Larson, 2025-09-16 Lessons in creative labor solidarity and inclusion under precarious economic conditions As writers musicians online content creators and other independent workers fight for better labor terms romance authors offer a powerful example and a cautionary tale about self organization and mutual aid in the digital economy In *Love in the Time of Self Publishing* Christine Larson traces the forty year history of Romancelandia a sprawling network of romance authors readers editors and others who formed a unique community based on openness and collective support Empowered by solidarity American romance writers once disparaged literary outcasts became digital publishing s most innovative and successful authors Meanwhile a new surge of social media activism called attention to Romancelandia s historic exclusion of romance authors of color and LGBTQ writers forcing a long overdue cultural reckoning Drawing on the largest known survey of any literary genre as well as interviews and archival research Larson shows how romance writers became the only authors in America to make money from the rise of ebooks increasing their median income by 73 percent while other authors plunged by 40 percent The success of romance writers Larson argues demonstrates the power of alternative forms of organizing influenced by gendered working patterns It also shows how networks of relationships can amplify or mute certain voices Romancelandia s experience Larson says offers crucial lessons about solidarity for creators and other isolated workers in an increasingly risky employment world Romancelandia s rise and near meltdown shows that gaining fair treatment from platforms depends on creator solidarity but creator solidarity in turn depends on fair treatment of all members **Love Lines** Rosemary Guiley, 1983 Desperate Yearning Dallas Hamlin, 1984 **Writing Romance Fiction for Love and Money** Helene Schellenberg Barnhart, 1987 **Forthcoming Books** Rose Arny, 1997 **Bearing Witness** Wendy Griswold, 2018-06-05 Greed frustrated love traffic jams infertility politics polygamy These together with

depictions of traditional village life and the impact of colonialism made familiar to Western readers through Chinua Achebe's writing are the stuff of Nigerian fiction. Bearing Witness examines this varied content and the determined people who against all odds write, publish, sell, and read novels in Africa's most populous nation. Drawing on interviews with Nigeria's writers, publishers, booksellers, and readers, surveys, and a careful reading of close to 500 Nigerian novels from lightweight romances to literary masterpieces, Wendy Griswold explores how global cultural flows and local conflicts meet in the production and reception of fiction. She argues that Nigerian readers and writers form a reading class that unabashedly believes in progress, rationality, and the slow but inevitable rise of a reading culture. But they do so within a society that does not support their assumptions and does not trust literature, making them modernists in a country that is simultaneously premodern and postmodern. Without privacy, reliable electricity, political freedom, or even social toleration of bookworms, these Nigerians write and read political satires, formula romances, war stories, complex gender fiction, blood and sex crime capers, nostalgic portraits of village life, and profound explorations of how decent people get by amid urban chaos. Bearing Witness is an inventive and moving work of cultural sociology that may be the most comprehensive sociological analysis of a literary system ever written.
