Schaller, 2024-05-31 Dependent on a shrinking supply of bamboo hunted mercilessly for its pelt and hostage to profiteering schemes once in captivity the panda is on the brink of extinction Here acclaimed naturalist George Schaller uses his great

evocative powers and the insight gained by four and a half years in the forests of the Wolong and Tangjiahe panda reserves to document the plight of these mysterious creatures and to awaken the human compassion urgently needed to save them No scientist is better at letting the rest of us in on just how the natural world works no poet sees the world with greater clarity or writes about it with more grace Anyone who genuinely cares for wildlife cannot help being grateful to Schaller both for his efforts to understand the panda and for the candor with which he reports what has gone so badly wrong in the struggle to save it from extinction Geoffrey C Ward New York Times Book Review Schaller's book is a unique mix of natural history and the politics of conservation and it makes for compelling reading Having been in giant panda country myself I found some of the descriptions of the animals and habitats breathtaking Schaller describes the daily routines and personalities of the giant pandas he studied as well as their fates thereafter as though they were his blood relatives Schaller's brilliant presentation of the complexities of conservation makes his book a milestone for the conservation movement Devra G Kleiman Washington Post Book World George Schaller's most soulful work written in journal style with many asides about a creature who evolved only two to three million years ago about the same time as humans Here conservation biology confronts an evil that grinds against hope and shatters the planet's diversity Written with hope Whole Earth Catalog A nicely crafted blend of wildlife observation and political cultural analysis The Last Panda is a sad chronicle of our failure so far to stem the decline of the animal that may be the most beloved on the planet Donald Dale Jackson Smithsonian

Guide to God's Animals Frank Sherwin, 2015-09-01 How do fish breathe and birds fly Why do some animals migrate and others hibernate And what happened to the dinosaurs and other animals that are now extinct The animal kingdom is a massive and amazing part of God's wonderful creation with creatures that fly swim slither gallop swing through trees and much more In Guide to God's Animals you'll explore how animals eat move and survive special abilities they have for seeing hearing and smelling ways animals communicate and camouflage themselves Discover the fascinating details of what makes each animal unique and how they are engineered to live in their own habitat

Red Panda Angela R. Glatston, 2010-11-25 Red Panda Biology and Conservation of the First Panda provides a broad based overview of the biology of the red panda *Ailurus fulgens* A carnivore that feeds almost entirely on vegetable material and is colored chestnut red chocolate brown and cream rather than the expected black and white This book gathers all the information that is available on the red panda both from the field and captivity as well as from cultural aspects and attempts to answer that most fundamental of questions What is a red panda Scientists have long focused on the red panda's controversial taxonomy Is it in fact an Old World procyonid a very strange bear or simply a panda All of these hypotheses are addressed in an attempt to classify a unique species and provide an in depth look at the scientific and conservation based issues urgently facing the red panda today Red Panda not only presents an overview of the current state of our knowledge about this intriguing species but it is also intended to bring the red panda out of obscurity and into the spotlight of public attention Wide ranging account of the red panda *Ailurus fulgens* covers all

the information that is available on this species both in and ex situ Discusses the status of the species in the wild examines how human activities impact on their habitat and develops projections to translate this in terms of overall panda numbers Reports on status in the wild looks at conservation issues and considers the future of this unique species Includes contributions from long standing red panda experts as well as those specializing in fields involving cutting edge red panda research

Zooland Irus Braverman, 2012-11-28 This book takes a unique stance on a controversial topic zoos Zoos have their ardent supporters and their vocal detractors And while we all have opinions on what zoos do few people consider how they do it Irus Braverman draws on more than seventy interviews conducted with zoo managers and administrators as well as animal activists to offer a glimpse into the otherwise unknown complexities of zooland Zooland begins and ends with the story of Timmy the oldest male gorilla in North America to illustrate the dramatic transformations of zoos since the 1970s Over these decades modern zoos have transformed themselves from places created largely for entertainment to globally connected institutions that emphasize care through conservation and education Zoos naturalize their spaces classify their animals and produce spectacular experiences for their human visitors Zoos name register track and allocate their animals in global databases Zoos both abide by and create laws and industry standards that govern their captive animals Finally zoos intensely govern the reproduction of captive animals carefully calculating the life and death of these animals deciding which of them will be sustained and which will expire Zooland takes readers behind the exhibits into the world of zoo animals and their caretakers And in so doing it turns its gaze back on us to make surprising interconnections between our understandings of the human and the nonhuman

Human-Animal Interactions in Anthropocene Asia Victor Teo, 2023-03-03 This book examines the theme of human animal interactions contextualized against the idea of the Anthropocene Focused on China and its immediate Asian borderlands this interdisciplinary collection provides a powerful and insightful analysis of the ecological challenges that mankind's traditional activities have created Through in depth case studies each focusing on a particular human animal dynamic the book contextualizes and advances the understanding of existing environmental and ecological problems faced by local communities in Asia In particular the book hopes to transcend the duality of the nature versus culture debate by locating animal ecological problems in the behavior of human institutions beliefs and practices which are often affected by prevailing cultural proclivities political ideologies economic interests and scientific agendas Through interrogation of theoretical concepts of Anthropocene and human animal binary the volume highlights the controversial debates that follow their usage as well as their empirical utility understanding human animal interactions historically thereby engaging a broader interdisciplinary conversation increasingly links these two fields together Providing a platform for discussion and dialogue for a wide audience this book will appeal to students and scholars of environmental history and politics anthropology political science and policy studies China studies and Asian studies more generally
