The Enigma of Good and Evil: The Moral Sentiment in Literature Anna-Teresa Tymieniecka,2006-08-27 Striking toward peace and harmony the human being is ceaselessly torn apart in personal social national life by wars feuds inequities and intimate personal conflicts for which there seems to be no respite Does the human condition in interaction with others imply a constant adversity Or is this conflict owing to an interior or external factor of evil governing our attitudes and conduct toward the other person To what criteria should I refer for appreciation judgment direction concerning my attitudes and my actions as they bear on the well being of others At the roots of these questions lies human experience which ought to be appropriately clarified before entering into speculative abstractions of the ethical theories and precepts Literature which in its very gist dwells upon disentangling in multiple perspective the peripeteia of our life experience offers us a unique field of source material for moral and ethical investigations Literature brings preeminently to light the Moral Sentiment which pervades our life with others our existence tout court Being modulated through the course of our experiences the Moral Sentiment sustains the very sense of literature and of personal human life Tymieniecka *Alpha God* Hector A. Garcia,2015-03-10 This book uses evolutionary psychology as a lens to explain religious violence and oppression The author a clinical psychologist examines religious scriptures rituals and canon law highlighting the many ways in which our evolutionary legacy has shaped the development of religion and continues to profoundly influence its expression The book focuses on the image of God as the dominant male in Judaism Christianity and Islam This traditional God concept is seen as a reflection of the dominant ape paradigm so evident in the hierarchical social structures of primates with whom we have a strong genetic connection The author describes the main features of male dominated primate social hierarchies specifically the role of the alpha male as the protector of the group his sexual dominance and use of violence and oppression to attain food females and territory in group altruism vs out group hostility vs them and displays of dominance and submission to establish roles within the social hierarchy The parallels between these features of primate society and human religious rituals and concepts make it clear that religion especially its oppressive and

violent tendencies is rooted in the deep evolutionary past This incisive analysis goes a long way toward explaining the historic and ongoing violence committed in the name of religion      **Marisa Mori and the Futurists** Jennifer Griffiths,2023-01-12 This book introduces a compelling new personality to the modernist canon Marisa Mori 1900 1985 who became the only female contributor to The Futurist Cookbook 1932 with her recipe for Italian Breasts in the Sun Providing something more complex than a traditional biographical account Griffiths presents a feminist critique of Mori s art converging on issues of gender culture and history to offer new critical perspectives on Italian modernism If subsequently written out of modernist memory Mori was once at the center of the Futurism movement in Italy yet she worked outside the major European capitals and fluctuated between traditional figurative subjects and abstract experimentation As a result her in between pictures can help to re think the margins of modernism By situating Mori s most significant artworks in the critical context of interwar Fascism and highlighting her artistic contributions before during and after her Futurist decade Griffiths contributes to a growing body of knowledge on the women who participated in the Italian Futurist movement In doing so she explores a woman artist s struggle for modernity among the Italian Futurists in an age of Fascism      **Black Elk** Michael F.
