A Map of Doubt and Rescue Susan Miller, 2007 **A Map of Doubt and Rescue** Susan Miller, Letitia Dace, 1999 *The Dramatist*, 2005 **The Pinter Review**, 2004 *I Will Take the Answer* Ander Monson, 2020-02-04 A moving and wide ranging collection of essays by the author of *Letter to a Future Lover* The idea of connection permeates *I Will Take the Answer* Ander Monson's fourth book of utterly original and intelligent essays How is our present connected to our past and future How do neural connections form memories and why do we recall them when we do And how do we connect with one another in meaningful ways across time and space In the opening essay which extends across the book in brief subsequent pieces a trip through a storm sewer in Tucson inspires Monson to trace the city's relationship to Jared Lee Loughner the gunman who shot Gabrielle Giffords and killed six bystanders along with how violence is produced and how we grieve and honor the dead With the formally inventive *I in River* he ruminates on water in a waterless city and the structures we use to attempt to contain and control it Monson also visits the exuberantly nerdy kingdom of a Renaissance Faire and elaborates on the enduring appeal of sad songs through the lens of March Sadness an online competition that he cofounded an engaging riff on the NCAA basketball tournament brackets in which sad songs replace teams As personal and idiosyncratic as the best mixtape *I Will Take the Answer* showcases Monson's deep thinking and broad ranging interests his sly wit his soft spot for heavy metal and his ability to tunnel deeply into the odd and revealing sometimes subterranean worlds of American life

[National and Transnational Memories of the Kindertransport](#) Amy Williams,William Niven,Bill Niven,2023 The first transnational study of the memory of the Kindertransport and the first to explore how it is represented

in museums memorials and commemorations The Kindertransport the rescue of ca 10 000 Jewish children from the Nazi sphere of control and influence before the Second World War has often been framed as a British story This book recognizes that even though most of the Kinder were initially brought to the UK and many stayed it was more than that It therefore compares British memory of the Kindertransport to that of other host nations the US Canada Australia and New Zealand It is the first book to ask how the Kindertransport is remembered both in the countries of origin particularly Germany and in the host nations as well as the first to analyze how it is represented in museums memorials and commemorations Seeing memory of the Kindertransport in the host nations and in Germany as significantly different the study argues that the different national memory discourses around the Nazi persecution of Jews shape the respective countries images of the Kindertransport and that those images in turn shape the discourses especially in Britain Yet while national memory frameworks remain crucial to how the Kindertransport is remembered the book also documents the increasing significance of transnational memory trends that link the host nations with each other and with the countries from which the children originated
