Russian Miniatures of the 11th to the 15th century O. Попова, 1975      Russian Miniatures of the 11th to the 15th Centuries O. Popova, 1975      **Medieval Russian Fortresses AD 862-1480** Konstantin S Nossov, 2012-06-20 According to Russian legend in the year AD 862 the Slav tribes of what is now European Russia invited a number of Scandinavian princes to rule over them However on the death of these princes Prince Oleg seized Kiev and united the Northern and Southern Russian territories building extensive fortifications to protect its borders The rise of feudalism in the 11th century led to the development of individual fortified sites and the extended border defenses fell into disrepair Consequently Mongol hordes poured over the border introducing the siege warfare techniques of the East heavily influencing the fortification styles thereafter Using a wealth of archeological evidence and first hand sources Konstantin Nossov charts the history of the medieval Russian fortress from its early beginnings until the 14th century paying special attention to the development of one of the most iconic fortifications in the world the Kremlin      *Bibliographic Guide to Art and Architecture* New York Public Library. Wilson,2012-12-06 The aim of this study is to trace the development of the literary travel memoir in Russia during the last decades of the eighteenth century and the first decades of the nineteenth Having indicated the provenances of this genre in Western Europe I shall evaluate its role in Russian literary history Because this study is not intended to be an historical survey of all significant travel works that appeared in Russia I shall pass over such early pioneer travelers as the Abbot Daniil who visited Palestine at the beginning of the twelfth century and recorded for his countrymen detailed descriptions of the Holy places or the merchant Afanasij Nikitin whose travel notes concerning a trip to India are preserved in a fifteenth century chronicle The travel genre which had become enormously popular in eighteenth century Western Europe was cleverly exploited by Fonvizin Radishchev and Karamzin to expound to the Russian reading public certain important notions on literary theory on society foreign and domestic on themselves and on nature The travel genre then as now a flexible instrument for transmitting by means of diary style narrative information about distant often exotic people and place had been adapted by Sterne and others to themes having little relation to a conventional journey The Russians were quick to grasp the genre's literary as well as its polemical possibilities and influenced by Western models they too used it to convey theoretical assertions on a variety of Subjects      **The Sources of Russian History** ,1963      **Russian Library Treasures** Tatiana Kostaki,Christopher J.
