Sacred Places And Profane Spaces Essays In The Geographics Of Judaism Christianity And Islam:

Sacred Places and Profane Spaces Jamie S. Scott, Paul S. Housley, 1991-09-30 The editors and contributors to this pioneering volume have focused the lens of geography on new territory as they inquire critically into the spatial dimensions of Judaism Christianity and Islam making this interdisciplinary project truly a new idea in the study of comparative religion and human geography Editors Jamie Scott and Paul Simpson Housley have organized the study into three broad areas of inquiry and have coined the term Geographics to encompass the three distinct yet interrelated spatial dimensions implicated in the study of religion The first area concerns the literal role played by specific sites regions or geographical phenomena in the development of the three religions The focus here is on city wilderness river valley and mountain as well as flood earthquake whirlwind and famine with attention devoted to methodological epistemological and ontological issues The symbolic or interpreted role played by these same specific entities in the three religions is the second notion to be explored The third focus is an inquiry into the geography of prophetic and apocalyptic visions and the role of geographical imagination in the development of religious self understanding This interface of natural and historical geography with the geography of the prophetic and apocalyptic imagination produces a graphic sometimes terrifying landscape The volume's nine essayists have approached their chapters with this threefold schematization in mind so that the book consists of one study devoted to each of these dimensions in Judaism Christianity and Islam as well as an introduction and afterword by the editors Each essay discusses the relationship of the spatial and the sacred in scripture and in subsequent literary and theological reflection upon scriptural themes The range of topics and variety of approaches used reflect the interpretive ambiguities that stem from the unique social political and economic functions conferred on places and spaces of particular significance in the life and thought of a religious tradition or community The section on Judaism explores Jewish agricultural settlements in Palestine the Temple Mount al haram al sharif and the Garden of Eden In depth looks at Finland women's geography and the apocalyptic world comprise the section on Christianity Iranian feasting and pilgrimage circuits modern Egypt and sacred geography are assessed in the final section on Islam This carefully edited innovative study offers a unique approach to the study of religion and will be read profitably by scholars and students of religion and geography

Heavenly Space in Hebrews and Its Jewish and Christian Environment Stephen C. Wunrow, 2025-06-12 Stephen Wunrow addresses the pressing question of what the author of Hebrews meant by his descriptions of heaven arguing that the author intended his references to heavenly space to be interpreted as realistic descriptions of a real place Wunrow posits that language about heaven is neither metaphor nor a description of a place outside the creation by examining other early Jewish and Christian texts that narrate or describe humans ascending into heaven Given the nature and the function of heavenly space as described in these texts Wunrow suggests it is most probable that the authors of the texts intended their descriptions of heavenly space to be understood as realistic Wunrow thus explores 1 and 2 Enoch 4 Ezra 2 and 3 Baruch the Apocalypse of Abraham the

Testament of Levi the Testament of Abraham the Ascension of Isaiah and Revelation investigating how other roughly contemporary authors described heavenly space and considering that the rhetorical aims of most of these authors fail unless their readers understand their descriptions of heavenly space in realistic ways Turning then to examine Hebrews Wunrow suggests that while the letter does contain unique features and rhetorical aims it also fits comfortably with other early Jewish and Christian texts that describe humans ascending into heaven in a realistic manner He concludes with reflections on how this conclusion helps to clarify other topics in Hebrews including atonement and eschatology

Sacred Economies Michael John Walsh, 2010 Buddhist monasteries in medieval China employed a variety of practices to ensure their ascendancy and survival Most successful was the exchange of material goods for salvation as in the donation of land which allowed monks to spread their teachings throughout China By investigating a variety of socioeconomic spaces produced and perpetuated by Chinese monasteries Michael J Walsh reveals the sacred economies that shaped early Buddhism and its relationship with consumption and salvation Centering his study on Tiantong a Buddhist monastery that has thrived for close to seventeen centuries in southeast China Walsh follows three main topics the spaces monks produced within and around which a community could pursue a meaningful existence the social and economic avenues through which monasteries provided diverse sacred resources and secured the primacy of Buddhist teachings within an agrarian culture and the nature of transactive participation within monastic spaces which later became a fundamental component of a broader Chinese religiosity Unpacking these sacred economies and repositioning them within the history of religion in China Walsh encourages a different approach to the study of Chinese religion emphasizing the critical link between religious exchange and the production of material culture

Violence, Scripture, and Textual Practices in Early Judaism and Christianity Raanan Shaul Boustán, Alex P. Janssen, Calvin J. Roetzel, 2010 This volume analyzes the emergence of Jewish and Christian discourses of religious violence within their Roman imperial context with an emphasis on the shared textual practices through which authoritative scriptural traditions were redeployed to represent legitimate and indeed

sacralize violence **Ascent to Heaven in Jewish and Christian Apocalypses** Martha Himmelfarb, 1993-08-19 This is a study of the ancient Jewish and Christian apocalypses involving ascent into heaven which have received little scholarly attention in comparison to apocalypses concerned primarily with the end of the world Recent developments like the publication of the Aramaic Enoch fragments from Qumran and interest in questions of genre in the study of the apocalypses make this a particularly appropriate time to undertake this study Martha Himmelfarb places the apocalypses in relation to both their biblical antecedents and their context in the Greco Roman world Her analysis emphasizes the emergence of the understanding of heaven as temple in the Book of the Watchers the earliest of these apocalypses and the way in which this understanding affects the depiction of the culmination of ascent the hero's achievement of a place among the angels in the ascent apocalypses generally It also considers the place of secrets of nature and primeval history in these works Finally it offers an interpretation of the pseudepigraphy of the apocalypses and their function **Track Two Diplomacy and**

Jerusalem Tom Najem, Michael Molloy, Michael Bell, John Bell, 2017-02-03 Track Two Diplomacy and Jerusalem is the first in a series of three books which collectively present the work of the Jerusalem Old City Initiative or JOCI a major Canadian led Track Two diplomatic effort undertaken between 2003 and 2014 JOCI's raison d'être was to find sustainable governance solutions for the Old City of Jerusalem arguably the most sensitive and intractable of the final status issues dividing Palestinians and Israelis Track Two Diplomacy and Jerusalem includes a series of studies that place JOCI within its historical setting and explain the theoretical context of Track Two diplomacy The book then proceeds to present the Initiative's culminating documents which outline in detail its proposed Special Regime governance model Until now the proposals have remained unpublished and available only to a limited audience of key stakeholders Presenting the information in an accessible format this book will contribute positively to the wider conversation on Jerusalem especially with respect to the longstanding conflict over control and governance of this holy city It will therefore be of value to several audiences from the policy making community to the various traditions found in academia *A Study of the Geography of 1 Enoch 17-19*

Coblentz Bautch, 2003-11-01 *A Study of the Geography of 1 Enoch 17-19* examines the travels of the patriarch Enoch who is given a guided tour of extraordinary and at times terrifying places located throughout the cosmos Coblentz Bautch clarifies the text of 1 Enoch 17-19 by explaining how the sites described relate to one another geographically and by reconstructing the mental map of the geography that lies behind the textual descriptions Especially provocative is the consideration of sources from the ancient Near East Hebrew Bible and the world of Hellenistic Judaism that may have informed the world view of 1 Enoch 17-19 and parallel traditions Through this study an important facet of apocalypses is illumined their portrayal of geography and sacred space *Mapping Galilee in Josephus, Luke, and John* John Vonder Bruegge, 2016-05-30

The study of 1st century CE Galilee has become an important subfield within the broader disciplines of Ancient Judaism and Early Christianity In *Mapping Galilee* John M Vonder Bruegge examines how Galilee is portrayed both in ancient writings and

current scholarship as a variously mapped space using insights from critical geography as an evaluative lens Conventional approaches to Galilee treat it as a static backdrop for a deliberate and dynamic historical drama By reasserting geography as a creative process rather than a passive description Vonder Bruegge also reasserts ancient Galilee as an interpreted space a series of conceptualized maps laden with meaning significance and purpose for each individual author *The Politics of Sacred Space* Michael Dumper, 2002 Dumper explores how religious and political interests compete for control of the Old City of Jerusalem and how this competition affects the Middle East conflict as a whole *The Place of God at the Bookends of the Bible* David W. Larsen, 2023-10-09 What if everything in the Bible has a larger outer context than is usually accounted for Missional and biblical theologies suggest that the Bible presents a grand story like a play with multiple acts The acts typically include creation fall redemption and finally restoration But what if the whole story itself occurs in another larger setting occurring within a mission running in the background throughout the whole Bible How might this aid our research reading and application And why is this being proposed now This book explores these questions The larger context is the production of the place of God a home and homeland wherein God with his people dwell on earth Since place is underdeveloped in biblical studies the book presents a new method for interpreting place Then the book lays out the case that a grand mission to produce the place of God becomes the outer context for the whole Bible Finally the book defends this proposal with an in depth placial commentary of the bookends of the Bible since these bookends provide keys to unlock this message thereby inviting further study on the rest of the Bible and on the implications for this transformative perspective

Judaism and Human Geography Yossi Katz, 2021-05-11 Judaism is a religion and a way of life that combines beliefs as well as practical commandments and traditions encompassing all spheres of life Some of the numerous precepts emerge directly from the Torah the Law of Moses Others are commanded by Oral Law rulings of illustrious Jewish legal scholars throughout the generations and rabbinic responsa composed over hundreds of years and still being written today Like other religions Judaism has also developed unique symbols that have become virtually exclusive to it such as the Star of David and the menorah This book argues that Judaism impacts human geography in significant ways it shapes the environment and space of its believers thus creating a unique Jewish geography **Israel in a Turbulent Region** Tore Petersen, 2019-03-07 This anthology examines and deconstructs what Israeli security looks like and how its various security identities have evolved both before the establishment of the state and in the years and decades since 1948 It casts light on how aspects of Israel's foreign relations have been shaped as much by internal politics as by external challenge Further not only does it answer the questions surrounding Israel's past but examines carefully what type of country it has now become Compared to much of the turbulence in the region Israel's diplomacies have been remarkably resilient and inventive With the background of 100th anniversary of the Balfour declaration this book is a multidisciplinary study using several different methodological approaches from discursive analyses to theories of memories and identity to interviews with Israeli soldiers in the field to a

legal approach to the topic as well as International Relations studies and traditional archival studies South Africa was one of Israel's main partners in terms of security cooperation and weapons research and development until the fall of the apartheid regime This has been compensated with Israel opening up diplomatic relations with China 1991 and India 1992 and extending its ties with Japan While the EU often criticizes Israel's policies against the Palestinians this is mostly rhetoric as for practical purposes Israel is like a member of the EU This comprehensive volume studying contemporary Israel is an invaluable resource for students and scholars interested in Foreign and Security Policy Israel and the Middle East **The**
