Everyday Objects William Henry Davenport Adams, 2015-02-24 Example in this ebook The very favourable reception accorded both by Press and Public to the Circle of the Year has induced me to prepare a second volume similar in design but dealing with different branches of the same subject As the former was founded on the first series of a popular French work *Les Saisons* by M Hoefer so the present has been suggested by the second series but in availing myself of it I have omitted much I have revised more and at various parts my additions have been considerable And here as in my former effort I have written from a popular rather than a scientific point of view It has not been my object to sketch the outlines or lay down the foundations of any science but to show as best I could how much of wonder and beauty enters into our daily life and what inexhaustible sources of study lie at our very feet It is perhaps a misfortune of our common systems of education that they too much neglect the tuition of the eye that the young are not taught to mark the curious and interesting objects which are comprehended within their daily vision that they know so much about ancient mythology and so little about modern science so much about gods and heroes so little about stars and flowers I have called this volume *Everyday Objects* not because those which it describes may be seen every day but because they mostly belong to the region of the commonplace and familiar and I have called it *Picturesque Aspects of Natural History* because I have endeavoured in companionship with my French collaborateur to indicate the poetical side of the various sciences into which I have presumed to penetrate If it should awaken a love of nature in any breast or develop a spirit of inquiry which may lead the student further and further on the path of knowledge the labour bestowed upon these pages will not have been in vain The instinct of curiosity says M Hoefer in his preface to the first series of *Les Saisons* is the awakening of the intellectual life it commences with the lisping of the child accompanies the adult in every phase of his existence and far from becoming extinct with the last throb of the heart revives before the unknown shadows of the grave What then is there in the whole world of greater importance to follow and direct than the movements and impulses of this curiosity of these uncertain pulsations of the soul In this lies the secret of all education and upon education depends the future of humanity Unfortunately the methods hitherto employed have been absolutely insufficient And the insufficiency is most notable as regards the imperfect and defective training given to the instinct of curiosity Observe the child Of everything which excites his attention he never fails to ask you the reason why It is thus that he enters into the connexion of cause and effect It is a sign But instead of following up this natural indication and developing the thought by the exercise of the reason we proceed as if the being under our charge were incapable of reason we overload the memory of the child with a multitude of words whose value he cannot understand until later in life and perhaps never The true direction of the mind is to proceed from the thought to the word and not from the

word to the thought It is for want of having recognised and applied this principle that our educational systems have failed so utterly To be continue in this ebook      **Booster ICSE Question Bank Buzzword Class 7** Reena Sidhu,2025-09-08 Based on the ICSE Buzzword English Reader for Class 7 this book provides chapter wise solved questions vocabulary support and reference answers It equips students with strong comprehension writing and analysis skills ensuring complete exam preparation      Health and Humor Charles Frederick Schafer,2008-10 Retired surgeon Charles F Schafer knows firsthand that reading about health can be boring He did just that for four years while researching for Health and Humor Charlie hates to bore folks hence he spiced the Health and Humor with many funny moments Readers will smile and laugh as they read through Charlie s ten zones for health and long life including exercise diabetes foot heart health obesity smoking brain health use of alcohol and of health supplements If Health and Humor bores you Charlie says to email him He won t refund your money but he will drop to his knees and beg you to forgive him
