

Sacramento River

Paul Bailey

Sacramento River:

Examination and Survey of Sacramento River, California United States. Army. Corps of Engineers, Thomas H. Jackson, 1909 **Sacramento River, Calif** United States. Congress. House. Committee on Rivers and Harbors, 1946

Sacramento River and Major and Minor Tributaries, California United States. Army. Corps of Engineers. Sacramento District, 1975 *River City and Valley Life* Christopher J. Castaneda, Lee M.A. Simpson, 2013-12-09

Often referred to as the Big Tomato Sacramento is a city whose makeup is significantly more complex than its agriculture based sobriquet implies In River City and Valley Life seventeen contributors reveal the major transformations to the natural and built environment that have shaped Sacramento and its suburbs residents politics and economics throughout its history The site that would become Sacramento was settled in 1839 when Johann Augustus Sutter attempted to convert his Mexican land grant into New Helvetia or New Switzerland It was at Sutter s sawmill fifty miles to the east that gold was first discovered leading to the California Gold Rush of 1849 Nearly overnight Sacramento became a boomtown and cityhood followed in 1850 Ideally situated at the confluence of the American and Sacramento Rivers the city was connected by waterway to San Francisco and the surrounding region Combined with the area s warm and sunny climate the rivers provided the necessary water supply for agriculture to flourish The devastation wrought by floods and cholera however took a huge toll on early populations and led to the construction of an extensive levee system that raised the downtown street level to combat flooding Great fortune came when local entrepreneurs built the Central Pacific Railroad and in 1869 it connected with the Union Pacific Railroad to form the first transcontinental passage Sacramento soon became an industrial hub and major food processing center By 1879 it was named the state capital and seat of government In the twentieth century the Sacramento area benefitted from the federal government s major investment in the construction and operation of three military bases and other regional public works projects Rapid suburbanization followed along with the building of highways bridges schools parks hydroelectric dams and the Rancho Seco nuclear power plant which activists would later shut down Today several tribal gaming resorts attract patrons to the area while Old Sacramento revitalizes the original downtown as it celebrates Sacramento s pioneering past This environmental history of Sacramento provides a compelling case study of urban and suburban development in California and the American West As the contributors show Sacramento has seen its landscape both ravaged and reborn As blighted areas rail yards and riverfronts have been reclaimed and parks and green spaces created and expanded Sacramento s identity continues to evolve As it moves beyond its Gold Rush Transcontinental Railroad and government town heritage Sacramento remains a city and region deeply rooted in its natural environment **The Sacramento, River of Gold** Julian Dana, 1971-01-01 *The Development of the Upper Sacramento River* Paul Bailey, 1928 *Report on 1956 Cooperative Study Program* United States. Bureau of Reclamation, 1957 *Report on the Condition of the Sacramento River During the High Water of January, 1896* John Randolph Price, California. Department of Public Works, 1896 *Flood Hazard Information*

,1978 **Proceedings of the Sacramento River Problems Conference** California. Division of Water Rights,1924
Report of the Board of Commissioners of the Sacramento River Drainage District to the Governor of California California.
Board of Commissioners of the Sacramento River Drainage District,1879 **SACRAMENTO RIVER DEEP WATER SHIP;
CHANNEL, CALIFORNIA.** United States. Army. Corps of Engineers. Sacramento District,1979 *Sacramento River and
Tributaries Bank Protection and Erosion Control Investigation, California* ,1982 **Rivers of America** Julian Dana,
Sacramento River and Tributaries Bank Protection and Erosion Control Investigation, California United States. Army.
Corps of Engineers. Sacramento District,1981 **The Development of the Upper Sacramento River** Paul
Bailey,2015-08-05 Excerpt from The Development of the Upper Sacramento River An Appendix to the Summary Report to the
Legislature of 1927 on the Water Resources of California and a Coordinated Plan for Their Development This bulletin is one
of a series appended to the Summary Report on the Water Resources of California and a Coordinated Plan for their
Development that was presented to the Legislature of 1927 It is part of the investigation of the water resources of the State
commenced in 1921 This investigation comprised a survey of water supplies and flood flows throughout the State a
determination of their characteristics an estimate of the present and future needs for water and the formulation of a
comprehensive and coordinated plan for future development in order to insure adequate water supplies for all purposes The
1927 report concludes this investigation The entire series of bulletins pertaining to the 1927 report are Bul 12 Summary
Report on the Water Resources of California and a Coordinated Plan for their Development A report to the Legislature of
1927 Bul 13 The Development Of The Upper Sacra Mento River Bul 14 The Control of Floods by Reservoirs Bul 15 The
Coordinated Plan of Water Development in the Sacramento Valley Bul 16 The Coordinated Plan of Water Development in the
San Joaquin Valley Bul 17 The Coordinated Plan of Water Development in Southern California Other bulletins pertaining to
these investigations published prior to the 1927 report are Bul 4 Water Resources of California A report to the Legislature of
1923 on the first two years of investigation Bul 5 Flow in California Streams Bul 6 Water Requirements of California Lands
Bul 9 A Supplemental Report on the Water Resources of California A report to the Legislature of 1925 Bul 11 Ground Water
Resources of the Southern San Joaquin Valley The first appropriation for the investigation of the water resources of
California was made by Chapter 889 of the 1921 Statutes in the amount of 200 000 This resulted in the publication of
Bulletins Nos 4 5 and 6 These contain a complete inventory of all the waters within the States boundaries an estimate of the
future needs of water for all purposes and a preliminary comprehensive plan for ultimate development that will secure the
greatest public service from the State s limited water supply No provision was made for the continuance of the investigations
by the 1923 Legislature but at the urgent request of the farmers of the southern San Joaquin Valley the Chambers of
Commerce of San Francisco and Los Angeles advanced 90 000 for the study of a first unit of the comprehensive plan that
would relieve the stress in a section of the State most in need of an imported water supply About the Publisher Forgotten

Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
