Levinas, Messianism and Parody Terence Holden, 2011-09-22 There is no greater testament to Emmanuel Levinas reputation as an enigmatic thinker than in his meditations on eschatology and its relevance for contemporary thought Levinas has come to be seen as a principal representative in Continental philosophy alongside the likes of Heidegger Benjamin Adorno and Zizek of a certain philosophical messianism differing from its religious counterpart in being formulated apparently without appeal to any dogmatic content To date however Levinas messianism has not received the same detailed attention as other aspects of his wide ranging ethical vision Terence Holden attempts to redress this imbalance tracing the evolution of the messianic idea across Levinas career emphasising the transformations or indeed displacements which this idea undergoes in taking on philosophical intelligibility He suggests that in order to crack the enigma which this idea represents we must consider not only the Jewish tradition from which Levinas draws inspiration but also Nietzsche who ostensibly would represent the greatest rival to the messianic idea in the history of philosophy with his notion of the parody of messianism

Metaphysics Mr. Rohit Manglik, 2023-08-23 In this book we will study

about the nature of reality existence objects time space and the universe beyond physical observation *Political Judgement* Ronald Beiner, 2013-06-17 Originally published in 1983 One of the basic capacities of man as a political being is his faculty of judgement Yet for all the books on concepts like freedom equality and authority surprisingly little attention has been given to this topic in the tradition of Western political thought What is the nature of political judgement What endows us as human beings with the ability to make reasonable judgements about human affairs and to judge the common world we share with others By what means do we secure validity for our judgements What are the underlying conditions of this human capacity and what implications does it have the understanding of politics These questions central as they are to any reflection on politics have rarely been addressed in a systematic way This book examines Kant's concept of taste and Aristotle's concept of prudence as well as recent works of political philosophy by Arendt Gadamer and Habermas all crucially influenced by Kant and Aristotle *Intergovernmental Relations in Canada: Struggle over the Constitution* Ronald James Zukowsky, 1981

Logical Investigations Volume 2 Edmund Husserl, 2013-03-07 Edmund Husserl is the founder of phenomenology and the *Logical Investigations* is his most famous work It had a decisive impact on twentieth century philosophy and is one of few works to have influenced both continental and analytic philosophy This is the first time both volumes have been available in paperback They include a new introduction by Dermot Moran placing the *Investigations* in historical context and bringing out their contemporary philosophical importance These editions include a new preface by Sir Michael Dummett *A Democratic Theory of Judgment* Linda M.G. Zerilli, 2016-12-12 In this sweeping look at political and philosophical history Linda M G Zerilli unpacks the tightly woven core of Hannah Arendt's unfinished work on a tenacious modern problem how to judge critically in the wake of the collapse of inherited criteria of judgment Engaging a remarkable breadth of thinkers including Ludwig Wittgenstein Leo Strauss Immanuel Kant Frederick Douglass John Rawls Jürgen Habermas Martha Nussbaum and many others Zerilli clears a hopeful path between an untenable universalism and a cultural relativism that forever defers the possibility of judging at all Zerilli deftly outlines the limitations of existing debates both those that concern themselves with the impossibility of judging across cultures and those that try to find transcendental rational values to anchor judgment Looking at Kant through the lens of Arendt Zerilli develops the notion of a public conception of truth and from there she explores relativism historicism and universalism as they shape feminist approaches to judgment Following Arendt even further Zerilli arrives at a hopeful new pathway seeing the collapse of philosophical criteria for judgment not as a problem but a way to practice judgment anew as a world building activity of democratic citizens The result is an astonishing theoretical argument that travels through and goes beyond some of the most important political thought of the modern period **Philosophy in the Classroom** Ron Shaw, 2007-11-02 Ever had difficulty inspiring your children to consider and discuss philosophical concepts *Philosophy in the Classroom* helps teachers tap in to children's natural wonder and curiosity The practical lesson plans built around Aesop's fables encourage children to formulate and express their own points of view

enabling you to lead rich and rewarding philosophical discussions in the primary classroom This highly practical and engaging classroom companion prompts students to consider serious moral issues in an imaginative and stimulating way uses Aesop's fables as a springboard to pose challenging questions about the issues raised provides fifteen key themes including happiness wisdom self reliance and judging others as the basis for classroom discussion uses powerful and creative drawings to illustrate activities and photocopiable resources Philosophy in the Classroom is an invaluable resource for any primary school teacher wanting to engage their students in meaningful philosophical reflection and discussion Ron Shaw has many years of classroom experience and is the author of more than forty books helping primary and secondary school students to improve their thinking skills *A Companion to Research in Teacher Education* Michael A. Peters, Bronwen Cowie, Ian Menter, 2017-05-31 This state of the art Companion assembles and assesses the extant research available on teacher education and provides clear guidelines on future directions It addresses an important need in a collection that will be of value for teachers teacher educators policymakers and politicians There has been little sustained long term or systematic research to provide empirical support for the broad aspects of teacher education policy largely because such research has been chronically underfunded and based on traditional practitioner knowledge Many of the changes to teacher education are contentious and yet are occurring in rapid succession These policies and movements have important consequences for education teacher quality and the future of the teaching profession At the same time the policies and initiatives that support these changes seem to be based more on ideology business interests and tradition than on research and empirical findings The nature quality and effectiveness of teacher preparation have increasingly become a central focus for education policy worldwide in a fiercely argued debate among governments think tanks world policy agencies education researchers and teacher organisations *Logic: The judgement, concept and inference* Christoph Sigwart, 1895

Pleasure, Preference and Value Eva Schaper, 1983 A meeting of the varying strands of philosophy that contribute to the conceptual problems specific to philosophical aesthetics **Judgement and Truth in Early Analytic Philosophy and Phenomenology** M. The Colonial Laws of Massachusetts Massachusetts, 1887 *Designing Quality Survey Questions* Sheila B. Robinson, Kimberly Firth Leonard, 2018-05-24 Surveys are a cornerstone of social and behavioral research and with the use of web based tools surveys have become an easy and inexpensive means of gathering data But how researchers ask a question can dramatically influence the answers they receive *Designing Quality Survey Questions* shows readers how to craft high quality precisely worded survey questions that will elicit rich nuanced and ultimately useful data to help answer their research or evaluation questions The authors address challenges such as language preferences for standard demographic
