**Modern Russian Cinema as a Battleground in Russia's Information War** Alexander Rojavin, Helen Haft, 2024-07-31 This book explores how modern Russian cinema is part of the international information war that has unfolded across a variety of battlefields including social media online news and television It outlines how Russian cinema has been instrumentalized both by the Kremlin's allies and its detractors to convey salient political and cultural messages often in subtle ways thereby becoming a tool for both critiquing and serving domestic and foreign policy objectives shaping national identity and determining cultural memory It explains how regulations legislation and funding mechanisms have rendered contemporary cinema both an essential weapon for the Kremlin and a means for more independent figures to publicly frame official government policy In addition the book employs formal cinematic analysis to highlight the dominant themes and narratives in modern Russian films of a variety of genres situating them in Russia's broader rhetorical ecosystem and explaining how they serve the objectives of the Kremlin or its opponents

**Mission to Moscow** David Holbrook Culbert, 1980 Screenplay [Herstories on Screen](#) Kathleen Cummins, 2020-05-19 From the late 1970s into the early 1990s a generation of female filmmakers took aim at their home countries popular myths of the frontier Deeply influenced by second wave feminism and supported by hard won access to governmental and institutional funding and training their trailblazing films challenged traditionally male genres like the Western Instead of reinforcing the myths of nationhood often portrayed in such films invariably featuring a lone white male hero pitted against the savage and uncivilized

native terrain these filmmakers constructed counternarratives centering on women and marginalized communities In place of rugged cowboys violently removing indigenous peoples to make the frontier safe for their virtuous wives and daughters these filmmakers told the stories of colonial and postcolonial societies from a female and or subaltern point of view Herstories on Screen is a transnational study of feature narrative films from Australia Canada the United States and New Zealand Aotearoa that deconstruct settler colonial myths Kathleen Cummins offers in depth readings of ten works by a diverse range of women filmmakers including Jane Campion Julie Dash Merata Mita Tracey Moffatt and Anne Wheeler She reveals how they skillfully deploy genre tropes and popular storytelling conventions in order to critique master narratives of feminine domesticity and purity and depict women and subaltern people performing acts of agency and resistance Cummins details the ways in which second wave feminist theory and aesthetics informed these filmmakers efforts to debunk idealized Anglo Saxon femininity and motherhood and lay bare gendered and sexual violence and colonial oppression

**The Elements of Cinema** Stefan Sharff,1982 Beginning with the proposition that there exist uniquely cinematic elements of meaning and structure Stefan Sharff clearly and systematically lays the foundation for literacy in cinema a sensitivity to the aesthetic elements intrinsic only to film Sharff presents the basic elements of structure modes of expression and rules which he argues create a specific language and syntax of cinema

**From Soviet to Russian International Law** George Ginsburgs,2023-09-20 Russia s international law persona is still in its infancy and it will take a while for the cycle to run its full course However significant changes have already occurred in some areas thus offering an opportunity to analyze the trends here and track the process of emergence of successor doctrines and practices destined to replace the Soviet heritage The quartet of topics selected for treatment in this volume the relationship between international and domestic law citizenship and state succession the Sino Russian boundary problem and cooperation with China in policing crime illustrates major shifts in Russia s international law policy in a bid to shed the corset of Communist ideology and the old regime s modus operandi and join the international community s mainstream culture The test cases also attest to the difficulties encountered in the process of transition and show that progress on this front has by no means been uniform The sample includes both instances where the break with the past looks quite pronounced and where greater distancing from precedent might logically have been expected but for reasons that are then explored a sense of substantive continuity instead prevails albeit made more palatable by an application of linguistic cosmetics From Soviet to Russian International Law Studies in Continuity and Change marks the occasion of the author s 65th birthday and the 40th anniversary of his publishing debut
