Russian Commands And German Resistance:

Russian Commands and German Resistance Edward Norman Peterson,1999 The common assumption has been that Stalin established a totalitarian state in his zone and that the authoritarian Germans simply continued from one obedience to the other Scholarly analysis first possible with the coming down of the Wall begins with the Soviet Command in Berlin It then traces policy implementation in four German states and eight local communities The surprising conclusion is that the purposes of Stalin were confused that the Moscow policy was ambivalent and the assigned personnel insufficiently prepared and controlled The German response was a massive resistance whether out of a desire for freedom or for a higher standard of living or the inertia of continuing in their individualistic capitalist ways

The Politics of Religion in Soviet-occupied Germany Sean Philip Brennan,2011-01-01 This book analyzes the relationship between Soviet military authorities the East German Communists and the leadership of the Protestant and Catholic Churches in the Soviet zone of Germany especially its central province of Berlin Brandenburg It discusses how relations worsened between communist and church authorities as the Soviet zone was rebuilt as a German state on the Stalinist model from 1945 to 1949
