Quest For Peace The Dag Hammarskjöld:

Quest for Peace Dag Hammarskjöld, 1965 The Nobel Peace Prize and the Laureates Irwin Abrams, 2001 Presents brief biographical portraits of the 106 recipients of the Nobel Peace Prize during its 100 year history The quest for peace: the Dag Hammarskjöld memorial lectures, ed Andrew Wellington Cordier, Wilder Foote, *The Quest for Peace* Andrew Wellington Cordier, Wilder Foote, 1967 **The Quest for Peace** Andrew W. Cordier, 1965 **The Quest for Peace. The Dag Hammarskjöld Memorial Lectures. Edited by Andrew W. Cordier and Wilder Foote. [With a Portrait of Dag Hammarskjöld.]** Andrew Wellington CORDIER (and FOOTE (Wilder)), Wilder FOOTE, Dag HAMMARSKJÖLD, 1965 *The Search for Peace* D. W. Bowett, 2019-09-24 Using authoritative extracts from the relevant and important sources at the time this volume originally published in 1972 deals with the problems and difficulties of maintaining peace in the world The control of the use of force remains the most intractable and yet the most important problem in international relations Although the antagonists change antagonism appears to be almost an inherent feature of inter state relations and although global conflict has been avoided for the past quarter of a century the risk is always present The cost of such anarchy in international relations measured in terms of human suffering and wastage of resources is appalling In this book Dr Bowett looks at the need for peaceful settlement of international disputes the peacekeeping role of the United Nations aid to developing countries and disarmament and suggests that the structure of international society based on the Sovereign State could be modified to lessen the risk of conflict The extracts include statements by Khrushchev Mao Tse Tung Che Guevara Dag Hammarskjöld U Thant Ho Chi Minh and selections from many national and international documents **The Quest for Peace** Andrew Wellington Cordier, 1965 The Quest for Peace Dag Hammarskjöld, Wilder Foote, 1965 **From Manager to Visionary** K. Kille, 2006-12-11 This study examines how the UN Secretary General's leadership qualities affect how they address threats to peace and security The personal traits of all seven Secretaries General are measured and categorized into one of three leadership styles managerial strategic and visionary **Nobel Lectures in Peace** Frederick W. Haberman, 1999 <http://www.worldscientific.com/worldscibooks/10.1142/3741> **The UN Secretary-General and Moral Authority** Kent J. Kille, 2007-10-29 Once described by Trygve Lie as the most impossible job on earth the position of UN Secretary General is as frustratingly constrained as it is prestigious The Secretary General's ability to influence global affairs often depends on how the international community regards his moral authority In relation to such moral authority past office holders have drawn on their own ethics and religious backgrounds as diverse as Lutheranism Catholicism Buddhism and Coptic Christianity to guide the role that they played in addressing the UN's goals in the international arena such as the maintenance of international peace and security and the promotion of human rights In *The UN Secretary General and Moral Authority* contributors provide case studies of all seven former secretaries general establishing a much needed comparative survey of each office holder's personal religious and moral values From Trygve Lie's forbearance during the UN's turbulent

formative years to the Nobel committee's awarding Kofi Annan and the United Nations the prize for peace in 2001 the case studies all follow the same format first detailing the environmental and experiential factors that forged these men's ethical frameworks then analyzing how their inner code engaged with the duties of office and the global events particular to their terms

Balanced and unbiased in its approach this study provides valuable insight into how religious and moral leadership functions in the realm of international relations and how the promotion of ethical values works to diffuse international tensions and improve the quality of human life around the world

Dag Hammarskjöld Norman Richards, 1969 A biography of the man whose tact and leadership made the United Nations for the first time an effective force for peace in the world

As UN Secretary General Dag Hammarskjöld shaped many of the fundamental principles and practices of international organisations such as preventive diplomacy the ethics of international civil service impartiality and neutrality He was also at the heart of the constitutional foundations and principles of the UN

This tribute and critical review of Hammarskjöld's values and legacy examines his approach towards international civil service agency and value based leadership investigates his vision of internationalism and explores his achievements and failures as Secretary General It draws on specific conflict situations and strategies such as Suez and the Congo for lessons that can benefit contemporary conflict resolution and modern concepts such as human security and R2P It also reflects on ways in which actors such as international courts tribunals and the EU can benefit from Hammarskjöld's principles and experiences in the fields of peace and security and international justice
