Thunder at the Gates Douglas Egerton, 2016-11-01 Almost immediately after Abraham Lincoln issued the Emancipation Proclamation abolitionists began to

call for the raising of black regiments The South and most of the North responded with outrage Southerners vowed to enslave black soldiers captured in battle while many northerners claimed that blacks lacked the courage to fight Yet Boston s Brahmins always eager for a moral crusade launched one of the greatest experiments in American history In Thunder at the gates Douglas R Egerton chronicles the formation and exploits of the 54th and 55th Massachusetts Infantry and the 5th Massachusetts Cavalry regiments led by whites but composed of black men born free or into slavery American Dreamers Michael Kazin,2011-08-23 ONE OF THE BEST BOOKS OF THE YEAR NEWSWEEK THE DAILY BEAST THE NEW REPUBLIC THE PROGRESSIVE The definitive history of the reformers radicals and idealists who fought for a different America from the abolitionists to Michael Moore and Noam Chomsky While the history of the left is a long story of idealism and determination it has also been a story of movements that failed to gain support from mainstream America In American Dreamers Michael Kazin one of the most respected historians of the American left working today tells a new history of the movements that while not fully succeeding on their own terms nonetheless made lasting contributions to American society Among these culture shaping events are the fight for equal opportunity for women racial minorities and homosexuals the celebration of sexual pleasure the inclusion of multiculturalism in the media and school curricula and the creation of books and films with altruistic and anti authoritarian messages Deeply informed judicious and impassioned and superbly written this is an essential book for our times and for anyone seeking to understand our political history and the people who made it *The* *Ebony Column* Eric Ashley Hairston,2013-06-30 In The Ebony Column Eric Ashley Hairston begins a new thread in the ongoing conversation about the influence of Greek and Roman antiquity on U S civilization and education While that discussion has yielded many exceptional insights into antiquity and the American experience it has so regularly elided the African American component that all classical influence on black writing and thought seems to vanish That omission Hairston contends is disturbing not least because of its longevity from an early period of overt stereotyping and institutionalized racism right up to the contemporary and one would hope more cosmopolitan and enlightened era Challenging and correcting that persistent shortsightedness Hairston examines several prominent black writers and scholars deep investment in the classics as individuals as well as the broader cultural investment in the classics and the values of the ancient world Beginning with the late eighteenth century verse of Phillis Wheatley whose classically inspired poems functioned as a kind of Trojan horse to defeat white oppression Hairston goes on to consider the oratory of Frederick Douglass whose rhetoric and ideas of virtue were much influenced by Cicero and the writings of educator Anna Julia Cooper whose classical training was a key source of her vibrant feminism Finally he offers a fresh examination of W E B DuBois s seminal The Souls of Black Folk 1903 and its debt to antiquity which volumes of commentary have largely overlooked The first book to appear in a new series Classicism in American Culture The Ebony Column passionately demonstrates how the myths cultures and ideals of antiquity helped African Americans reconceptualize their role in a Euro American world determined to make them mere economic

commodities and emblems of moral and intellectual decay To figures such as Wheatley Douglass Cooper and DuBois classical literature offered striking moral intellectual and philosophical alternatives to a viciously exclusionary vision of humanity Africanity the life of the citizen and the life of the mind *The Transnational Significance of the American Civil War* Jörg Nagler, Don H. Doyle, Marcus Gräser, 2016-10-05 This volume of pioneering essays brings together an impressive array of well established and emerging historians from Europe and the United States whose common endeavor is to situate America's Civil War within the wider framework of global history These essays view the American conflict through a fascinating array of topical prisms that will take readers beyond the familiar themes of U S Civil War history They will also take readers beyond the national boundaries that typically confine our understanding of this momentous conflict The history of America's Civil War has typically been interpreted within a familiar national narrative focusing on the internal discord between North and South over the future of slavery in the United States *An Emancipation of the Mind* Matthew Stewart, 2024-03-26 A bracingly original book Harold Holzer Wall Street Journal How a band of antislavery leaders recovered the radical philosophical inspirations of the first American Revolution to defeat the slaveholders oligarchy in the Civil War This is a story about a dangerous idea one which ignited revolutions in America France and Haiti burst across Europe in the revolutions of 1848 and returned to inflame a new generation of intellectuals to lead the abolition movement the idea that all men are created equal In their struggle against the slaveholding oligarchy of their time America's antislavery leaders found their way back to the rationalist secularist and essentially atheist inspiration for the first American Revolution Frederick Douglass's unusual interest in radical German philosophers and Abraham Lincoln's buried allusions to the same thinkers are but a few of the clues that underlie this propulsive philosophical detective story With fresh takes on forgotten thinkers like Theodore Parker the excommunicated Unitarian minister who is the original source of some of Lincoln's most famous lines and a feisty band of German refugees philosopher and historian Matthew Stewart tells a vivid and piercing story of the battle between America's philosophical radicals and the conservative counterrevolution that swept the American republic in the first decades of its existence and persists in new forms up to the present day In exposing the role of Christian nationalism and the collusion between northern economic elites and slaveholding oligarchs *An Emancipation of the Mind* demands a significant revision in our understanding of the origins and meaning of the struggle over slavery in America and offers a fresh perspective on struggles between democracy and elite power today *Frederick Douglass* L. Diane Barnes, 2013 Frederick Douglass was born a slave in February 1818 From this humble beginning he went on to become a world famous orator newspaper editor and champion of the rights of women and African Americans He was the most prominent African American activist of the 19th century moving beyond relief at his own personal freedom to dedicating his life to the progress of his race and his country This volume offers a short biographical exploration of Douglass' life in the broader context of the 19th century world pulling together some of his most important writings on slavery civil rights and political issues Frederick Douglass

Black Prophetic Fire Cornel West, Christa Buschendorf, 2015-09-01 An unflinching look at nineteenth and twentieth century African American leaders and their visionary legacies In an accessible conversational format Cornel West with distinguished scholar Christa Buschendorf provides a fresh perspective on six revolutionary African American leaders Frederick Douglass W E B Du Bois Martin Luther King Jr Ella Baker Malcolm X and Ida B Wells In dialogue with Buschendorf West examines the impact of these men and women on their own eras and across the decades He not only rediscovers the integrity and commitment within these passionate advocates but also their fault lines West in these illuminating conversations with the German scholar and thinker Christa Buschendorf describes Douglass as a complex man who is both the towering Black freedom fighter of the nineteenth century and a product of his time who lost sight of the fight for civil rights after the emancipation He calls Du Bois undeniably the most important Black intellectual of the twentieth century and explores the more radical aspects of his thinking in order to understand his uncompromising critique of the United States which has been omitted from the American collective memory West argues that our selective memory has sanitized and even Santaclausified Martin Luther King Jr rendering him less radical and has marginalized Ella Baker who embodies the grassroots organizing of the civil rights movement The controversial Malcolm X who is often seen as a proponent of reverse racism hatred and violence has been demonized in a false opposition with King while the appeal of his rhetoric and sincerity to students has been sidelined Ida B Wells West argues shares Malcolm X's radical spirit and fearless speech but has often become the victim of public amnesia By providing new insights that humanize all of these well known figures in the engrossing dialogue with Buschendorf and in his insightful introduction and powerful closing essay Cornel West takes an important step in rekindling the Black prophetic fire
