Confounding the Color Line is an essential interdisciplinary introduction to the myriad relationships forged for centuries between Indians and Blacks in North America. Since the days of slavery the lives and destinies of Indians and Blacks have been entwined, thrown together through circumstance, institutional design, or personal choice. Cultural sharing and intermarriage have resulted in complex identities for some members of Indian and Black communities today. The contributors to this volume examine the origins, history, various manifestations, and long-term consequences of the different connections that have been established between Indians and Blacks. Stimulating examples of a range of relations are offered, including the challenges faced by Cherokee freedmen, the lives of Afro-Indian whalers in New England, and the ways in which Indians and Africans interacted in Spanish colonial New Mexico. Special attention is given to slavery and its continuing legacy both in the Old South and in Indian Territory. The intricate nature of modern Indian-Black relations is showcased through discussions of the ties between Black athletes and Indian mascots, the complex identities of Indians in southern New England, the problem of Indian identity within the African American community, and the way in which today's Lumbee Indians have creatively engaged with African American church music. At once informative and provocative, *Confounding the Color Line* sheds valuable light on a pivotal and not well-understood relationship between these communities of color, which together and separately have affected, sometimes profoundly, the course of American history.

Delivering Aid Thomas A. Krainz, 2005
Delivering Aid examines local welfare practices, policies, and debates during the late nineteenth and early twentieth centuries in a diverse collection of western communities, including Protestant cash-crop homesteaders, Catholic Hispanic subsistence farmers, miners in a dying mining center, residents in a dominant regional city, Native Americans on an Indian reservation, and farmers and workers in a stable mixed economy. Krainz investigates how communities used poor relief, mothers' pensions, blind benefits, county hospitals, and poor farms, as well as explains the roles that private charities played in sustaining needy residents. *Delivering Aid* challenges existing historical interpretations of the development of America's welfare state. Most scholars argue that the Progressive Era was a major transformation in welfare practices due to new theories about poverty and charity. Yet, drawing on evidence from local county pauper books, Krainz concludes that by focusing on implementation, welfare practices show little change. Still, assistance varied widely since local conditions, settlement patterns, economic conditions, environmental factors, religious practices, existing relief policies, and decisions by local residents shaped each community's welfare strategies and were far more important in determining relief practices than were new ideas concerning poverty.

Repositioning North American Migration History Marc S. Rodriguez, 2004
 An in-depth look at trends in North American internal migration. This volume gathers established and new scholars working on North American immigration, transmigration, internal migration, and citizenship, whose work analyzes the development of migrant and state-level institutions, as well as migrant networks. With contemporary migration research most often focused on the development of transnational communities and the ways international migrants maintain relationships with their sending region, that

sustain the circularflow of people ideas and traditions across national boundaries it is useful to compare these to similar patterns evident within the terrain of internal migration To date however international and internal migration studies have unfolded in relative isolation from one another with each operating within these distinct fields of expertise rather than across them Although there has been some important linking there has not been a recent major consideration of human migration that works across and within the various borders of the North American continent Thus the volume presents a variety of chapters that seek to consider human migration in comparative perspective across the internal international divide Marc S Rodriguez is Assistant Professor of History at Princeton University Donna R Gabbaccia is the Mellon Professor of History at the University of Pittsburgh James R Grossman is the Vice President of Research and Education at the Newberry Library Chicago Contributors Josef Barton Wallace Best Donna Gabbaccia James Gregory Tobias Higbie Mae Ngai Walter Nugent Annelise Orleck Kunal Parker Kimberly Phillips Bruno Ramirez Marc Rodriguez Repositioning North American Migration History is a volume in Studies in Comparative History sponsored by Princeton University s Shelby Cullom Davis Center for Historical Studies

Basin Indians increasingly found themselves engulfed in the chaotic storms of European expansion and responded in ways that refashioned themselves and those around them Focusing on Ute Paiute and Shoshone Indians Blackhawk illuminates this history through a lens of violence excavating the myriad impacts of colonial expansion Brutal networks of trade and slavery forged the Spanish borderlands and the use of violence became for many Indians a necessary survival strategy particularly after Mexican Independence when many became raiders and slave traffickers Throughout such violent processes these Native communities struggled to adapt to their changing environments sometimes scoring remarkable political ends while suffering immense reprisals Violence over the Land is a passionate reminder of the high costs that the making of American history occasioned for many indigenous peoples written from the vantage point of an Indian scholar whose own family history is intimately bound up in its enduring legacies
