Photogenic Montreal Martha Langford, Johanne Sloan, 2021-12-15 The agency of photographs is a recurrent concern within the context of the city Whether found in architectural records social documentary photojournalism or artistic practice photographic objects are embedded in urban contestation aesthetically charged by artists reinserted into social histories and mobilized to imagine a future city Photogenic Montreal takes a question initially posed by heritage debates what does photography preserve and creates a rich conversation about the agency of the human actors before and behind the camera and of the medium itself The interplay of archives and activism structures the book Photographs that appear to be sealed off in newspapers storage rooms or archives accrue new meaning when they cross the threshold back into social spaces and circulate anew It is through the reactivation of archival photographs that submerged traces of urban experience are discovered and alternate histories of Montreal can be recounted Multiple forms of activism and artistic expression complement this archival work Beginning in the 1960s community minded and heritage groups responded to the tensions arising from urban reconstruction gentrification and the erasure of neighbourhoods this activism also left its photographic traces Attentive to the still changing face of the city's architecture neighbourhoods and street life Photogenic Montreal participates in debates about who the city belongs to who speaks on its behalf and how to picture its past and present

Church of Notre Dame in Montreal Franklin Toker, 1991-05-01 The construction of the Church of Notre Dame was one of the boldest building projects of the nineteenth century The first major example of Gothic Revival architecture in Canada it was at the time of its completion the largest

building in North America Franklin Toker treats the church not only as a work of art but also as a historical document that reflected the social and nationalist aspirations of the community and marked a high point in the fascinating career of its architect James O Donnell **Montreal, City of Spires** Clarence Epstein,2012-03-19T00:00:00-04:00 Of the fifty religious buildings discussed in this book only a precious few remain standing despite the fact that Montreal boasts one of the largest and most eclectic groupings of Georgian and Victorian structures of any city in North America Following the British conquest of New France in 1759 a remarkable series of transformations took place in the small Catholic trading town of Montreal Given the diversity of settlers forced to live side by side the new church buildings that were to rise became strategic public spaces meeting places as well as power bases It was no wonder that by the time Mark Twain toured Canada s first metropolis in the 1880s he found that one could not throw a brick in the place without breaking a church window By addressing the social religious and architectural issues surrounding these colonial era structures it will become apparent that Montreal was at once a shining jewel in England s imperial crown a chief outpost of Catholicism in the New World as well as the British North American headquarters for more than a dozen independent congregations List of Shipping ,1907 **Canada and Its Provinces** Adam Shortt,Sir Arthur George Doughty,1917 *Statistical Report...* New York Produce Exchange,1884
