*Figuring* Maria Popova, 2019-02-05 Figuring explores the complexities of love and the human search for truth and meaning through the interconnected lives of several historical figures across four centuries beginning with the astronomer Johannes Kepler who discovered the laws of planetary motion and ending with the marine biologist and author Rachel Carson who catalyzed the environmental movement Stretching between these figures is a cast of artists writers and scientists mostly women mostly queer whose public

contribution have risen out of their unclassifiable and often heartbreaking private relationships to change the way we understand experience and appreciate the universe Among them are the astronomer Maria Mitchell who paved the way for women in science the sculptor Harriet Hosmer who did the same in art the journalist and literary critic Margaret Fuller who sparked the feminist movement and the poet Emily Dickinson Emanating from these lives are larger questions about the measure of a good life and what it means to leave a lasting mark of betterment on an imperfect world Are achievement and acclaim enough for happiness Is genius Is love Weaving through the narrative is a set of peripheral figures Ralph Waldo Emerson Charles Darwin Elizabeth Barrett Browning Herman Melville Frederick Douglass Nathaniel Hawthorne and Walt Whitman and a tapestry of themes spanning music feminism the history of science the rise and decline of religion and how the intersection of astronomy poetry and Transcendentalist philosophy fomented the environmental movement Rachel Carson's Wonder-Filled World Kate Hannigan,2025-03-11 This STEAM picture book biography highlights how scientist and writer Rachel Carson became the author of the groundbreaking book *Silent Spring* and the mother of the modern environmental movement Rachel Carson wasn't always the Rachel Carson renowned environmental activist From her earliest years Rachel had a passion for nature to her it was a fairyland and she loved to write about her adventures and the creatures she saw Encouraged by teachers Rachel wanted nothing more than to study the ocean and its inhabitants Though unable to finish her PhD due to financial constraints Rachel found work in science and success as a nature writer In the course of her work Rachel learned about the harm caused by recently developed pesticides and chemicals that made their way into the environment Desperate to protect nature for future generations even as her health declined she penned the famous book *Silent Spring* a call to action against the threat of the deadly chemicals The book is anything but quiet selling more than 2 million copies and leading directly to changes like the Clean Air Act of 1963 and the Clean Water Act of 1972 Kate Hannigan the author of several award winning children's books joins her talents with Katie Hickey a longtime illustrator of popular picture book biographies to bring the mother of the environmental movement to life for a new generation of readers

**Spirituality in the Flesh** Robert C. Fuller,2008-09-08 Comfortable with the language of scientific analysis and sympathetic to the inherently subjective aspects of religious events Fuller introduces the biological study of religion by joining together this era's unprecedented understanding of bodily states with an expert's knowledge of religious phenomena Culling together insights from scientific observations historical allusions and literary references *Spirituality in the Flesh* offers a bold look at the biological underpinnings of religion and opens up new and exciting agendas for understanding the nature and value of human religiosity Sustaining Lake Superior Nancy Langston,2017-10-24 A compelling exploration of Lake Superior's conservation recovery and what it can teach us in the face of climate change Lake Superior the largest lake in the world has had a remarkable history including resource extraction and industrial exploitation that caused nearly irreversible degradation But in the past fifty years it has experienced a remarkable recovery and rebirth In this important

book leading environmental historian Nancy Langston offers a rich portrait of the lake's environmental and social history asking what lessons we should take from the conservation recovery as this extraordinary lake faces new environmental threats In her insightful exploration Langston reveals hope in ecosystem resilience and the power of community advocacy noting ways Lake Superior has rebounded from the effects of deforestation and toxic waste wrought by mining and paper manufacturing Yet despite the lake's resilience threats persist Langston cautions readers regarding new mining interests and persistent toxic pollutants that are mobilizing with climate change

The Fifties James R. Gaines, 2023-02-07 A bold and original argument that upends the myth of the Fifties as a decade of conformity to celebrate the solitary brave and stubborn individuals who pioneered the radical gay rights feminist civil rights and environmental movements from historian James R.
