The Politics of Landscapes in Singapore Lily Kong, Brenda S. A. Yeoh, 2003-02-01 This thought provoking book explores strategies employed by Singapore a multiracial society to create a Singapore nation with an emphasis on the role of landscape As such the authors cast keen eye on religious buildings public housing heritage landscapes and street name changes as tangible methods of nation building in a postcolonial society The authors illustrate how nation and national identity are concepts that are negotiated and disputed by varied social economic and political groups some of which may actively resist powerful state centrist attitudes Throughout this work the role of the landscape prevails both as a way to naturalize state ideologies and as a means of providing possibilities for reinterpretation in everyday life **Monthly**

Yeong, 2019-09-30 Based on extensive interviews and archival material The First Wave tells the story of the opposition in Singapore in its critical first thirty years in Parliament Democratisation has been described to occur in waves The first wave of a democratic awakening in post independence Singapore began with J B Jeyaretnam's victory in the Anson by election of 1981 That built up to the 1984 general election the first of many to be called a watershed in which Chiam See Tong was also elected in Potong Pasir After their successes in 1991 the opposition began dreaming of forming the government But their euphoria was short lived Serious fault lines in the leading Singapore Democratic Party SDP rose to the surface almost immediately after the opposition victories of 1991 and the party was wiped out of Parliament by 1997 The opposition spent the next decade experimenting with coalition arrangements to work their way back to victory **Dictionary of the Modern**

Politics of Southeast Asia Joseph Chinyong Liow, 2014-11-20 The past two decades since the end of the Cold War have been years of remarkable change and transformation for Southeast Asia Long seen as an arena for superpower rivalry Southeast Asia is increasingly coming into its own by locating itself at the forefront of regional integration initiatives that involve not only the Association of Southeast Asian Nations but major external powers such as the United States China India Japan and Australia as well At the same time the past two decades has seen the revival of old animosities as well as the emergence of new security challenges confronting the region Old animosities include unresolved territorial disputes while new challenges range from regional and global financial crises terrorism and pandemics Significant changes within the ten Southeast Asian countries covered in this book have also transpired that have affected not only the complexion of domestic politics but have also impacted regional diplomacy as well such as the creation of potentially the eleventh Southeast Asian

The U.S.-Singapore Free Trade Agreement Eul-Soo Pang, 2011 Free trade has become the mantra of development strategy for many countries in the world especially those in the Asia Pacific This book delves into the American side of the story It is about how Singapore and the United States came to sign the agreement in 2003 taking effect from 1 January 2004 The United States Singapore Free Trade Agreement USSFTA is the first FTA that America signed with an Asian country and the second such agreement with a fully developed country after Canada The city state has used a free trade agreement as both a national survival and a growth strategy first forging such FTA ties with its major trading partners and then expanding its strategic link to such extra regional great powers as the United States Japan Australia China India and the European Union Both Singapore and the United States saw in FTAs something more than just merchandise trade *Modernity And Consumption: Theory, Politics, And The Public In Singapore And Malaysia* Antonio Leopold Rappa, 2002-03-25 The Enlightenment theorists involved in the public private debate exposed the logical fallacies of theology and the philosophical weaknesses of metaphysics but left little room for understanding contemporary modes of consumption What does it mean to be a consumer in the early 21st century Do modern markets provide real choices for consumers in neoliberal capitalist democracies Or are consumers ironically slaves to their own patterns of consumption Rejecting Habermas conceptualizations in *The Structural Transformation of the Public Sphere* 1991 Rappa offers an examination of modernity and consumption with a non Marxist modernity Resistance theoretical frame mRf He argues that late modernity the ethos experience and consciousness of global and technological transformation today is not about the fusion of public and private spaces Rather modernity and consumption involves the deep penetration of private space by public space to the extent that private space becomes dependent conditional and decrepit The Private has become contingent

on the Public Decisions about what to consume no longer reflect the mindful choices of private interest seeking and wealth maximizing individuals but reveal a new kind of public control through foundational images of success failure horror violence and hope Gunton's Magazine of American Economics and Political Science Starr Hoyt Nichols, Stanhope Sams, 1903

America's Strategy in Southeast Asia James A. Tyner, 2006-12-21 Geography encompasses everything from the local where human beings live work and travel to metageographies like nations and regions James A Tyner's inventive and multidisciplinary ideas on geography similarly range from the personal his father's experience in the military during the Vietnam War to a broad discussion of how the United States has come to exercise power through the production of geographic knowledge in this case in Southeast Asia Since the end of the Second World War Southeast Asia has served as a surrogate space to further American imperial interests which are economic political territorial and moral in scope America's Strategy in Southeast Asia contends that the construction of Southeast Asia as a geographic entity has been a crucial component in the creation of the American empire For example America's most blatant experience of colonial rule occurred the Philippines America's longest war was fought in Vietnam and most recently some American policymakers have identified Southeast Asia as the Second Front in the War on Terror Yet America's overriding strategy in Southeast Asia and the region itself remains something of a mystery for the American populace a black box in America's geographical imagination This clear and innovative book educates readers about Southeast Asia's importance in American foreign policy *Party of One* Chun Han Wong, 2024-05-21 Drawing on his years of first hand reporting across China including insights from scholars and diplomats and analyses of official speeches and documents a Wall Street Journal correspondent provides a broad lucid account of China's leader and how he inspires fear and fervor in his Party his nation and beyond **Central America Mineral Industry Handbook Volume 1 Strategic Information and Mining Laws** IBP, Inc., 2016-11-29 Central America Mineral Industry Handbook Strategic Information and Regulations
