the legal fraternity It is this that makes the case even more persuasive All who are involved in counter terrorism strategy should consider carefully the arguments put forward Global Policy Journal For more than 150 years nationalist populist Marxist and religious terrorists have all been remarkably consistent and explicit about their aims provoke states into over reacting to the threat they pose then take advantage of the divisions in society that result Yet state after state falls into the trap that terrorists have set for them Faced with a major terrorist threat governments seem to reach instinctively for the most coercive tools at their disposal and in doing so risk exacerbating the situation This policy response seems to be driven in equal parts by a lack of understanding in the true nature of the threat an exaggerated faith in the use of force and a lack of faith that democratic values are sufficiently flexible to allow for an effective counter terrorism response Drawing on a wealth of data from both historical and contemporary sources Avoiding the Terrorist Trap addresses common misconceptions underpinning flawed counter terrorist policies identifies the core strategies that guide terrorist operations consolidates the latest research on the underlying drivers of terrorist violence and then demonstrates why a counter terrorism strategy grounded in respect for human rights and the rule of law is the most effective approach to defeating terrorism
