Evolutionary Computing and Mobile Sustainable Networks V. Suma, Xavier Fernando, Ke-Lin Du, Haoxiang Wang, 2022-03-21 This book mainly reflects the recent research works in evolutionary computation technologies and mobile sustainable networks with a specific focus on computational intelligence and communication technologies that widely ranges from theoretical foundations to practical applications in enhancing the sustainability of mobile networks Today network sustainability has become a significant research domain in both academia and industries present across the globe Also the network sustainability paradigm has generated a solution for existing optimization challenges in mobile communication networks Recently the research advances in evolutionary computing technologies including swarm intelligence algorithms and other evolutionary algorithm paradigms

are considered as the widely accepted descriptors for mobile sustainable networks virtualization optimization and automation To deal with the emerging impacts on mobile communication networks this book discusses about the state of the research works on developing a sustainable design and their implementation in mobile networks With the advent of evolutionary computation algorithms this book contributes varied research chapters to develop a new perspective on mobile sustainable networks Network and System Security Joseph K. Liu,Xinyi Huang,2019-12-10 This book constitutes the proceedings of the 13th International Conference on Network and System Security NSS 2019 held in Sapporo Japan in December 2019 The 36 full papers and 7 short papers presented together with 4 invited papers in this book were carefully reviewed and selected from 89 initial submissions The papers cover a wide range of topics in the field including authentication access control availability integrity privacy confidentiality dependability and sustainability of computer networks and systems *Image and Video Retrieval* Wee-Kheng Leow,Michael S.
