Geopolitics of Australia's Regional Relations D. Rumley,2001-06-30 The origins of this book go back 30 years to the stimulation and interest generated by the political geography seminars led by John House at the University of Newcastle Upon Tyne I was very fortunate to graduate among its extremely capable sporty and enthusiastic class of 68 from where several academic geographers emerged Equally fortunately some of them and their predecessors had already blazed a trail to undertake graduate studies in Canada At the University of British Columbia I was supervised at different times by Julian Minghi and Victor Prescott both of whom are not only extremely capable academics but are also very fine people owe an enormous debt to John Julian and Victor and to the British and Canadian taxpayers who provided financial support for my University studies In 1974 I began an academic career at the University of Western Australia where I have been ever since save for a two year period from 1991-3 as Professor of Australian Studies in the Department of International Relations at the University of Tokyo Viewing Australia and the Asia Pacific region from this different perspective within an extremely supportive Japanese environment had a profound impact I am especially grateful for the support provided by so many Japanese academic colleagues and friends beginning as early as 1976 Three individuals deserve special mention for their help guidance and enduring friendship George Ohshima Hiroshi Tanabe and Akihiro Kinda **Sustainable Development, Regional Governance, and International Organizations** Anastassia Obydenkova,2024-06-28 This book aspires to establish a dialogue among the studies of sustainable development global environmental politics comparative regionalism and area studies of Eurasia The chapters in this book reflect deep knowledge of the authors of the main trends in

China's Regional Relations in Comparative Perspective Steven F. Jackson, 2018-02-06 China's relations with its neighbors have evolved since 1949 and in the 21st century many scholars argue that China's rising power has led it to be increasingly domineering over those smaller countries in Northeast Southeast Central and South Asia The evolution of China's regional relations needs to be examined comprehensively since China counts twenty seven countries as its neighbors large and small While China's official policy toward all of these countries is to treat them as good neighbors and partners some of these relationships have been spectacularly deteriorating while others have been quietly improving over the last two decades Jackson takes a comparative foreign policy approach and compares China's status as a regional hegemon with the United States Russia India Brazil South Africa and Nigeria The result is a broader theory as to why regional powers are sometimes intimidating and at other times accommodating An important contribution to studies on China this book will prove useful to scholars and students in Chinese and Asian foreign policy comparative foreign policy and international relations
