New York Magazine ,1986-07-21 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea

A Theory of Virtue Robert Merrihew Adams,2008-10-23 The distinguished philosopher Robert M Adams presents a major work on virtue which is once again a central topic in ethical thought A Theory of Virtue is a systematic comprehensive framework for thinking about the moral evaluation of character Many recent attempts to stake out a place in moral philosophy for this concern define virtue in terms of its benefits for the virtuous person or for human society more generally In Part One of this book Adams presents and defends a conception of virtue as intrinsic excellence of character worth prizing for its own sake and not only for its benefits In the other two parts he addresses two challenges to the ancient idea of excellence of character One challenge arises from the importance of altruism in modern ethical thought and the question of what altruism has to do with intrinsic excellence Part Two argues that altruistic benevolence does indeed have a crucial place in excellence of character but that moral virtue should also be expected to involve excellence in being for other goods besides the well being and the rights of other persons It explores relations among cultural goods personal relationships one s own good and the good of others as objects of excellent motives The other challenge the subject of Part Three of the book is typified by doubts about the reality of moral virtue arising from experiments and conclusions in social psychology Adams explores in detail the prospects for an empirically realistic conception of excellence of character as an object of moral aspiration endeavor and education He argues that such a conception will involve renunciation of the ancient thesis of the unity or mutual implication of all virtues and acknowledgment of sufficient moral luck in the development of any individual s character to make virtue very largely a gift rather than an individual achievement though nonetheless excellent and admirable for that
