known writers including Robert Frost Willa Cather and Wendell Berry and that these and others worked to revise the mode to better fit their own contexts This book also outlines the contemporary value of the georgic literary tradition two thousand years of writing that begins with the premise that humans must use the world in order to survive and search for a balance between human needs and nature's productive capacity In the georgic mode authors found an adaptable discourse that enabled them to advocate for the protection and responsible use of productive lands present rural places and people in all of their complexity explore human relationships with laboring animals and advertise the sensory pleasures of rooted work

**My Backyard Jungle** James Barilla, 2013-04-22 DIV For James Barilla and his family the dream of transforming their Columbia South Carolina backyard into a haven for wildlife evoked images of kids catching grasshoppers by day and fireflies at night of digging up potatoes and picking strawberries When they signed up with the National Wildlife Federation to certify their yard as a wildlife habitat it felt like pushing back in however small a way against the tide of bad news about vanishing species changing climate dying coral reefs Then the animals started to arrive and Barilla soon discovered the complexities and possible mayhem of merging human with animal habitats What are the limits of coexistence he wondered divDIV divDIV To find out Barilla set out across continents to explore cities where populations of bears monkeys marmosets and honeybees live alongside human residents My Backyard Jungle brings these unique stories together making Barilla's yard the centerpiece of a meditation on possibilities for coexistence with animals in an increasingly urban world Not since Gerald Durrell penned My Family and Other Animals have readers encountered a naturalist with such a gift for storytelling and such an open heart toward all things wild div
