Liturgical Theology as a Research Program Joris Geldhof, 2020-06-02 This essay is centered around five questions i What is the proper place of liturgical theology ii Which evolutions have there been in the past and which current tendencies are there in the field of liturgical theology iii Which contents must liturgical theologians focus on iv How can liturgical theologians engage in research And v

How can liturgical theology appropriately respond to what happens in Church and society Each question corresponds with one part The rationale behind ordering the content of this essay in this way is the following starting from a reflection about the non evident place of liturgical theology an attempt is made to give it a fitting profile again on the basis of its genealogy in the Liturgical Movement Correspondingly liturgical theology can be considered a full fledged research program which does not simply deal with Christian rituals festivals and sacraments but with the core of Christian faith

Messiaen's Final Works Christopher Dingle,2017-07-05 When Olivier Messiaen 1908 1992 completed the vast opera Saint Fran s d Assise in 1983 he was mentally and physically exhausted and believed that this monumental work would be his final compositional statement In fact he completed seven further works and these form the focus of the present study Christopher Dingle suggests that following the crisis provoked by the opera Messiaen s music underwent a discernible change in style He examines these seven works to identify characteristics of the composer s music in particular an often overlooked aspect of his technique harmony Part I of the book begins with a brief historical survey before discussing Saint Fran s d Assise as the work which defines everything that follows Part II examines the series of miniatures that came after the opera and their links with lairs sur l Au Del his final masterpiece lairs forms the subject of Part III of the book Each movement is analysed in turn before the work is considered as a whole and its hidden structure and motivic cohesion is revealed Finally Part IV considers the incomplete Concert and key stylistic features of the works of Messiaen s final years Subject Catalog, 1978 Library of Congress,1978

The Catholic Church Walter Kasper,2015-02-26 Walter Kasper is already well known and loved throughout the English speaking world He has held high office in the Vatican but until his recent retirement has felt constrained from publishing what he really thinks and his vision of the Church for the future Kasper brings to conclusion a project that has been pursued for years as it joins together his greatest monographs on the subject of God s teaching and Christology The book covers three main topics Nature Reality and the Mission of the Church The introductory section is autobiographical and the reader can see Kasper s personal and theological way in to and with the Church He develops the actual ecclesiological exegesis for Kasper the representation of the Being of the Church is not about empirical description but rather a testimony of being He emphasizes that nobody is able to apply the stereotypical and idealistic image of the heavens to the critical acknowledgement of the church s present The program of the Church is ultimately not self directed but rather remains oriented towards the finalization of the arrival of the kingdom of God and the spiritual healing of the human race

Koinonia and the Quest for an Ecumenical Ecclesiology Lorelei F. Fuchs,2008 The word koinonia has gained prominence in recent ecumenical discussions In this original and substantial work Lorelei Fuchs proposes the theological idea of koinonia commonly translated as communion or fellowship as the key to moving fractured churches toward a future unity Fuchs challenges churches to move beyond mere dialogue and to apply ecumenical insights at the local level She begins by relating the exegetical meaning of koinonia to its ecumenical meaning tracing the place of koinonia both within the churches and

between the churches She then examines the concept of koinonia in the extensive and fruitful dialogues that have taken place between Lutherans Anglicans and Roman Catholics finally articulating a symbolic competence for communionality that provides a rich and workable way forward for church unity at all levels Encompassing the latest in ecumenical thought Koinonia and the Quest for an Ecumenical Ecclesiology provides a broad thoughtful framework for realizing Christ's prayer that all may be one so that the world may believe The Active Participation of the Faithful in the Eucharist on the Basis of

Common Priesthood Stella Adamma Nneji, 2018-06-15 One of the significant points of the Second Vatican Council is its emphasis on the status of the lay faithful in the church which includes active participation in the life of faith The council spoke of the active participation of all the faithful in liturgical celebrations on the basis of the common priesthood of the faithful which is conferred during baptism and through which every believer shares in the priestly kingly and prophetic offices of Christ In this book Stella Nneji develops an ecclesiological critical reflection on the teaching of the Second Vatican Council with regard to active participation Focusing especially on the church as people of God Nneji shows how the idea of participation is not merely a passive action but an active one Based on the ecclesiological reflection on the church as people of God and its relevance for active participation she maintains that Vatican II's vision on active participation is relevant to the upbuilding of the body of Christ church This vision integrates a critical thinking especially regarding those places where the implementation of Vatican II's teachings seems difficult Naturally Human, Supernaturally God Adam G.

Cooper, 2014-05-01 Naturally Human Supernaturally God seeks to open a small window upon an interesting case of theological convergence between three of the most important theologians of the pre Conciliar period of Catholic theology Rignald Garrigou Lagrange O P Karl Rahner S J and Henri de Lubac S J each of whom played a vital role in the Second Vatican Council The differences between these three figures sometimes seem to run so deep as to defy resolution Yet Cooper argues they were strangely united in a shared conviction today's church urgently needs to renew its acquaintance with an ancient Christian theme the doctrine of deification *Semiotic Theory and Sacramentality in Hugh of Saint Victor* Ruben

Angelici, 2019-08-01 This book offers Hugh of Saint Victor's early scholastic thoughts on sacrament in order to re-discover the pre-modern theological understanding of ontological signification The Christian understanding of sacrament through the category of signs results in a theology that inherently shares in the philosophical notion of semiotics Yet through the advent of post-structuralism current sign theory is effectively shaped by post-Kantian ontological foundations This can lead to misinterpretations of the sacramental theology that predates this intellectual turn The book works within a context of Christological realist mysticism Such an approach allows mutually informing debates in semiotic development and studies on sacramental theology to sit side by side In addition as a work of *ressourcement* influenced by the methodology and concerns of the historical French *Ressourcement* this study seeks to continue an engagement with some of the most promising sacramental positions that have emerged throughout twentieth-century theology particularly with the revival of interest in

Victorine theology By providing an examination of sacramentality and theories of signification in the early scholastic theology of Hugh of Saint Victor this book gives fresh impetus to the theology surrounding sacrament As such it will be of great interest to scholars of mysticism theologians of sacrament philosophical theologians and philosophers of religion

Crossing the Line ,1957 *Cistercian Fathers and Forefathers* Thomas Merton,2018-09-15 This volume of previously uncollected studies makes a notable contribution to Merton s extensive and influential legacy This volume includes pieces on eleventh and twelfth century monastics by Thomas Merton perhaps the most significant American Catholic spiritual writer of the twentieth century The essays are difficult to locate elsewhere the conference transcriptions are available only here

Catholic Cults and Devotions Michael P. Carroll,1989 Imagine a heart which has been ripped from a man s body wrapped with thorns pierced with a knife and then placed on the man s chest or a group of people who believe that wearing a small rectangle of wool next to their skin ensures that they will go to heaven as long as it is brown wool and worn continuously Although psychoanalysts have long investigated similar ideas and beliefs they have ignored popular Catholicism even though behaviour such as this occurs over and over again in the history of Catholic cults and devotions
