*Makers and Romance of Alabama History* Benjamin Franklin Riley, 2020-09-28 The present volume is intended to be a substantial contribution to the history of Alabama by giving expansion to the recorded lives of its foremost citizens men who alike on the field and in the forum on the bench and in the sphere of commerce in the lecture room and in the pulpit on the farm and in the court in the field of development as well as in the ordinary walks of life have shared conspicuously in the erection of one of the proudest of the American commonwealths The distinction achieved by these eminent citizens in various orbits are worthy of perpetual record and their respective deeds and accomplishments deserve more than a bare reference in the current chronicles of the state Along the successive eras through which Alabama has passed first as a territory then as a state for a period exceeding a hundred years each of these worthies made a contribution to the construction of a mighty commonwealth and sheer justice requires that the specific task so worthily wrought by each should be a matter of permanent record The effort is here made not to follow the beaten path of chronological biography so much as to seize on the salient points in the life of each eminent leader show who and what he was and that which he did By means of a method like this these distinguished men become reflectors of the period in which each lived and wrought In addition is a series of romantic sketches which lie outside the channel of ordinary history and yet they serve the function of imparting to its pages a zest and flavor that relieve it largely of commonplace These scenes derived from the transactions of nearly four hundred years have been carefully gleaned from every possible source and are here embodied for the first time in convenient form The conditions which have attended on the evolution of a great state from the rawest of savage wildernesses have yielded a store of material intensely romantic The original tribes with their rude settlements and forts dotting the uncleared surface of Alabama over skimming the waters of the streams and bordering bays in their tiny canoes and threading the forests along narrow paths the invasions of the Spanish and the French and their transactions and conflicts as they would encounter aboriginal resistance and the later and lasting occupation of the territory by the Anglo Saxon who came with dominant determination to possess the land and to transform it through the agencies of a conquering civilization into an exalted government these have yielded a harvest of romance exceptional in its rareness and fascinating in its nature While the record of scenes like these afford diversion at the same time they serve as no inferior contribution to our history Like the lives of prominent makers of history these rare scenes are indexes of the times in which they took place
