Attorney David Roberts,2014-08-22 This memoir was inspired by the author s daughter He would tell her stories about incidents in his life so she persuaded him to write them down You must write all this down Dad so they can be read by your grandchildren And you must get on with it before you die Some stories are brief half a page others are long twelve pages It is the sort of book to keep by the bedside and dip into one story at a time Some stories cover events that occurred when the author was a small boy growing up in England during the war Some cover incidents while he and his wife were travelling in China Japan France in Canada and in other odd places events that occurred in the neighbourhood in Caulfeild Cove where he and his wife have lived for fifty two years There are pieces about Haida Gwaii and some about his experiences practising law The stories range from the funny to the harrowing Shaping the Future on Haida Gwaii Joseph Weiss,2018-09-01

Colonialism in settler societies such as Canada depends on a certain understanding of the relationship between time and Indigenous peoples Too often these peoples have been portrayed as being without a future destined either to disappear or assimilate into settler society This book asserts quite the opposite Indigenous peoples are not in any sense out of time in our contemporary world Shaping the Future on Haida Gwaii shows how Indigenous peoples in Canada not only continue to have a future but are at work building many different futures for themselves and for their non Indigenous neighbours Through the experiences of the Haida First Nation this book explores these possible futures in detail demonstrating how Haida ways of thinking about time mobility and political leadership are at the heart of contemporary strategies for addressing the dilemmas that come with life under settler colonialism From the threat of ecological crisis to the assertion of sovereign rights and authority Weiss shows that the Haida people consistently turn towards their possible futures in order to work out how to live in and transform the present *COOK'S LEGACY - FURS, DISCOVERY AND CONFLICT* Winifred Dixon,2019 Captain James

Cook was an outstanding example of navigation and seamanship and together with the officers and men under his command circumnavigated the globe three times One of these became Captain George Dixon In this unique biography the author who hopes the Captain to be an ancestor of her late husband traces Dixon s journey to discover the Northwest Passage as he followed Cook continuing to when he was sent on a trading voyage to deal in furs on the Northwest Coast Well researched the story is told in multiple viewpoints with detailed historical observations woven throughout Marrying with this is the author s own experience of visiting the places that James Cook and George Dixon would have seen as she and her daughter

with stories of settlement change and abandonment that reflect the great themes of our history With small towns declining and old rural properties changing so little of the history of these places has been recorded in museums or archives and so much of it may disappear as families disperse and memories dim More than a decade ago Michael Kluckner began painting these dots on his personal map of the province in a watercolour sketchbook In 1999 after he put a few of the sketches on his website a network of correspondents emerged that eventually led him to the family letters photo albums and memories all from a disappearing era of the province Vanishing British Columbia is a record of these places and the stories they tell It combines engaging and insightful historical commentary with over 160 of the author s original paintings It has an exceptional assortment of historic imagery including old postcards architectural plans and photographs The study of roadside memory demonstrates the visceral connection that people especially those who are part of the rural to urban diaspora of modern times have for the sites of their family memories On a grander scale this approach leads to a broader understanding of more abstract historical themes and of the province s history and culture It also presents a compelling argument for stewardship of regional history in the face of urbanization and globalization

Converging Empires Andrea

Geiger, 2022-03-15 Making a vital contribution to our understanding of North American borderlands history through its examination of the northernmost stretches of the U S Canada border Andrea Geiger highlights the role that the North Pacific borderlands played in the construction of race and citizenship on both sides of the international border from 1867 when the United States acquired Russia s interests in Alaska through the end of World War II Imperial national provincial territorial reserve and municipal borders worked together to create a dynamic legal landscape that both Indigenous and non Indigenous people negotiated in myriad ways as they traversed these borderlands Adventurers prospectors laborers and settlers from Europe Canada the United States Latin America and Asia made and remade themselves as they crossed from one jurisdiction to another Within this broader framework Geiger pays particular attention to the ways in which Japanese migrants and the Indigenous people who had made this borderlands region their home for millennia Tlingit Haida and Tsimshian among others negotiated the web of intersecting boundaries that emerged over time charting the ways in which they infused these reconfigured national provincial and territorial spaces with new meanings
