S G Human Intimacy Cox,1999-08-01 **Human Intimacy** Frank D. Cox,1987-03 **Civil Society And The State In Singapore** Carol Soon,Gillian Koh,2017-01-05 Set within the context of growing political pluralism and the increasing use of new communication technologies for social mobilisation the Institute of Policy Studies organised a national conference on civil society in November 2013 This collection of the essays that were presented at or inspired by the conference provides nuanced analyses of the development of the sector in Singapore since the Institute s first such conference held in 1998 The first section of the book discusses the different philosophies and approaches that underpin how civic activists engage with the State the second section examines some key forces of change that are re shaping the sector and the third section sets out some emerging issues facing it Combining insights from experts and civic activists themselves this book proposes an agenda for the future development of the civil society in Singapore *Reimagining the More-Than-Human City* Jamie Wang,2024-10-01 An exploration of the multifaceted urban environmental issues in Singapore through a more than human lens calling for new ways to think of and story cities As climate change accelerates and urbanization intensifies our need for more sustainable and livable cities has never been more urgent Yet the imaginary of a flourishing urban ecofuture is often driven by a specific version of sustainability that is tied to both high tech futurism and persistent economic growth What kinds of sustainable futures are we calling forth and at what and whose expense In *Reimagining the More Than Human City* Jamie Wang attempts to answer these questions by critically examining the sociocultural political ethical and affective facets of human environment dynamics in the urban nexus with a geographic focus on Singapore Widely considered a model for the future of urbanism and an emblematic new world city Singapore Wang contends is a fascinating site to explore how modernist sustainable urbanism is imagined and put into practice Drawing on field research this book explores distinct and intrarelated urban imaginaries situated in various sites from the futuristic authoritarian Supertree Grove positioned as a technologically sustainable solution to a velocity charged and singular urban transportation system to highly protected nature reserves and to the cemeteries where graves and memories continue to be exhumed and erased to make way for development Wang also attends to more contingent yet hopeful alternatives that aim to reconfigure current urban approaches In the face of growing enthusiasm for building high tech sustainable and natural cities Wang ultimately argues that urban imaginings must create space for a more relational understanding of urban environments Imagining Heaven in the Middle Ages Jan S. Emerson,2014-04-08 Medieval attempts to capture a glimpse of heaven range from the ethereal to the mundane utilizing media as diverse as maps cathedrals songs treatises poems visions and sewer systems Heaven was at once the goal of the individual Christian life and the end of the cosmic plan It was simply stated perfection But interpretations varied from the traditional to the dangerously unique as artists and authors theologians and visionaries struggled to define that perfection Depending on the source heaven s attributes vary from height to depth darkness to light

silence to symphony the souls within it from activity to passivity experience to essence participation to distant admiration Questions addressed in this anthology include Are erotic and spiritual love mutually exclusive Does the soul's happiness depend on the resurrection of the body What will be the nature of the transfigured body Will it retain its gender Will it have senses Will it know desire How can desire and fulfillment exist together Can the human soul ever know God Contributors to this volume examine well known and previously unexplored texts and artefacts from historical and art historical theological philosophical and literary perspectives to complement and challenge more general surveys of the history of heaven and above all to illuminate the richness and variety of medieval Christian ideas on heaven
