Melancon, 2005-05-12 This volume surveys Nineteenth century Russian society and economy and finds that Russian institutions practices and ideas fit the general European pattern for that period of rapid change Even apparently

distinctive Russian features deepen our understanding of Europeaness In the Nineteenth century there were still many different ways to be European and excessive generalization based on the experiences of one or two countries obscures the great diversity that still characterized European civilization Moreover these essays bring to light several points at which Russian legislation and thinking provided models and examples for others to follow The authors focus on key elements of how Russians envisaged and constructed their economy and society This is an important contribution that increases understanding of Russian history at a time when Russia s relationship with the West is again debated *A History of Russia Volume 1* Walter G. developed in a comparative review which explores the effects of social change on the ways in which people seek to preserve and enhance their welfare through self help and collective action The book focuses on Britain the USA and Russia it challenges conventional definitions of welfare largely concerned with formal social policies sponsored by government and uses historical material to illustrate the dominant forms of a mutual aid which were practised before the development of modern welfare states

The Russian Revolution and Civil War 1917-1921 Jonathan Smele,2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events

themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian Revolution and Civil War 1917 1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state
