Sacred Places With Drawings By William Slater:

Sacred Scents in Early Christianity and Islam Mary Thurlkill, 2016-07-26 Medieval scholars and cultural historians have recently turned their attention to the question of smells and what olfactory sensations reveal about society in general and holiness in particular *Sacred Scents in Early Christianity and Islam* contributes to that conversation explaining how early Christians and Muslims linked the sweet smell of sanctity with ideals of the body and sexuality created boundaries and sacred space and imagined their emerging communal identity Most importantly scent itself transgressive and difficult to control signaled transition and transformation between categories of meaning Christian and Islamic authors distinguished their own fragrant ethical and theological ideals against the stench of oppositional heresy and moral depravity Orthodox Christians ridiculed their stinking Arian neighbors and Muslims denounced the reeking corruption of Umayyad and Abbasid decadence Through the mouths of saints and prophets patriarchal authors labeled perfumed women as existential threats to vulnerable men and consigned them to enclosed private space for their protection as well as society's At the same time theologians praised both men and women who purified and transformed their bodies into aromatic offerings to God Both Christian and Muslim pilgrims venerated sainted men and women with perfumed offerings at tombstones indeed Christians and Muslims often worshipped together honoring common heroes such as Abraham Moses and Jonah *Sacred Scents* begins by surveying aroma's quotidian functions in Roman and pre Islamic cultural milieus within homes temples poetry kitchens and medicines Existing scholarship tends to frame scent as something available only to the wealthy or elite however perfumes spices and incense wafted through the lives of most early Christians and Muslims It ends by examining both traditions views of Paradise identified as the archetypal Garden and source of all perfumes and sweet smells Both Christian and Islamic texts explain Adam and Eve's profound grief at losing access to these heavenly aromas and celebrate God's mercy in allowing earthly remembrances Sacred scent thus prompts humanity's grief for what was lost and the yearning for paradisiacal transformation still to come

Theatre and Autocracy in the Ancient World Eric Csapo, Hans Rupprecht Goette, J. Richard Green, Brigitte Le Guen, Elodie Paillard, Jelle Stoop, Peter Wilson, 2022-10-24 Why did ancient autocrats patronise theatre How could ancient theatre rightly supposed to be an artform that developed and flourished under democracy serve their needs Plato claimed that poets of tragic drama drag states into tyranny and democracy The word order is very deliberate he goes on to say that tragic poets are honoured especially by the tyrants and secondly by the democracies Republic 568c For more than forty years scholars have explored the political ideological structural and economic links between democracy and theatre in ancient Greece By contrast the links between autocracy and theatre are virtually ignored despite the fact that for the first 200 years of theatre's existence more than a third of all theatre states were autocratic For the next 600 years theatre flourished almost exclusively under autocratic regimes The volume brings together experts in ancient theatre to undertake the first systematic study of the patterns of use made of the theatre by tyrants

regents kings and emperors Theatre and Autocracy in the Ancient World is the first comprehensive study of the historical circumstances and means by which autocrats turned a medium of mass communication into an instrument of mass control
