book offers a pioneering approach that analyzes these relations within the context of a Jewish majority with a minority phobia and an Arab minority with a sense of regional majority Addressing existing and anticipated influences of Russian immigrants on politics culture and social structures in Israel as well as the Israeli Palestinian conflict The Russians in Israel will be useful to students and scholars of Middle Eastern politics and society as well as Israel Russian and Ethnicity Studies American Book Publishing Record ,1992

Language Contact in the Territory of the Former Soviet Union Diana Forker, Lenore A. Grenoble, 2021-06-15 The former Soviet Union USSR provides the ideal territory for studying language contact between one and the same dominant language Russian and a wide range of genealogically and typologically diverse languages with varying histories of language contact This is the first book that bundles different case studies and systematically investigates the impact of Russian at all linguistic levels from the lexicon to the domains of grammar to discourse and with varying types of outcomes such as relatively rapid language shift structural changes in a relatively stable contact situation pidginization and super variability at the post pidgin stage The volume appeals to linguists studying language contact and contact induced language change from a broad range of perspectives who want to gain insight into how one of the largest languages in the world influences other smaller languages but also experts of mostly minority languages in the sphere of the former Soviet Union

Emerging Bilingual Speech Anna Verschik, 2011-10-20 Anna Verschik offers a new perspective on how a previously monolingual community of Russian speakers in Estonia is rapidly becoming bilingual after the end of the Soviet occupation in 1991 The contact induced change in Russian under the growing impact of Estonian is analysed in the theoretical framework of code copying Changes in linguistic behaviour of the speakers are often a result of intentional cultivation of non monolingual communication strategies and language policies and go hand in hand with the development of a new identity Estonian Russians Emerging Bilingual Speech is a fascinating study that will be of interest to researchers studying language contact language change and bilingualism

Experimental Approaches to the Acquisition of Information Structure Tania L. Leal, Bradley Hoot, Stavros Skopeteas, Joseph V. Casillas , Oksana Laleko, 2025-08-19 Human languages constrain the form utterances can take with constraints on grammaticality being but one example Beyond grammaticality utterances can vary in terms of their in felicitousness depending on how constituents relate to the surrounding discourse context speakers communicative needs and speakers assessment of the hearers beliefs The study of information structure explores how speakers package their utterances into blocks with varying informational values formalizing these units with notions like focus background or topic These categories among others have been the subject of substantial interest and debate in linguistics generating both theoretical models and experimental studies bearing on how information structure is represented and interpreted in the minds of speakers and how particular information structural categories are encoded in the grammar However the study of how information structure is acquired is still fledgling with uneven coverage across populations and languages Similarly the wide cross linguistic variation in the use of syntactic prosodic and morphological

means of its expression has been a major stumbling block in the development of a solid methodological foundation for experimental investigations. As things stand, the field is ripe for contributions from more varied approaches and drawing on linguistic data from underrepresented languages and populations. **Throw Your Voice** Meghanne Barker, 2024-08-15

Throw Your Voice is a story of loss and recovery. It relates how children placed in a temporary care institution make sense of their situations. Moving between a Kazakhstan government children's home, Hope House, and the Almaty State Puppet Theater, Meghanne Barker shows how children and puppets as proxies bring to life ideologies of childhood and visions of a rosy future. Sites and stories run in parallel. Framed by the narrative of Anton Chekhov's *Kashtanka* about a lost dog taken in by a kind stranger, the author follows the story's staging at the puppet theater. At Hope House, children find themselves on a path similar to *Kashtanka*, dislodged from their first homes to reside in a second. The heart of this story is about living in displacement and about the fragile intimacies achieved amidst conditions of missing. Whether due to war, migration, or pandemic, people get separated from those closest to them. **Throw Your Voice** examines how strangers become familiar and how objects mediate precarious ties. She shows how people use fantasy to mitigate loss. *Proceedings of the Speech Prosody 2008 Conference*, The SAGE Handbook of Conflict Resolution Jacob Bercovitch, Victor Kremenyuk, I William Zartman, 2008-12-03

The **SAGE Handbook of Conflict Resolution** demonstrates the range of themes that constitute modern conflict resolution. It brings out its key issues, methods, and dilemmas through original contributions by leading scholars in a dynamic and expanding field of inquiry. This handbook is exactly what it sets out to be: an indispensable tool for teaching research and practice in conflict resolution. Peter Wallensteen, Professor of Peace and Conflict Research, Uppsala University and University of Notre Dame; Bercovitch, Kremenyuk, and Zartman are among the most important figures in the conflict resolution field. They have pieced together, with the help of more than 35 colleagues from numerous countries, a state-of-the-art review of the sources of international conflict, available methods of conflict management, and the most difficult challenges facing the individuals and organizations trying to guide us through these conflict-ridden times. The collection is brimming with penetrating insights, trenchant analyses, compelling cases, and disciplined speculation. They help us understand both the promise of, as well as the obstacles to, theory building in the new field of conflict resolution. Lawrence Susskind, Professor and Director of the MIT Harvard Public Disputes Program. The last three sentences of this persuasive book: We conclude this volume more than ever convinced that conflict resolution is not just possible or desirable in the current international environment. It is absolutely necessary. Resolving conflicts and making peace is no longer an option; it is an intellectual and practical skill that we must all possess. If you are part of that, we intellectually or professionally, you will find this book a superb companion. Thomas C. Schelling, Professor Emeritus, Harvard University and University of Maryland.

Conflict resolution is one of the fastest growing academic fields in the world today. Although it is a relatively young discipline having emerged as a specialized field in the 1950s, it has rapidly grown into a self-contained, vibrant interdisciplinary field. The **SAGE Handbook of**

Conflict Resolution brings together all the conceptual methodological and substantive elements of conflict resolution into one volume of over 35 specially commissioned chapters The Handbook is designed to reflect where the field is today by drawing on the contributions of experts from different fields presenting in a systematic way the most recent research and practice Jacob Bercovitch is Professor of International Relations and Fellow of the Royal Society at the University of Canterbury in Christchurch New Zealand Victor Kremenjuk is deputy director of the Institute for USA and Canada Studies Russian Academy of Sciences Moscow He is also a research associate at IIASA I William Zartman is Jacob Blaustein Professor of Conflict Resolution and International Organization at the Nitze School of Advanced International Studies of Johns Hopkins University
