Lor Du Zephyrus Roman:

Trade, Commerce, and the State in the Roman World Andrew Wilson, Alan K. Bowman, 2018 In this volume papers by leading Roman historians and archaeologists discuss trade within the Roman Empire and beyond its frontiers between c 100 BC and AD 350 focusing especially on the role of the Roman state in shaping the institutional framework for trade As part of a novel interdisciplinary approach to the subject the chapters address its myriad facets on the basis of broadly different sources of evidence historical papyrological and archaeological demonstrating how collaborations with the elite holders of wealth within the empire fundamentally changed its political character in the longer term The Oxford Handbook of the Archaeology of Roman Germany Simon James, Stefan Krmnicek, 2020 This Handbook makes the work of modern German and overwhelmingly German language scholarship on the archaeology of Roman Germany available in English presenting the latest developments in current research and providing a truly international perspective on the topic

Coins of the Roman Revolution, 49 BC-AD 14 Andrew Burnett, Lucia F. Carbone, Hannah Cornwell, Anton Powell, 2020-12-15 Coins of the best known Roman revolutionary era allow rival pretenders to speak to us directly After the deaths of Caesar and Cicero in 44 and 43 BC hardly one word has been reliably transmitted to us from even the two most powerful opponents of Octavian Mark Antony and Sextus Pompeius except through coinage and the occasional inscription The coins are an antidote to a widespread fault in modern approaches the idea from hindsight that the Roman Republic was doomed that the rise of Octavian Augustus to monarchy was inevitable and that contemporaries might have sensed as much Ancient works in other genres skilfully encouraged such hindsight Augustus in the *Res Gestae* and Virgil in *Georgics* and *Aeneid* sought to flatten the history of the period and largely to efface Octavian's defeated rivals But the latter's coins in precious metal were not easily recovered and suppressed by Authority They remain for scholars to revalue In our own age when public untruthfulness about history is increasingly accepted or challenged we may value anew the discipline of searching for other ancient voices which ruling discourse has not quite managed to silence In this book eleven new essays explore the coinage of Rome's competing dynasts Julius Caesar's coins and those of his son Octavian Augustus are studied But similar and respectful attention is given to the issues of their opponents Cato the Younger and Q Metellus Scipio Mark Antony and Sextus Pompeius Q Cornificius and others A shared aim is to understand mentalities the forecasts current in an age of rare insecurity as the superpower of the Mediterranean faced and slowly recovered from division and ruin

Coins, Riches, and Lands Fernando López Sánchez, Marisa Bueno, David Martínez Chico, 2025-01-31 A study of how coins riches and lands were gained and distributed among the soldiers warriors and mercenaries in the Antiquity and Early Medieval times Land was the ideal store of wealth in the ancient Mediterranean world It brought social respectability and its possession allowed participation in the politics of the cities governed by landowning elites Crucial defense of the interests of a given polity through armed services often involved the distribution of

lands to laborers still not integrated in these societies Mediterranean urban dynamics also involved paid labor and were always in need of short contract manpower including skilled soldiers and warriors For short time military services lands were not always available so soldiers and warriors were paid with coins and riches Because of their superior development urban economies in the Mediterranean were able to attract migrant paid labor When returning home the migrant warriors carried coins and riches that would enable them to maximize the return that a homecoming entailed Although difficult to prove whether these men were paid in advance or when discharged it is an important issue as it shows the strength of one contractor over another and helps to better understand the construction of statehood in ancient and early medieval times This collection of papers sheds light on how coins riches and lands were gained and distributed among soldiers warriors and mercenaries Contributions cover a wide chronological span from Late Pharaonic to early medieval times linking a well defined core area the Mediterranean basin with its peripheries Central Europe and Scandinavia to the north and the margins of the Sahara Desert and the Fertile Crescent to the south and the east
