Que Vivan Los Tamales:

Que Vivan Los Tamales! Jeffrey M. Pilcher, 1998 Connections between what people eat and who they are between cuisine and identity reach deep into Mexican history beginning with pre Columbian inhabitants offering sacrifices of human flesh to maize gods in hope of securing plentiful crops This cultural history of food in Mexico traces the influence of gender race and class on food preferences from Aztec times to the present and relates cuisine to the formation of national identity The metate and mano used by women for grinding corn and chiles since pre Columbian times remained essential to preparing such Mexican foods as tamales tortillas and mole poblano well into the twentieth century Part of the ongoing effort by intellectuals and political leaders to Europeanize Mexico was an attempt to replace corn with wheat But native foods and flavors persisted and became an essential part of indigenista ideology and what it meant to be authentically Mexican after 1940 when a growing urban middle class appropriated the popular native foods of the lower class and proclaimed them as national cuisine

E. Ryan, 2013 *Dialogues Across Diasporas* focuses on the shared historical legacies of members of the Africana and Latina diasporas and the cultural impact of the African diaspora in the Americas. This book seeks to emphasize connections rather than divisions among different migratory ethnic communities via a reconfiguration of borders and ethnic identities. This collection of essays has three major goals: first to foreground shared themes and strategies in the literary productions of women of Africana and Latina descent; second to highlight the importance of the arts for community activism within shared diasporic spaces; and third to illustrate the potential of artistic and activist collaborations among women from both groups across disciplinary, political, national, and ethnic divides. *Dialogues across Diasporas* is divided into three sections. The first section provides a theoretical overview of diasporic migrations, politics, and identities. It argues that diverse diasporas can unite around shared political and cultural experiences such as converting contested spaces into communities and resisting rhetorics of exclusion. The second section demonstrates the diverse ways in which migratory women and daughters of the diaspora frame their histories, lived experiences, and different forms of knowledge via poetry, short stories, academic essays, and other art forms. The third section focuses on women's activism, suggesting opportunities for collaboration among and between diverse diasporic communities.

Modern Mexico James D. Huck Jr., 2017-12-01. This single-volume reference resource offers students, scholars, and general readers alike an in-depth background on Mexico from the complexity of its pre-Columbian civilizations to its social and political development in the context of Western civilization. How did modern Mexico become a nation of multicultural diversity and rich indigenous traditions? What key roles do Mexico's non-Western pre-Columbian indigenous heritage and subsequent development as a major center in the Spanish colonial empire play in the country's identity today? How is Mexico today both Western and non-Western, part Native American and part European, simultaneously traditional and modern? *Modern Mexico* is a thematic encyclopedia that broadly covers the nation's history, both ancient and modern, its government, politics, and economics, as well as its culture, religion, traditions, philosophy, arts, and social structures. Additional topics include industry, labor, social classes, and ethnicity, women, education, language, food, leisure, and sport, and popular culture. Sidebars, images, and a Day in the Life feature round out the coverage in this accessible, engaging volume. Readers will come to understand how Mexico and the Mexican people today are the result of the processes of transculturation, globalization, and civilizational contact.

The Poetics of Fire Victor M. Valle, 2023-11-15. In *The Poetics of Fire*, Pulitzer prize-winning journalist and Chicano author Victor M. Valle posits the chile as a metaphor for understanding the shared cultural histories of ChicanX and LatinX peoples from pre-conquest Mesoamerica to twentieth-century New Mexico. Valle uses the chile as a decolonizing lens through which to analyze pre-conquest Mesoamerican cosmology, early European exploration, and the forced conversion of Native peoples to Catholicism, as well as European and Mesoamerican perspectives on food and place. Assembling a rich collection of source material, Valle highlights the fiery fruit's overarching importance as evidenced by the ubiquity of references to the plant over several centuries in literature, art, official documents, and more to

offer a new eco aesthetic reading a reframing of culinary history from a pluralistic non Western perspective *Kitchenspace* Maria Elisa Christie, 2009-08-17 Throughout the world the kitchen is the heart of family and community life Yet while everyone has a story to tell about their grandmother s kitchen the myriad activities that go on in this usually female world are often devalued and little scholarly attention has been paid to this crucial space in which family gender and community relations are forged and maintained To give the kitchen the prominence and respect it merits Maria Elisa Christie here offers a pioneering ethnography of kitchenspace in three central Mexican communities Xochimilco Ocotepc and Tetecala Christie coined the term kitchenspace to encompass both the inside kitchen area in which everyday meals for the family are made and the larger outside cooking area in which elaborate meals for community fiestas are prepared by many women working together She explores how both kinds of meal preparation create bonds among family and community members In particular she shows how women s work in preparing food for fiestas gives women status in their communities and creates social networks of reciprocal obligation In a culture rigidly stratified by gender Christie concludes kitchenspace gives women a source of power and a place in which to transmit the traditions and beliefs of older generations through quasi sacramental food rites *Imagaries of Migration* Yolanda López García, 2021-09-03 How do Mexican migrants in Germany perceive themselves and their lives Innovatively combining theories of interculturality and social imaginaries Yolanda L pez Garc a uses the anthropological method of life stories to investigate the understudied area of Mexican migration to Germany She discusses areas such as quality of life as a motivation for migration the role of banal nationalism in imaginaries the dynamic subjective re construction of Mexicanness and the process of imagined Germanisation Yolanda L pez Garc a ultimately argues that individuals as social agents engage with and construct new emerging imaginaries which may be viewed as important engines of social change
