Russian Politics The Struggle For A New Order:

The Foreign Policy of Russia Robert H. Donaldson, **Siberia** Victor L Mote, 2018-02-07 Known to most as a realm of exile and labor camps Siberia is also one of the world's wealthiest resource bases This harsh vast land constitutes nearly three quarters of Russia's territory yet after four centuries of Slavic migration and procreation it is home to a mere 32 million people In this comprehensive book Victor Mote illuminates the dichotomy between Siberia's rich treasurehouse of resources and its peripheral relationship to the rest of the world With this paradox in mind he traces the region's history from the Stone Age to the present emphasizing the unique blend of wit and will developed by inhabitants to survive one of the most brutal environments in the world a land that has been part colony part prison and part frontier Mote also explores the geography ethnography economics and politics of Siberia and its people providing a multidisciplinary perspective for scholars and general readers alike interested in Eurasia's forgotten quarter *Denying History: The United States' Policies Toward Russia in the Caspian Sea Region, 1991-2001*. Bradley Axmith, 2013-08 The historical record seen through Offensive Realism presents evidence illustrating that the United States approach toward the Caspian Sea region between 1991 and 2001 was governed by idealistic principles rather than balance of power considerations That was led by the false notion that democratic Russia would act in accordance with US goals The United States denied the competitive nature of international politics refusing to criticise abuses by Moscow in the region and failing to intervene when US interests were marginalised The US failed to prevent Russia from refashioning conditions conducive to the re absorption of the Caucasus and Central Asia as a sphere of influence nor did it account for China's expanded role and trajectory as a challenge to US power This analysis shows for example that Russia's proximity and willingness to use force exceeded the capabilities of the US use of its global predominance to shape regional events Russian Politics Joseph L. Noguee, R. Judson Mitchell, 1997 This book offers an up to date treatment of Russian politics in the post Cold War era drawn from English language and Russian sources The authors see great potential in recent political developments in the former Soviet Union and in this book convey the sense of drama embodied in those changes and their impact upon the Russian people This book focuses on presenting and analyzing long term factors rather than simply recounting transitory events to make this book as useful tomorrow as it is today

Handbook of Global International Policy Stuart Nagel, 2000-05-16 Written by nearly 25 authorities in the field the Handbook of Global International Policy focuses on public policy issues among and within nations on every continent comparing approaches and applications to real world problems Beginning with a thorough introduction to the subject the Handbook reviews former and emerging US decision making foreign policies in the Democratic Republic of the Congo South Africa and Haiti rebel conflicts and restored relations among Eritrea the Sudan and Ethiopia Spanish enclaves in Northern Africa pre and post Cold War policies in East Asia including North and South Korea arms control and disarmament programs around the world ongoing risks in the Middle East nationalism and its effect in Slovenia and the Federal Republic of

Yugoslavia peacekeeping efforts in Eastern Europe by Russia civil and military relations between North Rhine Westphalia and the European Union England s public relations effort regarding European unity integration and national conflicts of the Zapatista movement in Mexico Columbia s attempts to apply military control and civil laws to combat internal problems the findings of the Aircraft Nuclear Propulsion Project case and more With over 1000 key literature citations and illustrations the Handbook of Global International Policy serves as timely reading for public administrators and public policy experts political scientists economists sociologists attorneys and upper level undergraduate and graduate students in these disciplines

Conflict and Security in the Former Soviet Union Maria Raquel Freire,2018-01-17 Title first published in 2003 Conflict and Security in the Former Soviet Union examines the Organization for Security and Co operation in Europe OSCE s approach to post Cold War tensions and conflicts in the former Soviet area the extent to which the new procedures mechanisms and instruments developed by the organization are useful and how the OSCE s activities may reveal innovative contributions to conflict studies Great Russians on the Jewish Question J. Kurk,1916 Russian Politics Today Susanne A. Wengle,2022-10-27 An accessible and nuanced introduction to contemporary Russian politics using the theme of stability versus fragility as its overarching framework This innovative textbook explores core themes as well as path breaking insights into the politics of race class gender sexuality and the environment *Russia, the Eurasian Republics, and Central/Eastern Europe* Minton F. Goldman,2000-01-30 The eighth edition of Global Studies Russia The Eurasian Republics and Central Eastern Europe will continue to provide introductory essays up to date background information and current statistics on the region A collection of world press articles topically arranged complements the background information **A History of World Order and Resistance** Andre C. Drainville,2013-06-17 This book combines theory with history to look into a dozen episodes of struggle over the concrete and situated terms of world ordering and it finds reasons to think that the contemporary movement of movements against neo liberal globalization has deeper roots and a broader history than is usually recognized Informed by case studies from the US the UK France South Africa Algeria the Philippines and Jamaica A History of World Order and Resistance examines how men and women are sometimes subjectified by world ordering and how they sometimes make themselves true subjects of their own global history The author an expert on resistance to world ordering situates the contemporary movement of movements against neo liberal globalization in a broader historical framework to argue that resistance to world ordering has not only developed its very own unalienating mode of relation to the world economy but also sustained it over two hundred years without political mediation or representations Herein lies the heart of the on going world revolution against capital The book concludes with a radical polemic against the political organization of the multitude A History of World Order and Resistance will be of interest to students and scholars of political theory international political economy and globalization *Routledge Handbook of Russian Politics and Society* Graeme Gill,2022-12-23 This second edition of the highly respected Routledge Handbook of Russian Politics and Society both

provides a broad overview of the area and highlights cutting edge research into the country Through balanced theoretical and empirical investigation each chapter examines both the Russian experience and the existing literature identifies and exemplifies research trends and highlights the richness of experience history and continued challenges inherent to this enduringly fascinating and shifting polity Politically economically and socially Russia has one of the most interesting development trajectories of any major country This Handbook answers questions about democratic transition the relationship between the market and democracy stability and authoritarian politics the development of civil society the role of crime and corruption the development of a market economy and Russia s likely place in the emerging new world order Providing a comprehensive resource for scholars students and policy makers alike this book is an essential contribution to the study of Russian studies politics Eastern European studies politics and International Relations

How Russians Understand the New Russia Paul Chaisty, Stephen Whitefield, 2025-02-25 The issues that are the most and the least divisive in Russia The collapse of the Soviet Union in 1991 created a new Russia with new territorial boundaries and new political and economic systems The hybrid political economy that emerged incorporated commitments to markets and democracy that were undermined by the state s economic interventions and authoritarian restrictions In this book Paul Chaisty and Stephen Whitefield argue that the hybridity of the post Soviet system provided a strong basis for the consolidation of Russian public opinion and for the management of contestation so that it did not threaten the system itself Drawing on almost thirty years of original public opinion research in Russia Chaisty and Whitefield also find however that the territorial dimension of Russia s postcommunist transformation has disrupted public support for the hybrid political economy In particular they trace the reopening of system level disagreement between system supporters and system opponents to the nationalist turn in Russian politics that culminated in the 2014 annexation of Crimea and the reactivation of Soviet identities How Russians Understand the New Russia provides the first longitudinal study of Russian public opinion on the system of political and economic power that replaced communism It offers unique insights into how Russian citizens have adapted their views of the new Russia identifying the issues that are the most and the least divisive Chaisty and Whitefield track Russian public opinion on a broad range of policy questions discuss the political importance of both voting and not voting and consider problems of nation building and national identity Finally they weigh the impact of the Ukraine war on Russia s hybrid system and whether consolidation or further contestation is more likely

Political Culture and Civil Society in Russia and the New States of Eurasia Vladimir Tismaneanu, 1995 First Published in 1998 Routledge is an imprint of Taylor Francis an Informa company

Civil Affairs in Occupied and Liberated Territory United States. War Department. Public Relations Division, 1946

The Russian Dilemma Gordon M. Hahn, 2021-11-17 From the end of the Mongol Empire to today Russian history is a tale of cultural political economic and military interaction with Western powers The depth of this relationship has created a geopolitical dilemma Russia has persistently been both attracted to and at odds with Western ideas and technological

development which have tended to threaten Russia's sense of identity and create destabilizing divisions within society. Simultaneously, deepening involvement in Western international affairs brought meddling in Russian domestic politics and military invasion. This book examines how the centuries-old Western threat has shaped Russia's political and strategic structures, creating a culture of security rooted in vigilance against Western influence and interference.

Gramsci and the Emancipation of the Subaltern Classes Marcos Del Roio, 2022-04-01 This book outlines essential issues of Antonio Gramsci's thought from his relationship to other political thinkers including Rosa Luxemburg, Lenin, and Machiavelli, the development of his key conceptual categories, and the applicability of those categories in contemporary contexts. The author demonstrates how Gramsci's revolutionary strategy begins with the knowledge of the subaltern classes, common sense, and their elements of rebellion in order to establish a dialectical relationship between intellectuals and the masses. That relationship promotes collective intellectual progress, ultimately leading to an effective philosophy of praxis founded on labor and a new hegemony. The book demonstrates that Gramsci's thought offers possibilities for understanding the serious crises of today.

A Companion to the Russian Revolution Daniel Orlovsky, 2020-08-17 A compendium of original essays and contemporary viewpoints on the 1917 Revolution. The Russian revolution of 1917 reverberated throughout an empire that covered one sixth of the world. It altered the geopolitical landscape of not only Eurasia but of the entire globe. The impact of this immense event is still felt in the present day. The historiography of the last two decades has challenged conceptions of the 1917 revolution as a monolithic entity; the causes and meanings of revolution are many, as is reflected in contemporary scholarship on the subject. A Companion to the Russian Revolution offers more than thirty original essays written by a team of respected scholars and historians of 20th-century Russian history. Presenting a wide range of contemporary perspectives, the Companion discusses topics including the dynamics of violence in war and revolution, Russian political parties, the transformation of the Orthodox church, Bolshevism, Liberalism, and more. Although primarily focused on 1917 itself and the singular Revolutionary experience in that year, this book also explores time periods such as the First Russian Revolution, early Soviet government, the Civil War period, and even into the 1920s. Presents a wide range of original essays that discuss. Brings together in-depth coverage of political history, party history, cultural history, and new social approaches. Explores the long-range causes, influence on early Soviet culture, and global afterlife of the Russian Revolution. Offers broadly conceived contemporary views of the revolution, largely based on the author's original research. Links Russian revolutions to Russian Civil Wars as concepts. A Companion to the Russian Revolution is an important addition to modern scholarship on the subject and a valuable resource for those interested in Russian Late Imperial or Soviet history, as well as anyone interested in Revolution as a global phenomenon.
