Renzi, 2004-03-24 Jules Verne Voila a name that resonates with visions of fantastic adventures and images of exotic exploits In his voyages extraordinaires the noted French author fuses his encyclopedic knowledge of science and geography with his ability to tell fascinating tales taking his readers on unprecedented journeys across the globe into the earth and out into space This revered writer who with his boundless imagination had hoped to contribute substantially to the world of letters has surpassed that expectation to become coincidentally a significant influence on film Jules Verne on Film is both a penetrating analytical overview of Verne's epic novels and a comprehensive filmography of the numerous films inspired by his stories and characters There are the obvious adaptations that come directly from the pages of Verne's writings films such as In Search of the Castaways and Mysterious Island However looking closely at the plots characters and themes of many

other films science fiction and otherwise one discovers that the incomparable Verne has had a far wider influence on filmmakers than one might have thought For instance most of us are familiar with Disney's 20 000 Leagues Under the Sea 1954 and some of us may have even seen the two 1997 television productions But Verne's classic undersea adventure also provides the underpinnings for such entertaining movies as Fantastic Voyage 1966 and Innerspace 1987 Structurally Jules Verne on Film begins with a biographical sketch and contains 23 chapters arranged alphabetically according to book title starting with The Adventures of Captain Hatteras and ending with Voyage Across the Impossible Each chapter includes a summary and analysis of Verne's story followed by a chronological treatment of the cinematic adaptations compared to their respective written work Production credits appear in the film entries along with plot synopses and thorough critical commentaries

BOOK JACKET **Beyond Realism** Robert Singer, 2024-04-30 Beyond Realism Naturalist Film in Theory and Practice is the first major critical study of international naturalist cinema Often mistaken for realist film international naturalist cinema has a unique cultural and critical history From its earliest representation in silent films such as Walsh's Regeneration 1915 and Eisenstein's Stachka Strike 1925 to recent productions such as Chukwu's Clemency 2019 and Aronofsky's The Whale 2022 the naturalist film narrative encompasses the whole of film history traversing language movement and genre The naturalist film is predicated on two foundational intersecting paradigms that configure as one ideological system in an overarching scientific and social experimental narrative Either the scientific or social paradigm may be dominant in the film narrative or they may simply co exist but a naturalist film reveals both templates and most significantly suggests an implicit cinematic anthropology that renders the body as an observed spectacle

Topoi/Graphein Christian Abrahamsson, 2018-01-01 In Topoi Graphein Christian Abrahamsson maps the paradoxical limit of the in between to reveal that to be human is to know how to live with the difference between the known and the unknown Using filmic case studies including Code Inconnu Lord of the Flies and Apocalypse Now and focusing on key concerns developed in the works of the philosophers Deleuze Olsson and Wittgenstein Abrahamsson starts within the notion of fixed spatiality in which human thought and action are anchored in the given of identity He then moves through a social world in which spatiotemporal transformations are neither fixed nor taken for granted Finally he edges into the pure temporality that lies beyond the maps of fixed points and social relations Each chapter is organized into two subjects topoi or excerpts from the films and graphein the author's interpretation of presented theories to

mirror the displacements transpositions juxtapositions fluctuations and transformations between delimited categories A landmark work in the study of human geography Abrahamsson s book proposes that academic and intellectual attention should focus on the spatialization between meaning and its materialization in everyday life
