Lost Tomb Of Viracocha Unlocking The Secrets Of The Peruvian Pyramids:

The Lost Tomb of Viracocha Maurice Cotterell, 2002-01-07 For centuries scholars have been baffled by Inca accounts that spoke of legendary white gods that walked the lands of South America performing miracles Stranger still were the carvings left by the mysterious civilisations of Tiahuanaco thought to be the most ancient site on earth It was believed the codes could never be broken But now for the first time ever Maurice Cotterell unlocks the secrets of the Inca and discovers the treasure filled tombs of Viracocha Pachacamac and Viracocha The story of the white gods was not a myth after all These two great sun kings who side stepped the annals of history actually lived and walked the lands of Peru over 1 500 years ago The Lost Tomb of Viracocha Maurice Cotterell, 2003-02-20 Bestselling author of The Tutankhamun Prophecies decodes the spiritual mysteries hidden within the recently discovered Mochian pyramids in Sipan Reveals that ancient Inca sun kings possessed the same solar science as Lord Pacal of Mexico and Tutankhamun of Egypt Solves the mystery of the ancient Inca legend concerning a white god who traveled through ancient Peru healing the sick and restoring sight to the blind Inca mythology tells of a tall white leader who wandered along the coast performing miracles a man they called Viracocha Pachamac which means God of the World Centuries later another great miracle worker similar to the first appeared and wandered the countryside healing the sick and restoring sight to the blind He too was named Viracocha These accounts have long baffled scholars as have the carvings left by the people of Tiahuanaco who preserved these legends Now Maurice Cotterell who cracked the codes hidden in both ancient Maya carvings and the treasures of Tutankhamun unlocks the secrets concealed within the treasure filled tombs of Viracocha Pachamac and Viracocha His investigation of these tombs held within the long lost pyramids of Peru proves that these two figures were not myth but actually existed 1 500 years ago The two Viracocha sun kings had much in common with Lord Pacal of Mexico and Tutankhamun of Egypt and like them left the secrets of a super solar science encoded in their treasures This science reveals the intimate connection between the cycles of life and birth on Earth and solar activity such as sunspots More important it holds the key to reincarnation and human spiritual realization with answers to the spiritual mysteries of life and death **Beyond 2012: Catastrophe or Awakening?** Geoff Stray, 2009-05-21 An illustrated encyclopedic overview of the prophecies calendars and theories that indicate the year 2012 is a threshold of great change for humanity Looks at the scientific and anthropological evidence for the rare galactic alignment due to occur in December 2012 Sifts through the catastrophic theories to show what we might really expect in 2012 In December of 2012 the Mayan Calendar s Great Cycle will come to an end Opinion remains divided as to whether apocalyptic scenarios of worldwide destruction or utopian visions of a spiritually renewed humanity will prevail after this key date has passed What is certain however is that a rare galactic alignment will occur one so unique that it is found at the core of many wisdom traditions from around the globe Geoff Stray has been collecting the vast amounts of data relating to the 2012 phenomena since 1982 Far from confining his research to the Maya who provide the most prominent predictions indicating

this date will herald significant changes for humanity he has studied the prophetic traditions of other cultures including the Tibetan Chinese Jewish Ethiopian and tribal cultures from around the globe to show the kind of convergence of cosmic purposes happening along a number of parallel tracks This book offers an extensive study of many modern theories including Terence McKenna's timewave zero and Maurice Cotterell's sunspot research as well as anomalous phenomena such as near death experiences and crop circles Sifting through all the scientific research and speculation that the year 2012 has inspired Geoff Stray provides an encyclopedic look at what we might really expect on this pivotal date

Raised Field Technology Arthur Stephen Morris, 2004 During the Inca Empire and indeed in the previous centuries the harsh climate and difficult physical environment of the Andean plateau around Lake Titicaca sustained a population many times larger than the one struggling to sustain itself in more recent times Academics began studying this in the late 1960s and discovered that the

Incas and their forefathers had used a complex system of raised fields and irrigation canals to obtain high yields from their crops. This technology seems to have been lost after the Spanish conquest. The Peruvian and Bolivian governments as well as international NGOs which have set about reintroducing this system of farming along with the traditional Andean crops such as quinoa, canihua and amaranth. This book presents a critical analysis of these raised field projects setting them in context and taking into consideration factors such as agrarian reforms and counter reforms, the psychology of aid dependency and the limited remit of the agencies. It shows that very few of the raised field projects have led to permanent cultivation and explains the failures in terms of a variety of standard factors, a more integrated approach which recognizes the integrated nature of society and economy in the traditional communities and the existence of a rounded Andean technology of which the raised fields comprise only one part.
