Places Caitlin Murdock,2010-06-10 Changing Places is an interesting meditation on the varying identities and rights claimed by residents of borderlands the limits placed on the capacities of nation states to police their borders and enforce national identities and the persistence of such contact zones in the past and present It is an extremely well written and engaging study and an absolute pleasure to read Dennis Sweeney University of Alberta Changing Places offers a brilliantly transnational approach to its subject the kind that historians perennially demand of themselves but almost never accomplish in practice Pieter M Judson Swarthmore College Changing Places is a transnational history of the birth life and death of a modern borderland and of frontier peoples changing relationships to nations states and territorial belonging The cross border region between Germany and Habsburg Austria and after 1918 between Germany and Czechoslovakia became an international showcase for modern state building nationalist agitation and local pragmatism after World War I in the 1930s and again after 1945 Caitlin Murdock uses wide ranging archival and published sources from Germany and the Czech Republic to tell a truly transnational story of how state regional and local historical actors created and eventually destroyed a cross border region Changing Places demonstrates the persistence of national fluidity ambiguity and ambivalence in Germany long after unification and even under fascism It shows how the 1938 Nazi annexation of the Czechoslovak Sudetenland became imaginable to local actors and political leaders alike At the same time it illustrates that the Czech German nationalist conflict and Hitler s Anschluss are only a small part of the larger more complex borderland story that continues to shape local identities and international politics today Caitlin E Murdock is Associate Professor of History at California State University Long Beach Jacket Credit Cover art courtesy of the author **Geschichte der deutschen**

Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and suspenseful novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
