Teaching for Understanding Across the Primary Curriculum Lynn D. Newton,2002 The book discusses the complex nature of understanding and what it means to teach for understanding The processes and strategies that can support teaching for understanding are then exemplified in the context of different areas of the primary elementary 4 11 years school curriculum Urban Theory Mark Jayne, Kevin Ward,2016-10-04 Urban Theory New Critical Perspectives provides an introduction to innovative critical contributions to the field of urban studies Chapters offer easily accessible and digestible reviews and as a reference text Urban Theory is a comprehensive and integrated primer which covers topics necessary for a full understanding of recent theoretical engagements with cities The introduction outlines the development of urban theory

over the past two hundred years and discusses significant theoretical methodological and empirical challenges facing the field of urban studies in the context of an increasingly globally inter connected world The chapters explore twenty four topics which are new additions to the urban theoretical debate highlighting their relationship to long established concerns that continue to have intellectual purchase and which also engage with rich new and emerging avenues for debate Each chapter considers the genealogy of the topic at hand and also includes case studies which explain key terms or provide empirical examples to guide the reader to a better understanding of how theory adds to our understanding of the complexities of urban life This book offers a critical and assessable introduction to original and groundbreaking urban theory and will be essential reading for undergraduate and postgraduate students in human geography sociology anthropology cultural studies economics planning political science and urban studies *Towards a Spatial Social Policy* Adam Whitworth, 2019-11-13

Social policy and human geography are intimately intertwined yet frequently disconnected fields Whilst social policies are always conceived implemented and experienced in and through geography the role of place in social policy scholarship and practice is frequently overlooked Bringing together experts from both fields this collection illuminates the myriad of ways that human geography offers rich insights conceptually empirically and methodologically into the neglected spatialities of policy scholarship practice and experience By building the necessary bridges towards a spatial social policy this book enables the enhanced design performance and understanding of social policies once properly rooted in their multiple spatialities

The Design of Frontier Spaces Carolyn Loeb, Andreas Luescher, 2016-03-09 In a globalizing world frontiers may be in flux but they remain as significant as ever New borders are established even as old borders are erased Beyond lines on maps however borders are spatial zones in which distinctive architectural graphic and other design elements are deployed to signal the nature of the space and to guide if not actually control behaviour and social relations within it This volume unpacks how manipulations of space and design in frontier zones historically as well as today set the stage for specific kinds of interactions and convey meanings about these sites and the experiences they embody Frontier zones organize an array of functions to facilitate the passage of goods information and people and to define and control access Bringing together studies from Asia Africa the Middle East Europe and North America this collection of essays casts a wide net to consider borders of diverse sorts Investigations of contemporary political frontiers are set within the context of examinations of historical borders borders that have existed within cities and virtual borders This range allows for reflection on shifts in how frontier zones are articulated and the impermanence of border emplacements as well as on likely scenarios for future frontiers This text is unique in bringing together a number of scholarly perspectives in the arts and humanities to examine how spatial and architectural design decisions convey meaning shape or abet specific social practices and stage memories of frontier zones that no longer function as such It joins and expands discussions in social science disciplines in which considerations of border practices tend to overlook the role of built form and material culture more broadly in representing social practices and

Ogletree, Jr.,Austin Sarat,2017-10-24 The work at hand for bridging the racial divide in the United States From Baltimore and Ferguson to Flint

and Charleston the dream of a post racial era in America has run up against the continuing reality of racial antagonism Current debates about affirmative action multiculturalism and racial hate speech reveal persistent uncertainty and ambivalence about the place and meaning of race and especially the black white divide in American culture They also suggest that the work of racial reconciliation remains incomplete Racial Reconciliation and the Healing of a Nation seeks to assess where we are in that work examining sources of continuing racial antagonism among blacks and whites It also highlights strategies that promise to promote racial reconciliation in the future Rather than revisit arguments about the importance of integration assimilation and reparations the contributors explore previously unconsidered perspectives on reconciliation between blacks and whites Chapters connect identity politics the rhetoric of race and difference the work of institutions and actors in those institutions and structural inequities in the lives of blacks and whites to our thinking about tolerance and respect Going beyond an assessment of the capacity of law to facilitate racial reconciliation Racial Reconciliation and the Healing of a Nation challenges readers to examine social political cultural and psychological issues that fuel racial antagonism as well as the factors that might facilitate racial reconciliation

Meeting Places of Transformation Thomas Borén, 2009-04-01 What happened to the urban spaces of everyday life when the Soviet Union collapsed And how may this change be understood Based on long term qualitative fieldwork in post Soviet Russia this study draws upon time geographic social and semiotic theory to formulate a model of how urban space is formed Mirrored through the case of Ligovo Uritsk a high rise residential district situated on the outskirts of Sankt Peterburg St Petersburg the changing relation between the lifeworlds of people and the system of governance is highlighted with regard to the transformation of Soviet and Russian society over the last decades The empirical material presented here documents a number of processes within urban identity formation spatial representations and local politics The resulting findings add both empirically and theoretically to the knowledge of urban cultural geography in Russia a field of research that until recently was closed to Western researchers and seems currently to be closing again The book will be of interest to researchers with an interest in social semiotic and geographic theory as well as to students and researchers of cultural and urban studies urban life and Russian affairs The study could be also helpful to professionals working in fields related to post Soviet urban identity spatial representations and local politics
