The Amber Gods, and Other Stories Harriet Elizabeth Prescott Spofford, 1989 A widely held vision of nineteenth century American women is of lives lived in naive domestic peace the girls of *Little Women* making do until father comes home from the war Nothing could be less true of Harriet Prescott Spofford's stories In fact her editor at the *Atlantic Monthly* at first refused to believe that an unworldly woman from New England had written them Her style though ornate by our 20th century standards adds to its atmosphere like heavy Baroque furniture in a large and creepy house The title story presents a self centered and captivating woman who ruthlessly steals her orphan cousin's lover In *Circumstance* a pioneer woman returning home through the woods at night is caught by a panther her husband who has come to save her can only watch from the ground as she sings for her life pinned in a tree A train engineer hallucinates again and again that he is running over his wife And Mrs Craven who's a bit weak in the head mindlessly repeats Three men went down cellar and only two came up These stories combine elements of the best ghost stories timing detail and character with just enough chill to make you think twice about turning out your lights at night

Writing and Victorianism J.B. Bullen, 2014-06-06 *Writing and Victorianism* asks the fundamental question what is Victorianism and offers a number of answers taken from methods and approaches which have been developed over the last ten years This collection of essays written by both new and established scholars from Britain and the U S A develops many of the themes of nineteenth century studies which have lately come to the fore touching upon issues such as drugs class power and gender Some essays reflect the interaction of word and image in the nineteenth century and the notion of the city as spectacle others look at Victorian science finding a connection between writing and the growth of psychology and psychiatry on the one hand and with the power of scientific materialism on the other As well as key figures such as Dickens Tennyson and Wilde a host of new names are introduced including working class writers attempting to define themselves and writers in the Periodical press who once anonymous exercised a great influence over Victorian politics taste and social ideals From these observations there emerges a need for self definition in Victorian writing History ancestry and the past all play their part in figuring the present in the nineteenth century and many of these studies foreground the problem of literary social and psychological identity

Wilkie Collins, Medicine and the Gothic Laurence Talairach-Vielmas, 2009-09-01 This book examines how Wilkie Collins's interest in medical matters developed in his writing through exploration of his revisions of the late eighteenth century Gothic novel from his first sensation novels to his last novels of the 1880s Throughout his career Collins made changes in the prototypical Gothic scenario The aristocratic villains victimized maidens and medieval castles of classic Gothic tales were reworked and adapted to thrill his Victorian readership With the advances of neuroscience and the development of criminology as a

significant backdrop to most of his novels Collins drew upon contemporary anxieties and increasingly used the medical to propel his criminal plots While the prototypical castles were turned into modern medical institutions his heroines no longer feared ghosts but the scientist's knife This study hence underlines the way in which Collins's Gothic revisions increasingly tackled medical questions using the medical terrain to capitalize on the reader's fears It also demonstrates how Wilkie Collins's fiction reworks Gothic themes and presents them through the prism of contemporary scientific medical and psychological discourses from debates revolving around mental physiology to those dealing with heredity and transmission The book's structure is chronological covering a selection of texts in each chapter with a balance between discussion of the more canonical of Collins's texts such as *The Woman in White* *The Moonstone* and *Armada* and some of his more neglected writings

Fictions of Loss in the Victorian Fin de Siècle Stephen Arata, 1996-08-29 It has been widely recognised that British culture in the 1880s and 1890s was marked by a sense of irretrievable decline *Fictions of Loss in the Victorian Fin de Siècle* explores the ways in which that perception of loss was cast into narrative into archetypal stories which sought to account for the culture's troubles and perhaps assuage its anxieties Stephen Arata pays close attention to fin de siècle representation of three forms of decline national biological and aesthetic and reveals how late Victorian degeneration theory was used to explain such decline By examining a wide range of writers from Kipling to Wilde from Symonds to Conan Doyle and Stoker Arata shows how the nation's twin obsessions with decadence and imperialism became intertwined in the thought of the period His account offers new insights for students and scholars of the fin de siècle

Dickens to Hardy 1837-1884 Julian Wolfreys, 2007-06-27 This authoritative survey examines how the Victorian middle classes perceived themselves through analyses of the literature of the period Asking how the middle classes distinguished themselves from their forbears Julian Wolfreys reads in detail major novels by Charles Dickens Elizabeth Gaskell Wilkie Collins George Eliot Thomas Hardy Wolfreys explores the novelists' constructions of modernity national identity and their understanding of becoming historical in distinction from that of previous generations He offers illuminating close readings of texts and examines narratives set in a recent past in order to investigate the role of cultural memory in the making of identity Also featuring a helpful Chronology and an Annotated Bibliography to aid further study this stimulating guide encourages readers to reassess the work of key writers of the nineteenth century

Anxieties of Empire and the Fiction of Intrigue Yumna Siddiqi, 2008 Focusing on late nineteenth and twentieth century stories of detection policing and espionage by British

and South Asian writers Yumna Siddiqi presents an original and compelling exploration of the cultural anxieties created by imperialism She suggests that while colonial writers use narratives of intrigue to endorse imperial rule postcolonial writers turn the generic conventions and topography of the fiction of intrigue on its head launching a critique of imperial power that makes the repressive and emancipatory impulses of postcolonial modernity visible Siddiqi devotes the first part of her book to the colonial fiction of Arthur Conan Doyle and John Buchan in which the British regime's preoccupation with maintaining power found its voice The rationalization of difference pronouncedly expressed through the genre's strategies of representation and narrative resolution helped to reinforce domination and in some cases allay fears concerning the loss of colonial power In the second part Siddiqi argues that late twentieth century South Asian writers also underscore the state's insecurities but unlike British imperial writers they take a critical view of the state's authoritarian tendencies Such writers as Amitav Ghosh Michael Ondaatje Arundhati Roy and Salman Rushdie use the conventions of detective and spy fiction in creative ways to explore the coercive actions of the postcolonial state and the power dynamics of a postcolonial New Empire Drawing on the work of leading theorists of imperialism such as Edward Said Frantz Fanon and the Subaltern Studies historians Siddiqi reveals how British writers express the anxious workings of a will to maintain imperial power in their writing She also illuminates the ways South Asian writers portray the paradoxes of postcolonial modernity and trace the ruses and uses of reason in a world where the modern marks a horizon not only of hope but also of economic military and ecological disaster

Hidden Rivalries in Victorian Fiction Jerome Meckier, 2021-10-21 Victorian fiction has been read and analyzed from a wide range of perspectives in the past century But how did the novelists themselves read and respond to each other's creations when they first appeared Jerome Meckier answers that intriguing question in this ground breaking study of what he terms the Victorian realism wars Meckier argues that nineteenth century British fiction should be seen as a network of intersecting reactions and counteractions in which the novelists rethought and rewrote each other's novels as a way of enhancing their own credibility In an increasingly relative world thanks to the triumph of a scientific secularity the goal of the novelist was to establish his or her own credentials as a realist hence a reliable social critic by undercutting someone else's usually Charles Dickens's Trollope Mrs Gaskell and especially George Eliot attempted to make room for themselves in the 1850s and 1860s by pushing Dickens aside Wilkie Collins tried a different form of parodic revaluation he strove to outdo Dickens at the kind of novel Dickens thought he did best the kind his other rivals tried to cancel tone down or repair ostensibly for being too melodramatic but actually for expressing too negative a world view For his part Dickens determined to remain inimitable replied to all of his rivals by redoing them as spiritedly as they had reused his characters and situations to make their own statements and to discredit his Thus Meckier redefines Victorian realism as the bravura assertion by a major novelist or one soon to be that he or she was a better realist than Dickens By suggesting the ways Victorian novelist read and rewrote each other's work this innovative study alters present day perceptions of such double

purpose novels as Felix Holt Bleak House Middlemarch North and South Hard Times The Woman in White and The Mystery of Edwin Drood *Faerie Stones* Ceri Norman,2018-03-30 *Faerie Stones* explores the Faerielore and Folklore associated with different stones and various crystal formations from the ancient Neolithic arrows known as Elfshot to magical Faerie dusted geodes known as Fairy Cavern Quartz It deals with the metaphysical aspects of the stones their traditional uses and healing qualities and discusses which types of Faerie and which Deities Faerie Monarchs are associated with each stone It also offers practical tips and two meditations for working with Faeries and stones for spiritual development Aimed at all those who love Faeries and Crystals it is ideal for the beginner or the more experienced practitioner *The Whispering Heart* Travis White,2024-10-25 *The Whispering Heart* is an enchanting collection of tales that invites readers into mystical realms where ancient secrets reside and the echoes of profound emotions hold the key to salvation Follow Elara a cartographer haunted by the whispers of forgotten maps as she embarks on a perilous quest to uncover the legendary Sanctuary a hidden valley where time bends and the whispers of the heart resonate through crystal waterfalls Her journey through a maze of enchanted willows and shimmering rivers leads her to confront phantom enigmas celestial secrets and the enduring legacy of a long lost kingdom The narratives delve deeper into the heart of these magical lands revealing a town plagued by a mysterious blight its very moon heart fading Elara discovers that this devastation is the work of a centuries old curse cast by a scorned sorceress Her mission transforms from mere exploration to an extraordinary act of creation rewriting the past not with ink but with light and shadow weaving forgotten narratives into a vibrant tapestry to mend the broken moon Through thrilling encounters with shadowy entities and the power of her own voice amplified by the collective whispering hearts of the land Elara uncovers the true strength found in connection compassion and the enduring magic of a story retold Final Fantasy IX - Strategy Guide GamerGuides.com,2019-10-25 A group known as the Tantalus Theatre Troupe visits the kingdom of Alexandria to celebrate the birthday of Princess Garnet Unbeknownst to the royal family and the citizens of the city the troupe is actually a band of thieves who are aiming to kidnap the princess However to add a twist the princess was planning on escaping the castle all along even asking the troupe to kidnap her This little event kickstarts many others leading to a grand adventure This guide is planned to have a beginning to end walkthrough of the main story while simultaneously guiding you through all of the side quests and other goodies in the game The side quests include Chocobo Hot and Cold Tetra Master and all of the smaller ones like the jump rope mini game Friendly Monsters Excalibur II and much more In addition to all of this you will find lists of all abilities that characters can learn as well as Quina's Blue Magic Beginning to end walkthrough covering all story elements Coverage on all side quests from major to minor ones How to learn all abilities including Quina's Blue Magic Detailed trophy achievement guide All the Year Round Charles Dickens,1868
