The Sacred Journey Charles Foster, 2010-12-27 When Yahweh became a man he was a homeless vagrant He walked through Palestine proclaiming that a mysterious kingdom had arrived He called

people to follow him and that meant walking Charles Foster Humans are built to wander History is crisscrossed by their tracks Sometimes there are obvious reasons for it to get better food for themselves or their animals to escape weather wars or plague But sometimes they go at great expense and risk in the name of God seeking a place that feels sacred that speaks to the heart God himself seems to have a bias toward the nomad The road is a favored place a place of epiphany That s all very well if you are fit and free But what if you are paralyzed by responsibility or disease What if the only journey you can make is to the office the school or the bathroom Best selling English author and adventurer Charles Foster has wandered quite a bit and he knows what can be found and lost on a sacred journey He knows that pilgrimage involves doing something with whatever faith you have And faith like muscle likes being worked Exploring the history of pilgrimage across cultures and religions Foster uses tales of his own travels to examine the idea of approaching each day as a pilgrimage and he offers encouragement to anyone who wants to experience a sacred journey The result is an intoxicating highly readable blend of robust theology and lyrical anecdote an essential guidebook for every traveler in search of the truth about God himself and the world When Jesus said Follow me he meant us to hit the road with him The Sacred Journey will show you how The Ancient Practices There is a hunger in every human heart for connection primitive and raw to God To satisfy it many are beginning to explore traditional spiritual disciplines used for centuries everything from fixed hour prayer to fasting to sincere observance of the Sabbath Compelling and readable the Ancient Practices series is for every spiritual sojourner for every Christian seeker who wants more

Nordic Italies Elettra Carbone, 2016-01-22 Because of its history art and natural and cultural landscapes Italy has been a popular destination for North European travellers since the age of the Grand Tour Yet literary images of Italy are not all linked to the tradition of the journey to this country and cannot be labelled as a manifestation of Northerners yearning for the Southern sun The corpus of critical literature which deals with Italy in Nordic literatures is very wide but also fragmentary While many scholars have written about this topic and chiefly on the relations between individual Scandinavian literatures or well known authors such as Henrik Ibsen Selma Lagerl f and Hans Christian Andersen and Italy few have emphasised their variety plurality and complexity With its comparative approach this study casts a new light on a selection of nineteenth and twentieth century representations of Italy and presents some of these Nordic Italies Taking into account texts of different genres poetry drama and novel and focusing on theories of representation genre and space this book examines complex and heterogeneous literary representations that cannot be reduced to a single stereotype In these texts Italy emerges both as a set of physical spaces and as a series of metaphorical concepts How are these Italian spaces and identities constructed and what do they stand for What forms does the broad concept of Italianness take in these literary works How are the Italian settings and characters as well as the aspects of Italian politics history society culture and folklore that populate so many literary texts shaped and combined Is there a relationship between specific literary genres and the way in which Italy is represented These are only some of the questions addressed by this study which demonstrates how Nordic representations of Italy express much more than unanimous praise for the sun idyllic landscapes ruins and mandolin players
