Making All The Difference Inclusion Exclusion And American Law:

Making All the Difference Martha Minow, 1990 Martha Minow here takes a hard look at the way our legal system functions She confronts a variety of dilemmas of difference resulting from contradictory legal strategies strategies that attempt to correct inequalities by sometimes recognizing and sometimes ignoring differences Minow argues in effect for a reconstructed jurisprudence based on the ability to recognize and work with perceptible forms of difference **Temporary Special Measures** Ineke Boerefijn, 2003 Revised papers en comments that were presented at the meeting organised in Maastricht in October 2002 The aim of the meeting was threefold to provide input for the CEDAW Committee stimulate the legal debate on the issue of temporary measures and contribute towards the promotion of positive action measures in the Netherlands **Law and the Contradictions of the Disability Rights Movement** Samuel R. Bagenstos, 2009-06-23 The passage of the Americans with Disabilities Act in 1990 was hailed as revolutionary legislation but in the ensuing years restrictive Supreme Court decisions have prompted accusations that the Court has betrayed the disability rights movement The ADA can lay claim to notable successes yet people with disabilities continue to be unemployed at extremely high rates In this timely book Samuel R Bagenstos examines the history of the movement and discusses the various often conflicting projects of diverse participants He argues that while the courts deserve some criticism some may also be fairly aimed at the choices made by prominent disability rights activists as they crafted and argued for the ADA The author concludes with an assessment of the limits of antidiscrimination law in integrating and empowering people with disabilities and he suggests new policy directions to make these goals a reality Women in the Judiciary Ulrike Schultz, Gisela Shaw, 2013-09-13 Does gender matter in judging And if so in what way Why were there so few women judges only two or three decades ago and why are there so many now in most countries of the Western world How do women judges experience their work in a previously male dominated environment What are their professional careers How do they organise and live their lives And finally and most notably do women judge differently from men or even better These are the questions dealt with in this collection of contributions by seven authors from six countries UK Australia USA Canada Syria and Argentina contrasting views from common law and civil law countries In spite of differences in the two legal systems as well as greater gender diversity on the bench and the overall higher income and prestige enjoyed by judges in common law countries women judges in all these countries Syria included share many problems Diverse and intriguing facets are added to a debate that started thirty years ago but continues to leave ample space for further discussion This book was originally published as a special issue of International Journal of the Legal Profession **National Solutions to Trans-Border Problems?** Isidro Morales, 2016-04-22 Triggered by the North American Free Trade Agreement NAFTA Canada the United States and Mexico redefined their public policies to facilitate the regionalization of transactions However this volume addresses the institutional gaps that still remain focusing mainly on the cross border governance of security aspects It gathers interdisciplinary

contributions of specialists working on continental issues within Canada the United States and Mexico and highlights the transnational dimension of certain issues still managed under national framed policies Furthermore it explores the possibilities and constraints for moving public policy into new cross border governance strategies Divided in three parts the first part assesses what is at stake in cross border governance issues and whether the integrative trend in the region will be maintained or stalled in the years to come The second part explores the growing scope of security problems interconnected with borders migration energy and drug trafficking across the region It highlights how Mexico and Canada are responding or adapting their policy choices to a continental security approach framed by the US after the terrorist attacks of September 11 and to the major concerns of the Obama administration The third part focuses on the governance of territorial borders and bilateral affairs i e Mexico US and Canada Mexico relations
