M. Jain,2017-06-06 China s Soft Power Diplomacy Myth or Reality examines the Chinese version of soft power both in conceptual and operational terms and explores its myriad implications for India in particular and South Asia in general The book investigates how the institutionalization of cultural soft power would

help China project its image as a benign and responsible stakeholder in order to reshape the current international system with its notion of harmonious world order based on Chinese characteristics This book traces the origin of China's engagement with South Asian states from historical political economic and security perspectives in order to better understand the dynamics of its South Asia policy It illuminates the core reasons to explain why China's soft power initiatives in South Asia are least appealing and convincing to India while they are welcomed by smaller nations of the region More pertinently the book addresses complexities and nuances of China's soft power instruments given the psycho cultural and geopsychological peculiarities of the South Asian region For this it focuses on how the Sino Pakistan axis constitutes a potential challenge to India's leadership role and influence in South Asia **Asian Studies**, 1991 *Nepal Between China and India* Gaurav Bhattarai, 2022-06-17 Nepal has a non neutral history As an imperial and expansionist power in the Himalayas from the days of its unification in 1769 AD to the Anglo Nepal war of 1815 Nepal never remained neutral Also during the period of Colonialism in South Asia and particularly after losing the war with the British in 1816 Nepal never exercised the policy of neutrality Rather Nepal was raiding Tibet assisting British India in Sepoy Mutiny and stood by Britain in the two world wars Besides Nepal militarily backed independent India in 1948 over Hyderabad question But why Nepal suddenly had to take a refuge in neutrality after the political change of 1950 Was it because of Nepal's internal politics or an attempt to cope with new arrangements in regional security Nepal's fascination with neutrality was so swifter and inadvertent that Kathmandu hitherto has never initiated any policy debates over the all weather choice Power elites in Nepal still misperceive neutrality as non alignment The aim of the book however is not only limited to distinguishing neutrality with non alignment in the Nepali context but weighs Nepal's claim to neutrality through the Indian and Chinese perceptions to underline the presence of ambiguity and uncertainty in Nepal's claim to neutrality Illustrating Nepal's attempt to neutrality as a mere survival strategy this study is less hopeful about Nepal's foreign policy institutions abandoning their Cold War worldview by embracing the strategy of sustenance in today's interdependent and globalized world Because as the book suggests power elites in Kathmandu are customarily lured by the ephemeral yet sporadic geopolitical ambitions either through discourses or deeds *The Trade Policy of Emerging Powers* Laura Mahrenbach, 2013-09-12 As emerging powers deepen their involvement in world trade and global governance it is crucial to explore the what and the why of their strategic choices vis a vis the World Trade Organization This book does just that examining the trade policy decisions of two emerging power states Brazil and India since 2001 In this timely work Laura Carsten Mahrenbach develops a broad based analytical framework which addresses trade policy within EP states in their regions and on the global level The findings underline the importance of examining domestic factors when trying to understand strategic decisions by emerging powers They also have important implications for our understanding of the role of emerging power states in global trade governance **The European Union and Emerging Powers in the 21st Century** Sven Biscop, 2016-02-11 The emergence of new powers

fundamentally questions the traditional views on international relations multilateralism or security as a range of countries now competes for regional and global leadership economically politically technologically and militarily As the focus of international attention shifts from the Atlantic to the Pacific the European states in particular are seen to lose influence relative to the emerging economic powerhouses of China Russia India and Brazil European nations find themselves too small to engage meaningfully with these continent sized powers and in an increasingly multipolar world are concerned their influence can only continue to decline This book analyses the shifts in the structure of global power and examines the threats and opportunities they bring to Europe Leading European Contributors reflect on how the EU can utilise collective strength to engage and compete with rapidly developing nations They examine perceptions of the EU among the emerging powers and the true meaning and nature of any strategic partnerships negotiated Finally they explore the shape and structure of the international system in the 21st century and how the EU can contribute to and shape it Global Power B. M.
