house a large number of traditional communities. This book explores their traditions consisting of world views or cosmologies, eco savvy customs, indigenous knowledge systems involving community based occupations and practices, skills and crafts, and so on. This book shows that when interpreted in consonance with scientific environmentalism, these traditions reveal their inbuilt environmental wisdom, mirroring sacredness of nature that have instilled built in conservation practices are key to sustainability. The conception of indigenous traditions that subsume environmental and ecological sustainability as well as cultural identity is studied in the book from the vantage of multi disciplinary perspectives. This book reflects two streams of thought: i) stream of social anthropology arguing for the inbuilt strength of indigenous traditions that necessitate empathetic understanding with their own rights for recognition and survival, and ii) stream of indigenous knowledge systems being technically effective only necessitate validation and certification by modern scientific knowledge system for wider use. The book is of great use to policy makers and non government players in addition to researchers and academicians working in the area of sustainable development and indigenous traditional communities.
