1990 has been designed for people who enjoy study and buy British art The only portable dictionary style guide to the life and work of modern British painters and printmakers the book provides information on some 2 000 artists as well as entries on schools of art on museums galleries and collections on societies and groups and critics and patrons who have influenced the

development of modern art in Britain Artists are included if they at one end of the timescale had finished their training by 1900 and were truly beginning their professional career in the twentieth century and at the other end of the timescale had established themselves professionally on the national scene by 1990 If the artist was foreign born he or she is included if they resided in Britain and exhibited or worked here long enough for their presence to be of significance for British art Left Out Kimberley Reynolds, 2016 Left Out presents an alternative and corrective history of **Publishers Weekly** ,1985 writing for children in the first half of the twentieth century Between 1910 and 1949 a number of British publishers writers and illustrators included children's literature in their efforts to make Britain a progressive egalitarian and modern society Some came from privileged backgrounds others from the poorest parts of the poorest cities in the land some belonged to the metropolitan intelligentsia or bohemia others were working class autodidacts but all sought to use writing for children and young people to create activists visionaries and leaders among the rising generation Together they produced a significant number of both politically and aesthetically radical publications for children and young people This radical children s literature was designed to ignite and underpin the work of making a new Britain for a new kind of Briton While there are many dedicated studies of children's literature and childrens writers working in other periods the years 1910 1949 have previously received little critical attention In this study Kimberley Reynolds shows that the accepted characterization of interwar children's literature as retreatist anti modernist and apolitical is too sweeping and that the relationship between children's literature and modernism left wing politics and progressive education has been neglected
