Love And Politics In Outer Space:

Love and Politics in Outer Space Harvey Stein, 1986 **Politics and the Order of Love** Eric Gregory, 2008-08-15

Augustine for all of his influence on Western culture and politics was hardly a liberal Drawing from theology feminist theory and political philosophy Eric Gregory offers here a liberal ethics of citizenship one less susceptible to anti liberal critics because it is informed by the Augustinian tradition The result is a book that expands Augustinian imaginations for liberalism and liberal imaginations for Augustinianism Gregory examines a broad range of Augustine s texts and their reception in different disciplines and identifies two classical themes which have analogues in secular political theory love and related notions of care solidarity and sympathy and sin as well as related notions of cruelty evil and narrow self interest From an Augustinian point of view Gregory argues love and sin constrain each other in ways that yield a distinctive vision of the limits and possibilities of politics In providing a constructive argument for Christian participation in liberal democratic societies Gregory advances efforts to revive a political theology in which love s relation to justice is prominent **Politics and the Order of Love** will provoke new conversations for those interested in Christian ethics moral psychology and the role of religion in a liberal society

Politics of Security Michael Dillon,2002-01-31 In this critique of security studies with insights into the thinking of Heidegger Foucault Derrida Levinas and Arendt Michael Dillon contributes to the rethinking of some of the fundamentals of international politics developing what might be called a political philosophy of continental thought Drawing on the work of Martin Heidegger Politics of Security establishes the relationship between Heidegger s radical hermeneutical phenomenology and politics and the fundamental link between politics the tragic and the ethical It breaks new ground by providing an etymology of security tracing the word back to the Greek *asphaleia* not to trip up or fall down and a unique political reading of Oedipus Rex Michael Dillon traces the roots of desire for security to the metaphysical desire for certitude and points out that our way of seeking that security is embedded in 20th century technology thus resulting in a global crisis Politics of Security will be invaluable to both political theorists and philosophers and to anyone concerned with international relations continental philosophy or the work of Martin Heidegger

Adriana Cavarero Elisabetta R. Bertolino, 2017-12-04 Critical legal scholars have made us aware that law is made up not only of rules but also of language But who speaks the language of law And can one lawfully speak in one's voice For the Italian philosopher Adriana Cavarero to answer these questions we must not separate who is speaking from the very act of speaking moreover we must recuperate the material singularity and relationality of the mouth that speaks Drawing on Cavarero's work this book focuses on the potentiality of the voice for resisting law's sovereign structures For Cavarero it is the voice that expresses one's living and unrepeatable singularity in a way that cannot be subsumed by the universalities and standards of law The voice is essentially a material and singular passage of air and vibration that necessarily reveals one's uniqueness in relationality Speaking discloses this uniqueness and so one's vulnerability It therefore leads to possibilities of resistance that here bring a fresh approach to longstanding legal theoretical concerns with singularity ethics and justice

Politics of Religion/Religions of Politics Alistair Welchman, 2014-10-20 The liberal enlightenment as well as the more radical left have both traditionally opposed religion as a reactionary force in politics a view culminating in an identification of the politics of religion as fundamentalist theocracy But recently a number of thinkers Agamben Badiou Tabucchi and in particular Simon Critchley have begun to explore a more productive engagement of the religious and the political in which religion features as a possible or even necessary form of human emancipation The papers in this collection deriving from a workshop held on and with Simon Critchley at the University of Texas at San Antonio in February 2010 take up the ways in which religion s

encounter with politics transforms not only politics but also religion itself molding it into various religions of politics including not just heretical religious metaphysics but also what Critchley describes as non metaphysical religion the faith of the faithless Starting from Critchley s own genealogy of Pauline faith the articles in this collection explore and defend some of the religions of politics and their implications Costica Bradatan teases out the implications of Critchley s substitution of humor for tragedy as the vehicle for the minimal self distancing required for any politics Jill Stauffer compares Critchley s non metaphysical religiosity with Charles Taylor s account of Christianity Alistair Welchman unpacks the political theology of the border in terms of god s timeless act of creation Anne O Byrne explores the subtle dialectic between mores and morality in Rousseau s political ethics Roland Champagne sees a kind non metaphysical religion in Arendt s category of the political pariah Davide Panagia presents Critchley s ethics of exposure as the basis for a non metaphysical political bond Philip Quadrio wonders about the political ramifications of Critchley s own mystical anarchism and Tina Chanter re reads the primal site in the Western tradition at which the political and the religious intersect the Antigone story side stepping philosophical interpretations of the story dominated by Hegel s reading by means of a series of post colonial re imaginings of the play The collection concludes with an interview with Simon Critchley taking up the themes of the workshop in the light of more recent political events the Arab Spring and the rise and fall of the Occupy movement The Saturday Review of Politics, Literature, Science and Art ,1877 **Aesthetics and Politics of Space in Russia and Japan** Thorsten Botz-Bornstein,2009-01-01 Aesthetics and Politics of Space in Russia and Japan A Comparative Philosophical Study examines the parallels between Russian and Japanese philosophies and religions by revealing a common concept of space in Russian and Japanese aesthetics and political theories Thorsten Botz Bornstein shows points of convergence between the two traditions regarding the treatment of space within the realm of identity both individual and communal and in formulations of the relationship between regionalism localism and globalism
