DiValerio, 2025-09-23 An emphasis on practicing meditation in yearslong retreats whether in a cave or a cloister alone or with a small number of peers has been a defining feature of Tibetan Buddhism throughout its entire history Although the life stories and writings of the Himalaya's most famous hermits are well known the history of this tradition and the details of its practice have largely remained a mystery A groundbreaking exploration of individual long term meditative retreat in Tibetan Buddhism **Mountain Dharma** tracks developments in ascetic discourse and practice from the twelfth century to the twentieth David M DiValerio provides a comprehensive reading of texts that offer instruction on the eremitic endeavor comparing how dozens of authors have treated six key orienting concerns place people food sources of danger the spiritual lineage and time The book traces a genealogy of the Tibetan ascetic self demonstrating an increasing tendency to adopt practices that contrast the meditator with earlier generations of enlightened masters defining the latter day retreatant as a being in time By viewing instructions for how to live in retreat as technologies of self this book sheds new light on how the history of this tradition has been driven by evolving notions of personhood Methodologically innovative and richly sourced **Mountain Dharma** sets a new standard for the historical study of asceticism Hidden Valley, Hidden Mind Eleanor

Mannikka, 2011-04-01 In the latter half of the 1950s a series of unusual events that started with a UFO encounter continued with a near death experience and ended with unusual transformations of consciousness started me on a journey to Tibetan Buddhism Several decades passed before I began to suspect that the Tibetan legend of Shambhala might tie these disparate events together This book is the result **Making the Invisible Real** Catherine Hartmann, 2025-05-09 How can a person

learn to see a mountain as a divine mandala especially when to the ordinary eye the mountain looks like a pile of rocks and snow This is the challenge that the Tibetan pilgrimage tradition poses to pilgrims who are told to overcome their ordinary perception to see the hidden reality of the holy mountain Drawing on multiple genres of Tibetan literature from the 13th to 20th centuries including foundational narratives of holy places polemical debates about the value of pilgrimage written

guides to holy sites advice texts and personal diaries this book investigates how the pilgrimage tradition tries to transform pilgrims perception so that they might experience the wondrous sacred landscape as real and materially present Catherine Anne Hartmann argues that the pilgrimage tradition does not simply assume that pilgrims experience this sacred landscape as real but instead leads pilgrims to adopt deliberate practices of seeing ways of looking at and interacting with the world that shape their experience of the holy mountain Making the Invisible Real explores two ways of seeing the pilgrim s ordinary perception of the world and the fantastic vision believed to lie beyond this ordinary perception As pilgrims move through the holy place they move back and forth between these two ways of seeing weaving the ordinary perceived world and extraordinary imagined world together into a single experience Hartmann shows us how seemingly fantastical religious worldviews are not simply believed or taken for granted but actively constructed and reconstructed for new generations of practitioners

**Kailas Histories** Alex McKay,2015-10-27 Tibet s Mount Kailas is one of the world s great pilgrimage centres renowned as an ancient sacred site that embodies a universal sacrality But Kailas Histories Renunciate Traditions and the Construction of Himalayan Sacred Geography demonstrates that this understanding is a recent construction by British colonial Hindu modernist and New Age interests Using multiple sources including fieldwork Alex McKay describes how the early Indic vision of a heavenly mountain named Kailas became identified with actual mountains He emphasises renunciate agency in demonstrating how local beliefs were subsumed as Kailas developed within Hindu Buddhist and B n traditions how five mountains in the Indian Himalayan are also named Kailas and how Kailas sacred geography constructions and a sacred Ganges source region were related

**The Gods in Their Cities** Richard Leviton,2006-01-24 A fresh look at the perennial reality of the gods and how they help humanity through the planet s sacred sites The gods live Though seemingly relegated to the archives of myth the gods of antiquity are still with us in the form of the Great White Brotherhood In fact what the ancients described as their pantheon are members of this is an august assembly of spiritually advanced beings based on the constellation of the Great Bear The Gods in Their Cities based on original clairvoyant research reveals that the Great White Brotherhood has numerous meeting places for humans throughout the planet s array of holy sites Seven different Great White Brotherhood types of geomantic locales are documented and all of them exist in multiple copies on Earth The Gods in Their Cities shows how myths of many cultures from the Irish to Sumerians are actually psychic maps to the planet s secret visionary terrain to the geomantic locales of the Brotherhood and how to successfully interact with them And it probes behind the mythic guises of the Ray Masters 14 select great Adepts involved with many aspects of Earth life and geomancy since the beginning including the true identity of Jesus Mary Magdalene the Virgin Mary and Merlin Merely our knowing that this esoteric Brotherhood and their interactive locales

**Cross-Cultural Perspectives on Hagiographical Strategies** Massimo A. Rondolino, 2017-01-12 This book examines the potential of conducting studies in comparative hagiology through parallel literary and historical analyses of spiritual life writings pertaining to distinct religious contexts In particular it focuses on a comparative analysis of the early sources on the medieval Christian Saint Francis of Assisi 1182 1226 and the Tibetan Buddhist Milarepa c 1052 1135 up to and including the so called standard versions of their life stories written by Bonaventure of Bagnoregio 1221 1274 and Tsangny n Heruka 1452 1507 respectively The book thus demonstrates how in the social and religious contexts of both 1200s Italy and 1400s Tibet narratives of the lives deeds and teachings of two individuals recognized as spiritual champions were seen as the most effective means to promote spiritual doctrinal and political agendas Therefore as well being highly relevant to those studying hagiographical sources this book will be of interest to scholars working across the fields of religion and the comparative study of religious phenomena as well as history and literature in the pre modern period

**Buddhist Hermits in Eastern Tibet** Magdalena Maria Turek, 2025-06-20 Buddhist Hermits in Eastern Tibet explores the ritual and social empowerment of Buddhist monastics devoted to meditation under a charismatic master Based on ethnographic research at a remote hermitage in Yushu Tibetan Autonomous Prefecture Qinghai province in China this book examines contemplative practices and ascetic regimes as performances of renunciation self formation and devotion arguing that the master performs the ideal of Buddhist asceticism via his body and in front of a participant audience Paralleling Tibet s famed hermit Milarepa eleventh twelfth century the ascetic master Tsultrim Tarchin is believed to have achieved liberation in this body and life demonstrating that renunciation can be empowering and that elite practices and local tradition can be relatable to untrained laity and transnational practitioners alike Providing new insights and capturing a vital aspect of the ethno religious revival among Tibetans in China this book enhances our understanding of Buddhist meditation in retreat and of the social and embodied dimensions of spiritual liberation This book will be of interest to academic researchers and students of Buddhism Religion Anthropology and Asian Studies

*Religious Boundaries for Sex, Gender, and Corporeality* Alexandra Cuffel, Ana Echevarria, Georgios T. Halkias, 2018-10-09 The ambiguity concerning the interpretation of the physical body in religious thought is not peculiar to any given religion but is discernible in the scriptures practices and disciplines in most of the world s major religious traditions This book seeks to address the nuances of difference within and between religious traditions in the treatment and understanding of what constitutes the body as a carrier of religious meaning and or vindication of doctrine Bringing together an international team of contributors from different disciplines this collection addresses the intersection of religion gender corporeality and or sexuality in various Western and Eastern cultures The book analyses instances when religious meaning is attributed to the human body s physicality and its mechanics in contrast to imagined or metaphorical bodies In other cases it is shown that the body may

Wayne Verrill, 2012-08-15 *The Yogini's Eye: Comprehensive Introduction to Buddhist Tantra Volume I: Systemization and Interpretation* introduces a new translation series *Classics of the Early Sakya* which will focus on the extensive literature of the Sakya Lamdre lineage of the Hevajra Tantra cycle of revelation. This first volume of introduction is the earliest book of its type and comprehensive treatment of the subject matter to have been written and initiated the scholarly study of Tibetan Buddhist Tantra. Subsequent studies in all lineages were built on the foundation established by this book. *The Yogini's Eye* has served as the introductory textbook for the study of Sakya Tantra continuously for over 800 years. Over the centuries the textbook has been supplemented by a total of fifteen commentaries and study guides written by the most learned scholars of the Sakya tradition including Lama Dampa Sonam Gyaltsen 1312-1375, Yeshe Gyaltsen 1300-1406, Ngorchon Kunga Zangpo 1382-1450, Lowo Khenchen Sonam Lhundrup 1456-1532, Ngorchon Konchok Lhundrup 1497-1547, Amezhap Ngawang Kunga Sonam 1597-1659 and Dezhung Chopel Jamyang Kunga Namgyal 1880-s mid 1950-s. This first English edition contains the translation of thirteen of these study guides excluding all repetitive sections inserted into the original book in the appropriate context.

**Water, Cultural Diversity, and Global Environmental Change** Barbara Rose Johnston, Lisa Hiwasaki, Irene J. Klaver, Ameyali Ramos Castillo, Veronica Strang, 2011-12-21. Co-published with UNESCO. A product of the UNESCO IHP project on Water and Cultural Diversity, this book represents an effort to examine the complex role water plays as a force in sustaining, maintaining, and threatening the viability of culturally diverse peoples. It is argued that water is a fundamental human need, a human right, and a core sustaining element in biodiversity and cultural diversity. The core concepts utilized in this book draw upon a larger trend in sustainability science: a recognition of the synergism and analytical potential in utilizing a coupled biological and social systems analysis as the functioning viability of nature is both sustained and threatened by humans.

*The Crisis of the Holy* Alon Goshen-Gottstein, 2018-08-08. All the world's religions are experiencing rapid change due to a confluence of social and economic global forces. Factors such as the pervasive intrusion of globalizing political and economic developments, polarized and morally equivalent presentations seen in the media, and the sense of surety demanded in and promised by a culture dominated by science are some of the factors that have placed extreme pressure on all religious traditions. This has stimulated unprecedented responses by religious groups ranging from fundamentalism to the syncretistic search for meaning. As religion takes on new forms, the balance between individual and community is disrupted and reconfigured. Religions often lose the capacity to recall their ultimate purpose or lead their adherents toward it. This is the situation we call the crisis of the holy. It is a confluence of threats, challenges, and opportunities for all religions. This volume explores the contours of pressures, changes, and transformations and reflects on how all our religions are changing. By identifying commonalities across religions as they respond to these pressures, *The Crisis of the Holy* recommends ways religious traditions might cope with these changes and how they might join forces in doing so. **The Eastern Land and the Western Heaven** Fan Zhang, 2023-12-22 This book sheds light on the

structure of a unity with diversity developed in the Qing imperial formation 1636-1912 by a case study of the Qing-Tibetan encounters in the eighteenth century. By analyzing historical and ethnographical materials, the book investigates the translation of Chinese histories and stone inscriptions into Tibetan, the transformation of the landscapes at Mount Wutai and Lhasa, and the transplantation of Chinese deities and medical practices to Tibet. It demonstrates the processes in which the cosmopolitan interlocutors reified imperial integrity while expressing their diverse longings and belongings. It concludes that the Qing's rule over its cultural others was neither simply Sinicizing nor colonizing but a translational process in which multivocalic actors shared narratives, landscapes, and practices while the emperor and tantric masters performed cosmic power over humans and metahumans. This book cuts across the fields of anthropology, history, Chinese Studies, and Tibetan Studies. It reflects on the concepts of sovereignty and ethnicity and it also extends the methodological horizon of historical anthropology.
