Russia's Cotton Workers and the New Economic Policy Chris Ward, 2002-06-20 Key aspects of life on the shop floor of the Russian cotton mill in the 1920s **Stalinism and the Politics of Mobilization** David Priestland, 2007-02-01 Stalinism and the Politics of Mobilization offers a new interpretation of Bolshevik ideology examines its relationship with Soviet politics between 1917 and 1939 and sheds new light on the origins of the political violence of the late 1930s While it challenges older views that the Stalinist system and the Terror were the product of a coherent Marxist Leninist blueprint imposed by a group of committed ideologues it argues that ideas mattered in Bolshevik politics and that there are strong continuities between the politics of the revolutionary period and those of the 1930s By exploring divisions within the party over several issues including class the relations between elites and masses and economic policy David Priestland shows how a number of ideological trends emerged within Bolshevik politics and how they were related to political and economic interests and strategies He also argues that central to the launching of the Terror was the leadership's commitment to a strategy of mobilization and to a view of politics that ultimately derived from the left Bolshevism of the revolutionary period

Living the Revolution Andy Willimott, 2017 Living the Revolution offers a pioneering insight into the world of the early Soviet activist At the heart of this book are a cast of fiery eyed bed headed youths determined to be the change they wanted to see in the world First banding together in the wake of the October Revolution seizing hold of urban apartments youthful enthusiasts tried to offer practical examples of socialist living Calling themselves urban communes they embraced total equality and shared everything from money to underwear They actively sought to overturn the traditional family unit reinvent domesticity and promote a new collective vision of human interaction A trend was set a revolutionary meme that would in the coming years allow thousands of would be revolutionaries and aspiring party members to experiment with the possibilities of socialism The first definitive account of the urban communes and the activists that formed them this volume utilizes newly uncovered archival materials to chart the rise and fall of this revolutionary impulse Laced with personal detail it illuminates the thoughts and aspirations of individual activists as the idea of the urban commune grew from an experimental form of living limited to a handful of participants in Petrograd and Moscow into a cultural phenomenon that saw tens of thousands of youths form their own domestic units of socialist living by the end of the 1920s Living the Revolution is a tale of revolutionary aspiration appropriation and participation at the ground level Never officially sanctioned by the party the urban communes challenge our traditional understanding of the early Soviet state presenting Soviet ideology as something that could both frame and fire the imagination
