Mexico this book explores the tension between military applications of participatory mapping and its use for political mobilization and advocacy The authors analyze the emergence of indigenous territories as spaces defined by a collective way of life and as a particular kind of battleground *The Patriarchal Age; Or, the Story of Joseph. To Govern China Vivienne Shue, Patricia M. Thornton, 2017-10-26 This book presents a uniquely dynamic and fluid model of political evolution in the world's largest and most powerful authoritarian regime.

Modernist Star Maps Aaron Jaffe, Jonathan Goldman, 2016-12-05 Bringing together Canadian, American, and British scholars, this volume explores the relationship between modernism and modern celebrity culture. In support of the collection's overriding thesis that modern celebrity and modernism are mutually determining phenomena, the contributors take on a range of transatlantic canonical and noncanonical figures from the expected Virginia Woolf and F. Scott Fitzgerald to the surprising Elvis and Hitler. Illuminating case studies are balanced by the volume's attentiveness to broader issues related to modernist aesthetics as the contributors consider celebrity in relationship to identity, commodification, print culture, personality, visual cultures, and theatricality. As the first book to read modernism and celebrity in the context of the crises of individual agency occasioned by the emergence of mass-mediated culture, *Modernist Star Maps* argues that the relationship between modernism and the popular is unthinkable without celebrity. Moreover, celebrity's strange evolution during the twentieth century is unimaginable without the intercession of modernism's system of cultural value. This innovative collection opens new avenues for understanding celebrity not only for modernist scholars but for critical theorists and cultural studies scholars.

Since time before time, two opposing forces have been locked in an endless battle. It is the war between magic and reason, between what *if* and what *is*. And the victor will not just shape the future but the very nature of reality. Peter Nimble and Sophie Quire have spent the last four years fighting to protect a world of magic from the insidious, unstoppable forces of progress. But every day, the wonders that once surrounded them are vanishing. Lurking behind this transformation is a mysterious group called The League of Maps that seems to hold the answers. As Peter and Sophie fight to untangle this mystery, they find themselves thrown into opposing sides of a vast war that stretches from the very beginning of humanity and into our present age.
