Sadcc Prospects For Disengagement And Development In Southern Africa:

SADCC Samir Amin, Derrick Chitala, Ibbo Mandaza, 1987 The Southern African Development Co ordination Conference SADCC comprises nine radically different states was formed in 1980 with the objective of reducing the region s dependence on apartheid South Africa SADCC has been subjected to much critical skeptical sometimes superficial analysis by mostly outside observers This collection of essays projects an African perspective on an organisation seen as a hopeful augury of a more prosperous genuinely independent African future Candid comprehensive the essays present a cautiously optimistic view of the region s prospects of a successful delinking from South Africa

SADCC Samir Amin, Derrick Chitala, Ibbo Mandaza, 1987 **SADCC S** (Samir); Chitala Amin (D (Derrick); Mandaza, I (Ibbo).), 1987 **Southern Africa After**

Apartheid Bertil Odén, 1993 **The Political Economy of the Southern African Periphery** Betty J. Harris, 1992-12-09

A Post-Apartheid Southern Africa? Pierre Beaudet, Nancy Thede, 1993-12-13 The book takes a hard look at internal developments and class formation in the region and explores the complex dynamics underlying the failure of socialist transformation demystifying the highly simplified destabilisation thesis and pointing to some of the problems that forces for change in South Africa itself may have to face in the 1990s The chapters make significant reference to changing present and future relations with South Africa and to the impact of internal changes on the development of neighbouring countries

The Southern African Development Community (SADC) and the European Union (EU) Johannes Muntschick, 2017-10-09 This book explores regionalism in the Southern African Development Community SADC and highlights the influence of the European Union EU as an extra regional actor on the organization and integration process The analysis is guided by theory and explains the emergence institutional design and performance of SADC s major integration projects in the issue areas of the economy security and infrastructure It provides in this way a profound assessment of the organization as a whole The study shows that South Africa plays a regional key role as driver for integration while external influence of the EU is ambivalent in character because it unfolds a supportive or obstructive impact The author argues that the EU gains influence over regional integration processes in the SADC on the basis of patterns of asymmetric interdependence and becomes a game changer insofar as it facilitates or impedes solutions to regional cooperation problems

State-Business Relations and Economic Transformation in South Africa and Zimbabwe Sinan Baran, 2023-06-12 In *State Business Relations and Economic Transformation in South Africa and Zimbabwe* Unfinished Transformation Sinan Baran examines state business relations SBRs in semi peripheral South Africa and peripheral Zimbabwe after each country s transition to majority rule to address why SBRs are likely to either consolidate or fracture in post transition communities In both countries the majority governments faced unresolved post transition divisions relating to race inequality and underdevelopment Baran analyzes the liberalisation and indigenisation policy choices intended to address these areas that are impacting the mining industries in South Africa and Zimbabwe as case studies Using comparative analysis and a Modern

World Systems lens he argues that semi peripheral countries are less susceptible to pressures from domestic and external powers than peripheral countries during periods of economic transformation He further argues that China's significant political and economic presence in a peripheral country like Zimbabwe has more effect on SBRs than in a semi peripheral country like South Africa *Economic Integration and Development in Africa* Henry Kyambalesa, Mathurin C.

Houngnikpo, 2016-04-29 The debates over what African economic integration and development actually entails continue across international economic organizations national governments and NGOs Despite the glare of media attention and the position this issue has on international political agendas few comprehensive accounts exist that fully examine why this process will be inevitable in the 21st century and how integration of national economies can be attuned to attaining the socio economic goals and aspirations of member countries This book addresses this problem It combines theory with application enumerating the imperatives and initiatives governments will be forced to confront providing insights for educators and students in African development for policy makers in African governments and for inter governmental organizations

Studies in the Economic History of Southern Africa Z.A. Konczacki, Jane L. Parpart, Timothy M. Shaw, 2014-01-14 First Published in 1990 Volume Two of Studies of Economic History of South Africa looks at the Lesotho and Swaziland regions The unfolding history and historiography of Southern Africa pose profound challenges for both analysis and praxis in the last decade of the twentieth century These challenges are reflected in the range of investigations and contradictions some of which are treated here which together constitute an intellectual and political conjuncture This collection of studies deals with the countries which were not included in the companion book on the economic history of the Front Line States Most of the space in the present volume is devoted to South Africa primarily because of its importance to the region but also because contributions to the economic history of that country in English are very extensive as compared to the other states of Southern Africa **Regional Organisations and Security** Stephen Aris, Andreas Wenger, 2013-10-30 This book aims to examine the conceptions and practices of security adopted by Regional Organisations ROs across the globe Since the end of the Cold War there has been an increased focus on regions as a relevant realm for security with actors within regional contexts identifying a significant degree of interdependency between one another As a consequence international security has taken on a distinct regionally institutionalised character as seen by the increase in calls for greater utilisation of Chapter VIII Regional Arrangements of the UN in order to create a devolved UN led system of global security management However the idea of a system of global security management is a remote prospect because divergence seems to be as important as commonality in terms of regional security In light of the above Regional Organisations and Security analyses the primary ROs that are active in Africa Asia Eurasia the Middle East and South America The findings of individual case studies are compiled to highlight disparities and similarities in how security is seen prioritised understood practised managed and implemented across regions On this basis the authors reach conclusions about whether we live in an increasingly globalised or regionally

distinct world and go on to assess the prospects for a globalised system of security management and consider how this might be developed and organised This book will be of interest to students of comparative regionalism international organisations international security and IR

Theory, Change and Southern Africa P. Vale,L. Swatuk,B. Oden,2001-06-26 As dramatic changes unfold throughout the world and the new millennium begins many in South Africa have begun to ask what next The scale and pace of change have led to a feeling of powerlessness How to cope with globalization regionalization a depleting ozone layer new diseases rampant militarization let alone unseen structures of influence and oppression like race class and gender While there is no shortage of theoretical models on offer many feel that they are inadequate for the case of Southern Africa In this book scholars of both international relations and Southern Africa present a wide variety of thoughts on the future of the region and the place of theory in helping us to understand the bewildering array of events characterizing the late modern early twenty first century world This book marks a call to theory if Southern Africans are to overcome the divisive legacy of the past and to move toward a more prosperous and sustainable collective future theory must be placed at the centre of everyday life For it is our understanding of the world that shapes both it and us

The Dynamics of Change in Southern Africa Paul B. Rich,2016-07-27 An up to date survey of political and economic trends in the Southern African region It brings together a well informed group of specialists who examine regional security issues the prospect for a constitutional settlement in South Africa and the problems facing Mozambique Angola Zimbabwe the BLS territories and Namibia The volume adopts an area studies approach and explores fresh analytical perspectives to understand change in the region in the light of the end of the Cold War and the decline of super power involvement in its affairs

Transnational Activities of Women-Focused Civil Society Actors in Southern Africa Cecilia Lwiindi Nedziwe,Oluwaseun Tella,2023-06-30 This book focuses on southern Africa by engaging with norms from various perspectives and how they have proliferated within a neo liberalising context since the 1990s It particularly examines gender norms in relation to agency influence and their impact Despite growing transnational activities regional studies analyses have so far maintained a primarily linear logic not incorporative of the increasing interface between state and non state regionalism in a transnational context since the advent of liberalisation and democratisation Increasing non state activities and their connection to state processes involved in norm creation adaptation diffusion and implementation around broad questions of security including gender security amount to regional thickening The book s analytical approach is informed by alternatives to mainstream approaches emphasising processes rather than linearity inherent in regional international relations studies The research reveals that transnational activities and regionalisation of gender and women focused civil society actors are critical for advocacy and diverse representation within intergovernmental policymaking structures at the regional scale

Region-Building in Southern Africa Chris Saunders, Gwinyayi Albert Dzinesa, Dawn Nagar, 2013-07-04 How successful have Southern African states been in dealing with the major issues that have faced the region in recent years What could be done to produce more cohesive and effective region building in Southern Africa In this original and wide ranging volume which draws on an interdisciplinary team of mainly African and African based specialists the key political socio economic and security challenges facing Southern Africa today are addressed These include the various issues confronting the Southern African Development Community SADC and its institutions such as HIV AIDS migration and xenophobia land grabbing and climate change and the role of the main external actors involved with the region

including the United Nations the European Union the United States and China The book also looks at the Southern African Customs Union and Southern African Development Finance Institutions including the Development Bank of Southern Africa and Industrial Development Corporation and issues of gender and peacebuilding In doing so the book goes to the heart of analyzing the effectiveness of SADC and other regional organisation suggesting how region building in Southern Africa may be compared with similar attempts elsewhere in Africa and other parts of the world *The Geopolitics of Regional Power* Sören Scholvin,2016-03-09 In the last two decades various states from the Global South have emerged as important players in international relations Most popular among them is China Brazil India and South Africa have also taken essential roles in global and regional politics Compared to traditional great powers they can be labelled regional great powers or regional powers because their influence is with the exception of China concentrated on their neighbourhood The impact of regions meaning the impact of geography on the economics and politics of regional powers is surprisingly understudied This book analyses how geographical conditions influence the regional economics and politics of South Africa allowing the author to delineate its region of influence *Regionalization and Security in Southern Africa* N. Poku,2001-02-02 Once torn by ideological conflicts and the dominance of command economies Southern Africa is now moving towards economic liberalism and openness In general the ascendancy of market economics is acknowledged by its governments albeit with different degrees of enthusiasm Theoretically rich and empirically engaging this timely book offers a critical insight into the ensuing debate on regionalism and the process of regionalization in southern Africa
