*Les quatrains ; Les plaisirs de la vie rustique et autres poésies* Guy du Faur Pibrac (seigneur de), Loris Petris, 2004  
Recueil annoté et commenté de l'œuvre poétique du magistrat humaniste et moraliste Guy Du Faur seigneur de Pibrac 1529  
1584      **Biography in Early Modern France, 1540-1630** Dr. Katherine MacDonald, 2007 This book offers valuable insights into biography's role as a form of social and cultural negotiation geared to advance the biographer's career It presents case studies of four exemplary biographies and one autobiography of major intellectual figures of France spanning the period 1540-1630      **The Voice of Virtue** Melinda Latour, 2023 The Voice of Virtue illuminates the musical practices at the heart of the Neostoic movement that spread across French lands during the Wars of Religion in the latter half of the sixteenth century revealing that virtue as voiced in these Stoic practices proves to be both rational and fully invested in the sensory processes of the singing body      **Charlotte de La Trémoille, the Notorious Countess of Derby** Sandy Riley, 2018-01-23 A Parliamentarian described his feelings towards Charlotte de La Trémoille when he wrote in the journal the Parliamentary Scout three women ruined the Kingdom Eve The Queen and the Countess of Derby This historical biography uses the letters found in the Chateau at Thouars and preserved in the French National Archive in Paris to piece together an account of her ideas and actions Eyewitness writings are used to describe her activities during the siege by Parliamentary forces of the Royalist Lathom House Following the end of the siege she was exiled to the Isle of Man A Huguenot Charlotte lived at a time of religious and political upheaval in both France and England She was related by birth and marriage to European royalty and aristocracy She was the only woman sequestered by the Parliament of Oliver Cromwell and King Charles II promised her the position of Governess to his children      *Governing Passions* Mark Greengrass, 2007-09-13 A major scholarly re-evaluation of the central period in the French wars of religion concentrating on the reactions of France's governing groups to these wars and drawing extensively on sources not hitherto examined to illuminate the sense of crisis that existed among the French governing elite at this time      **Montaigne and Brief Narrative Form** D. Losse, 2013-06-11 The first book-length study to trace the origins of the essay to the conte Montaigne and Brief Narrative Form puts the reader in touch with how unstable times and exceptional artistic insights transform one genre to create a new artistic form      *The Poetry of Place* Louisa MacKenzie, 2011-04-23 The sixteenth century in France was marked by religious warfare and shifting political and physical landscapes Between 1549 and 1584 however the Pléiade poets including Pierre de Ronsard Joachim Du Bellay Remy Belleau and Antoine de Baïf produced some of the most abiding and irenic depictions of rural French landscapes ever written In *The Poetry of Place* Louisa Mackenzie reveals and analyzes the cultural history of French paysage through her study of lyric poetry and its connections with landscape painting cartography and land use history In the face of destructive environmental change lyric poets in Renaissance France often wrote about idealized physical spaces reclaiming the altered landscape to counteract the violence and loss of the period and creating in the process what Mackenzie following

David Harvey terms spaces of hope This unique alliance of French Renaissance studies with cultural geography and eco criticism demonstrates that sixteenth century poetry created a powerful sense of place which continues to inform national and regional sentiment today **Representing France and the French in Early Modern English Drama**

Jean-Christophe Mayer,2008 This wide ranging collection of essays written by leading specialists furnishes previously unpublished evidence of France s role and importance in the early modern English literary and dramatic fields Its chapter length introduction offers an up to date critical presentation of the issues involved representation cultural identity the construction of otherness Frenchness and the social and cultural dynamics of theater The essays in the five sections of the book continue the debate with a series of in depth studies touching on important critical themes such as intertextuality old and new historicisms language semiotics and nationhood imagined geographies and stereotypes and social satire The book will appeal to students and specialists of Renaissance literature to scholars working on the construction of national identity and will be required reading for anyone interested in cultural exchange or comparative literature Jean Christophe Mayer is a senior research fellow at the French National Center for Scientific Research The Saint Bartholomew's Day massacre Arlette Jouanna,2016-05-16 On 18 August 1572 Paris hosted the lavish wedding of Marguerite de Valois and Henri de Navarre which was designed to seal the reconciliation of France s Catholics and Protestants Only six days later the execution of the Protestant leaders on the orders of the king s council unleashed a vast massacre by Catholics of thousands of Protestants in Paris and elsewhere Why was the celebration of concord followed so quickly by such unrestrained carnage Arlette Jouanna s new reading of the most notorious massacre in early modern European history rejects most of the established accounts especially those privileging conspiracy in favour of an explanation based on ideas of reason of state The Massacre stimulated reflection on royal power the limits of authority and obedience and the danger of religious division for France s political traditions Based on extensive research and a careful examination of existing interpretations this book is the most authoritative analysis of a shattering event Materialities Kate Van Orden,2015 Ephemeral fragile often left unbound sixteenth century songbooks led fleeting lives in the pockets of singers and on the music desks of instrumentalists Constantly in action they were forever being used up replaced or abandoned as ways of reading changed As such they document the acts of early musicians and the practices of everyday life at the unseen margins of elite society Materialities is a cultural history of song on the page It addresses a series of central questions concerning the audiences for written music by concentrating on the first genre to be commercialized by music printers the French chanson Scholars have long stressed that chansons represent the most broadly disseminated polyphony of the sixteenth century but Materialities is the first book to account for the cultural reach of the chanson across a considerable cross section of European society Musicologist Kate van Orden brings extensive primary research and new analytical models to bear in this remarkable history of songbooks music literacy and social transformation during the first century of music printing By tracking chansons into private libraries and schoolrooms

and putting chansonniers into dialogue with catechisms civility manuals and chapbooks Materialities charts the social distribution of songbooks the gradual moralization of song and the ways children learned their letters and notes Its fresh conclusions revise several common assumptions about the value early moderns attributed to printed music the levels of literacy required to perform polyphony and the way musicians did or did not read their songbooks With musical perspectives that can invigorate studies of print culture and the history of reading Materialities is an essential guide for musicologists working with original sources and historians of the book interested in the vocal performances that operated alongside print

**Representing Avarice in Late Renaissance France** Jonathan Patterson, 2015-01-22 Why did people talk so much about avarice in late Renaissance France nearly a century before Molière's famous comedy *L'Avare* As wars and economic crises ravaged France on the threshold of modernity avarice was said to be flourishing as never before Yet by the late sixteenth century a number of French writers would argue that in some contexts avaricious behaviour was not straightforwardly sinful or harmful Considerations of social rank gender object pursued time and circumstance led some to question age old beliefs Traditionally reviled groups rapacious usurers greedy lawyers miserly fathers covetous women might still exhibit unmistakable signs of avarice but perhaps not invariably in an age of shifting social economic and intellectual values Across a large diverse corpus of French texts Jonathan Patterson shows how a range of flexible genres nourished by humanism tended to offset traditional condemnation of avarice and avarices with innovative mitigating perspectives arising from subjective experience In such writings an avaricious disposition could be re-described as something less vicious excusable or even expedient In this word history of avarice close readings of well known authors Marguerite de Navarre Ronsard Montaigne and of their lesser known contemporaries are connected to broader socio economic developments of the late French Renaissance c 1540 1615 The final chapter situates key themes in relation to Molière's *L'Avare* As such **Representing Avarice in Late Renaissance France** newly illuminates debates about avarice within broader cultural preoccupations surrounding gender enrichment and status in early modern France
