Cosmic Connection Carole Lynne,2009-03-24 In a bold departure from her earlier books medium and psychic Carole Lynne shares the story of her own growing revelation of the interconnected interplanetary cosmic energy that flows around and through us all that is indeed the stuff we are made of Experience Carole Lynne s journey of a lifetime as she goes into an altered state of consciousness and brings messages from My Guidance and The Energy Receive a glimpse into the nature of the spiritual forces that have created us and continue to manifest life Evolution is not over The future of our world depends on our abilities to evolve in a positive way to let go of our egos to realize that we are not separate beings and to evolve to a consciousness that finds poverty pollution and war unthinkable We are responsible for the future But how can we change in order to have better personal lives and to make better choices for our world As we approach 2012 and a seeming meltdown of economic and societal infrastructures more and more people are turning to other realms for solace advice and the tools they need to live every day In the past when this has happened during the Great Depression or WWI for example a great deal of material from other realms was given to us Carole Lynne s work joins that of her predecessors and her contemporaries in providing that information for tomorrow s world Journal of Dharma ,1996

Stump, 2008-04-04 The only book of its kind this balanced and accessibly written text explores the geographical study of religion Roger W Stump presents a clear and meticulous examination of the intersection of religious belief and practice with the concepts of place and space He begins by analyzing the factors that have shaped the spatial distributions of religious groups including the seminal events that have fostered the organization of religions in diverse hearths and the subsequent processes of migration and conversion that have spread religious beliefs The author then assesses how major religions have diversified as they have become established in disparate places producing a variety of religious systems from a common tradition Stump explores the efforts of religious groups to control secular space at various scales relating their own uses of particular spaces and the meanings they attribute to space beyond the boundaries of their own communities Examining sacred space as a diverse but recurring theme in religious belief the book considers its role in religious forms of spatial behavior and as a source of conflict within and between religious groups Refreshingly jargon free and impartial this text provides a broad comparative view of religion as a focus of geographical inquiry **101 Ways to Meet Your Angels** Karen Paolino Correia, 2011-10-15 Angels are everywhere watching over us and even guiding us without our knowledge In this inspiring and reassuring guide readers will learn to communicate with these heavenly messengers and call upon them for counsel and consideration Clairvoyant spiritual counselor Karen Paolino trained by world famous angel expert Doreen Virtue teaches readers how to connect with their team of guardians by Developing their divine intuition Discovering the power of prayer to invoke angel miracles Using angel specific meditations and affirmations Performing Angel Card readings Featuring special sections on the history and hierarchy of angels their individual roles as messengers and protectors and real life examples of angel miracles 101 Ways to Meet Your Angels is all readers need to meet the angels that offer love support and guidance each and every day *The Heirs of the Prophet* Liyakat N. Takim, 2012-02-01 2007 CHOICE Outstanding Academic Title After the death of the Prophet Muhammad different religious factions within the Muslim community laid claim to the Prophet s legacy Drawing on research from Sunni and Shi ite literature Liyakat N Takim explores how these various groups including the caliphs scholars Sufi holy men and the Shi ite imams and their disciples competed to be the Prophetic heirs The book also illustrates how the tradition of the heirs of the Prophet was often a polemical tool used by its bearers to demand obedience and loyalty from the Muslim community by imposing an authoritative rendition of texts beliefs and religious practices Those who did not obey were marginalized and demonized While examining the competition for Muhammad s charismatic authority Takim investigates the Shi ite self understanding of authority and argues that this was an important factor in the formation of a distinct Shi ite leadership The Heirs of the Prophet also provides a new understanding of textual authority in Islam by examining authority construction and the struggle for legitimacy evidenced in Islamic biographical dictionaries *A Commentary on the Holy Scriptures: Critical, Doctrinal, and Homiletical* Johann Peter Lange, 1874 **Llewellyn's 2023 Magical Almanac**
